MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

SIGNS of a change of view, chiefly apparent in the irregularities which prices display, are coming over Wall street. It must doubtless occur to many that while high quotations are maintained, the ability to make further advances does not appear to exist, except in special cases where there has been little or no participation in the recent upward movement, and where disclosures of new facts logicaly call for better prices. Money is made in the stock market by either long or short operations. The first are the movements brought about by a change of confidence, which, with reactions, extend over a considerable period, and produce the greatest difference between quotations. The second consist of taking quick advantage of changes in sentiment and the rallies produced by the laws of speculation. The question arises to-day whether we have not just seen the conclusion of a long movement. Certainly, quotations themselves support that idea. The advances lately seen may be called the Sound Money advance, which has been not only of long duration but of unusual extent, having in many instances more than doubled values. The lowest prices were seen just prior to the Bryan Madison Square meeting and the highest only a few days ago. What the swing has been in this interval of nearly two years and a half these quotations for some prominent stocks will show: Burlington 59-120, Atchison preferred 14-47, St. Paul 60-113, Rock Island 49-109, Delaware and Hudson 114-99, Lackawana 138-143, Erie first preferred 27-37, Louisville and Nashville 37-62, Missouri Pacific 15-36 and Omaha 30-87. These quotations show, in spite of the lagging of the coalers, an increase of values of such large proportions as to make not only further general advance very problematical indeed, but to suggest that, real values considered, reactions are much more likely.

FINANCING for an extended industrial movement puts a great strain on the Imperial Bank of Germany, a fact that, though more than usually apparent to-day, has been demonstrated before. The bank has fiduciary powers to issue notes to the extent of about $62,500,000, excesses of that amount have to be covered by cash in certain prescribed forms. To give elasticity to this circulation, the bank may make further issues on paying interest at the rate of 5 per cent. per annum to the Government. Until 1880, the tax-free limit was not exceeded, and in the following eight years, seldom and in small amount. The consequences of the Baring failure to Berlin, in 1890, made a taxable issue of $26,000,000 necessary, to be followed by a small one in 1893. Since 1895, these issues have been frequent and seem to grow necessary within more limited periods as time goes on. This year alone there have been a dozen such issues, varying from $5,000,000 to $70,000,000. From this it is argued that the bank should increase its capital and be allowed to enlarge its tax-free circulaton. Without direct information to the contrary, the system appears to be a good one from the business public's point of view, the bank having power to meet emergencies, but under restrictions that forbid its abuse. This is the period when national trade returns have prominence in the statistical journals and furnish interesting indications of the trend of commerce between the different countries. Among other things, they show that the trade between the United States and Great Britain is beginning to have more balance than has been the case for a couple of years. For instance, in the first six months of this year, our exports to Great Britain exceeded those of the same time in 1897 by more than $50,000,000 and our imports thence declined about $30,000,000 in the same period. The values of our exports and imports for the three months to Sept. 30 in the two years, however, differed only slightly. The over-sea trade of India, too, demonstrates a highly satisfactory tendency to revive. The "Temps," in commenting on the colonial trade of France, utters a note of warning to the colonial and national party on the danger of provoking conflicts with foreign countries in their eagerness for colonial extension and protection. The fact cannot be disguised, that journal remarks, that foreign countries are the essential markets for French trade. In 1897, England took 1,135 milion francs ($227,000,000) of French exports; Belgium, 513 milions $102,600,000); Germany, 380 millions ($76,000,000). From those figures one may judge of the imprudence of a Customs policy that would compromise those markets, and which under the pretext of a colonial compact would imperil the relations of France with other Powers and the future of her colonies. In Berlin, the consolidation of the electrical companies and the success of various industrial enterprises, evidenced by annual reports and increased dividends, and in Vienna the consolidation of the surface traveling lines, are the matters that give life to the bourses in those several centers. The Pekin Syndicate, who are to develop the Shansi concession, had a meeting, recently, at which they were entertained by a letter from no less a personage than Li Hung Chang, addressed to Lord Rothschild, on the value of the privilege secured to them, in which he said: "It is indeed a relief to turn from the many schemes for the political exploitation of China to consider one purely industrial and devoted to the arts of peace. The Ministers of the Tsung-li-Yamen hope that this first experiment to encourage the profitable investment of foreign capital in the interior of China will realize their expectations of benefit to Government and people, and to help provide the 'open door' of which we hear so much and see so little. The two contracts made with your Syndicate, after much conservative opposition, apply to a large and continuous area of rich mineral lands in the province of Shansi on the west, and Honan on the south, of the Metropolitian Province of Chihli, with rights to construct branch railways to connect mines with main lines and river navigation in adjoining provinces. For abundance of coal and iron in close proximity to each other, there is no other part of China—and few parts of the world, experts say—to compare in importance with the region now opened to the Syndicate; petroleum has been discovered, and the Syndicate may work that wherever found in or near their concession. With cheap and plentiful iron and coal the Syndicate can establish iron works on the spot to supply the enormous demand for manufactured iron and steel in every form required by China now and as she progresses. The extensive area assigned to the Syndicate will in the near future be extended in the province of Honan, South of the Yellow River, as soon as the Syndicate has proved its capability."

ANYTHING partaking of sharp practice or partisanship in connection with the proposed new building code is to be deprecated in the interests of property owners and of the building trades. If there is anything that ought to be the subject of calm and cool deliberation it is surely so technical a matter as the formulation of the rules and regulation that shall control construction. It is on that account, too, that it would be preferable to have a commission of small dimensions, whose functions should be judicial rather than constructive. A large commission composed of what are called differing interests, but really of faddists, each only interested in securing the adoption of his particular fad, wouuld be the commission that would do the most injury and the least good. What is wanted in the members of this commission is that they should each be able to overlook the whole field, consider dispassionately and act impartially upon suggestions made to them for the amendment of the law; and not a collection of advocates endowed with judicial powers. We saw the absolute impossibility of securing a rational reform of the building laws through what was an average representative body, in the Committee on Revision of the Building Laws, who spent a year and considerable money in accomplishing actually nothing. Unless the commission who are to draft a building code for this City, under the provisions of the Charter, is of the judicial character we have indicated as necessary to successful work, unless they can terminate discussion in their discretion and act capably upon the facts and suggestions made to them, we may postpone hope of a building code for a long time to come. Be the work ever so expeditiously done, it will take a long time. The Charter has been in force for ten months, and so far this matter has only reached the point of an apparent agreement between the two chambers of the Municipal Assembly on the general composition of the commission. Supposing this appearance is true, the commission will have to be named and the several individuals so named approved by the Council and the Board of Aldermen. When so approved, the commission can convene and arrange their work. Only those who have seen previous efforts to amend the building laws know what that work is likely to be; the mass of evidence that will have to be taken and the numerical importance at least of the suggestions that will have to be received, from those of the practical engineer who wants the thickness of walls and the factor of safety reduced, to the impractical theorists who want builders to buy land and leave it

mostly unoccupied, and to include infractions of the building laws of every kind in the Penal Code. It need not to be remarked that all this will occupy time, so that the building laws as they stand to-day will control construction for an indefinitely extended period yet. We do not point this out with any sense of regret, because we think that we have good working building laws and, moreover, have always to regret "reform" in this direction because it has hitherto invariably resulted in increasing, temporarily at least, the difficulties of the property owner and builder, who have had to pay the cost of testing the theories of others until their impracticabilty has been demonstrated.

IF the owner of real property in this City ever leaves the straight path it is not for want of guides, shepherds and admonitary friends generally. Many of the clergy have the idea that a property owner is morally what the wolf typifies so deeply imbued in their minds, that no amount of reason or fact will eradicate it. A West Side clergyman, who, if correctly reported, is the last to give expression to this peculiar hallucination. The falsity of his position is best shown by the arguments with which he supports it. He is reported by "The New York Times" as having on Sunday last taken the ground that it was the duty of church people to look after the welfare of the people who reside in "the numerous flat-houses." Their special duty in this respect was to "see that the sanitary and other conditions are all right." It would be interesting to hear what the heads of the Building and Health Departments would say to this, and more interesting to peruse the reports of a church congregation, except in the very unlikely contingency that they consist wholly of plumbers and sanitary engineers, on the plumbing of a four family 25-foot tenement. The report leads us to infer further that it was the opinion of this clergyman, that presumably incompetent and ignorant people should undertake duties for which they are wholly unfitted because, "frequently the tenants themselves are slow to complain to the owners of the houses. They do not wish to incur the owner's enmity." This will be a new view to the owner of the attitude of his tenant toward himself. This shrinking timidity will no doubt, in the future, explain waste pipes stopped by having had boiling fat poured down them, blackened walls and ceilngs, etc., for which, hitherto, a cause based upon either interest or reason, has been vainly sought. But like others, the tenement owner lives and learns.

THE Hall of Records Association, a voluntary organization, having some thousands of members, mainly prominent lawyers, real estate agents and brokers, property owners and business men, disappointed of any appearance of intention on the part of the present Municipal Administration to build the new Hall of Records, for which provision was made by the Strong administration, will soon call upon Mayor Van Wyck and ask his assistance in getting the work commenced. The City has had title to the site selected for the building since last September; old buildings were torn down; for the new building plans were adopted and contracts let last December; but as yet not a pick has been put into the ground to prepare the way for the foundations. Moreover, the administration displays a pronounced disinclination to begin this improvement, which, in view of the dangers that continually menace the priceless records of the Register's office is one of the most pressing of the day. It is not understood that the debt limit prevents action since the understanding was reached that the contracts made by the last administration, being within the limit of that time, were legal. It will be interesting to know just why the Van Wyck administration delays this most popular and necessary work.

WITH remarkable inconsistency the traction companies, in their latest application to the Municipal Assembly for franchises, given in another column, find that they can do on the Boulevard what they allege they cannot do on Amsterdam avenue, and what they have also agreed to do on Kingsbridge road, i. e., operate over one set of tracks. This position would be absolutely absurd, if it was not dictated by petty self-interest. The opponents of the double tracks on Amsterdam avenue have secured a hearing on their complaint before the Local Board of the 17th District, which will take place on Friday next at 2 p. m., by which the question may be opened up again and attention drawn anew to this contemplated defiance of public rights by the corporations.

PROPOSED BUILDING CODE.

The latest participant in the discussion of the question of the proper constitution of the commission that is to be appointed to frame a building code, is the Charity Organization Society, which has issued a statement to the press favoring the creation of the commission provided for in the resolution of Alderman Homer Folks, which was published in our issue of October 15 last, and is also outlined in the statement of the Charity Organization Society, given below. Alderman Folks is secretary of the State Charities Aid Association, and is working in association with Mr. Edward T. Devine, General Secretary of the Charity Organization Society in this matter. The last named gentleman was asked by a representative of the Record and Guide, whether his society had any specific recommendation for the amendment of the building laws to make. He replied in the negative, and further said, in effect, that the Society desired that there should be a just and competent commission to go into the matter, in order that they might get at least as good a law as existed at present. If in any particulars it could be improved, so much the better. The Society's interest in this matter was chiefly aroused for the tenement-house population, ten thousand of whom they visited in their homes, with whose needs they were thoroughly acquainted. The tenement-house law conained a great many good things which they wished to see preserved in the code that should be finally adopted, and this they thought could be better secured through the commission suggested by Alderman Folks' resolution than by that proposed to be provided by the Council's resolution. The statement of the Charity Organization Society is as follows:

"The numerous minor defects in the new charter of this city have somewhat obscured the fact that it does confer new and important powers upon the local administration. Perhaps the most important of all is the power conferred upon the Municipal Assembly by section 647 of the charter, to establish a Building Code which, when adopted, shall supercede all existing laws relating to the construction, alteration or removal of buildings. Heretofore these laws have formed part of the charters of New York City and Brooklyn, to be amended only by the State Legislature. Hereafter they are to form part of the city ordinances, subject to amendment at any time by the Municipal Assembly.

"The importance of wisely-framed and properly administered building laws will be evident to any one who recalls the building disasters that have occurred in recent years in this city, notably the Orchard street and West Side disasters and the collapse of the Ireland Building in 1895, the Madison avenue (81st street) disaster in September, 1896, and the falling of a flat house in process of construction in E. 116th street in May last year. In these disasters, 30 men were killed outright or received mortal injuries and about 50 more were injured more or less seriously. This sacrifice of human life was due entirely to imperfect building laws or ineffective enforcement. For every building that falls there are hundreds that are so imperfect as to be a source of continual danger, and which involve an innocent purchaser in continual anxiety and expense. More important than all this, however, is the necessity of regulating the erection of tenement houses so as to allow light and air enough to make them healthful, and not, as hundreds of tenement-houses in the city have been, breeders of disease, and, consequently, of vice and crime.

"As yet the Municipal Assembly has not taken final action for the appointment of a commission under section 647 of the charter, A resolution was introduced some months ago, and has passed the council, providing for a commission of eight members, of whom there shall be one carpenter, one iron worker, one plumber, one mason, one engineer, one architect, one representative of the Board of Fire Underwriters, and a representative of the Corporation Council, ex-officio. It is evident that in this commission the building interests would have a prepondering influence. The manifest unwisdom of asking the building interests to frame laws for the regulation and restraining of their own business for the sake of the public health and safety is apparent.

"In the Board of Aldermen this resolution has been referred to a joint committee, consisting of the Standing Committees on Law, Public Health, and Public Buildings, Lighting and Supplies. To this joint committee has also been referred another resolution on the same subject, introduced by Alderman Folks. This latter resolution provides for a commission of nineteen members, which is to include the three Commissioners of Buildings, the Chief of the Fire Department, a representative of the Corporation Council, ex-officio, a representative of the Board of Fire Underwriters, two representatives of the Tenement-House Committee of 1894, a sanitary engineer, a civil engineer, five architects, two lawyers, and two practical builders. This proposed commission would therefore consist of five representatives of city departments, seven experts (architects or engineers), two tenement-house reformers, two lawyers and two practical builders.

It is evident that each of the above-mentioned groups has expert and practical knowledge of some phase of the subject, which will be required in the framing a Building Code that will secure the ends for which building laws are intended, the protection of the public health and safety. The building law consists of several distinct portions which would doubtless be referred by the commission to sub-committees. The proposed commission of nineteen members gives due representation to all interests without giving a prepondering influence to any one. Moreover, the resolution is so drawn as to insure a proper representation of all the boroughs, so that the needs of rural and

semi-rural portions of the city will be considered as well as those of the residence, tenement house and office building districts.

The resolution introduced by Alderman Folks provides that the members of the commission shall serve without compensation. The resolution passed by the Council is silent on the question of compensation, but it is expected by its supporters that the members of the commission will receive a per diem remuneration.

"The public hearing on the two resolutions held October 21st was largely attended and great interest in the subject was shown. In general support of the resolution introduced by Alderman Folks, there appeared representatives of the United Hebrew Charities, the Children's Aid Society, the Association for Improving the Condition of the Poor, the Charity Organization Society, the City and Suburban Homes Company, the New York and Brooklyn Chapters of the American Institute of Architects, the Architectural League, the Good Government Club of the 19th Assembly District, the Tenement-House Committee of 1894, Mr. Jacob A. Riis, Hon. Alfred T. White and others. In support of the council resolution there were present three members of the present Board of Examiners in the Building Department, representing a joint committee of builders and real estate organizations.

"It is an open question as to whether the Building Code established by the Municipal Assembly will supercede the tenement-house and lodging-house laws that have been secured by years of agitation and persistent effort, since these laws are re-enacted in the charter. Legal opinions differ on this point. The new Building Code, however, can and should perfect and strengthen existing tenement-house and lodging-house laws, inasmuch as these have been found by experience to be easily evaded on certain points."

At a meeting of the Board of Aldermen, on Tuesday last, Alderman John T. McCall moved the following, which was adopted by a large vote:

"Resolved: That the President of the Council and the President of the Board of Aldermen be and they are hereby empowered and directed to nominate for appointment and employment by the Municipal Assembly, under the provisions of chapter 378, Laws of 1897, known as the Charter of the City of New York, a commission comprising seven (7) experts in the science and practice of building, who shall have been engaged not less than five (5) years in business on their own account in the City of New York, and who shall be residents and voters in the aforesaid city, a representative of the Corporation Council, ex-officio, and the Board of Buildings, consisting of the Commissioner for the Boroughs of Manhattan and the Bronx, the Commissioner for the Borough of Brooklyn and the Commissioner for the boroughs of Queens and Richmond, who shall proceed to prepare and report to the Municipal Assembly, on or before the first stated meeting in the month of February, 1899, a code of ordinances to be established by the Municipal Assembly, to be known as "The Building Code of the City of New York," providing for all matters concerning, affecting or relating to the construction, alteration or removal of buildings or structures erected or to be erected in the city of New York, as constituted by chapter 378, Laws of 1897, in conformity with the provisions of the charter and more particularly with section 647 thereof."

THE WEST END ASSOCIATION.

A meeting of the West End Association was held on the evening of the 14th inst., with Cyrus Clark, president, in the chair. The treasurer reported a balance on hand of $1,058.54. The house committee reported the engagement of the association's present quarters at $15 per night, as the best available in the district. On motion, the special committee on new membership of 1896 was reappointed to endeavor to increase the membership and secure withdrawal of recent resignations, the committee being empowered to issue a circular covering the objects of the association, together with a blank form of application for membership. On motion, the condition of the small triangle at Boulevard and W. 63d street was referred to law committee for action and report. On motion, resolutions asking (1) Board of Docks to discontinue the improper use of dock property on Riverside Park water front and prevent issue of permits hereafter; and (2) Commissioner of Parks for this borough to do likewise, were referred to a special committee composed of John McDonald, W. Wallace Brower and Alexander Pollock for action. On motion, the chair was authorized to appoint a committee of five to arrange for holding the annual dinner in December. The matter of beating of rugs, carpets, etc., and legislation relative thereto, was referred to law committee for action and report. A resolution of regret at the death of Prof. Silas S. Packard was adopted, and a copy sent to his family. Resolutions asking (1) Commissioner of Street Cleaning to remove all snow from the Boulevard, from 59th to 116th street, immediately after a storm; and (2) Commissioner of Parks to have signs directing bicyclers on Boulevard to keep upon the left-hand half of the roadway, were referred to grievance committee for action. The matter of regulation of street traffic was referred to the law committee for investigation and report. The resignations of Richard T. Davies, J. Alex. Hayden and James Richards were presented and laid on table pending consideration by special committee on new membership. The president was authorized to appoint a committee of five to nominate officers for the year 1899. The matter of West Side property assessments for 1899 was referred to committee on taxation for action and report; Mr. John F. Doyle was added to committee for this purpose. The president spoke briefly of recent work of the association. Mr. Thomas A. Fulton, Secretary Citizens' Committee, spoke regarding Amsterdam avenue four-track matter.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

John D. Karst, Jr., the well-known builder, is also engaged in the real estate business with offices at No. 2051 8th avenue, corner of 111th street. Associated with Mr. Karst in the real estate business are his brother, C. F. Karst, and his son, E. Karst. They make a specialty of renting and collecting, and have for sale many desirable properties, improved and unimproved. Mr. Karst's telephone call is 649 Harlem.

Among the real estate brokers of this city Tuoti & Co. hold a unique position, inasmuch as they have for several years past given exclusive attention to the buying, selling and leasing of realty in the Italian sections. Their long experience in this particular branch of the real estate field makes them to-day the foremost firm in their line. A perusal of their sales and lease lists will show that this firm has consummated the bulk of transactions in these special sections for some years past. A feature of their business is the taking of property, which has previously been unproductive, and placing it on a good paying basis, in a number of cases a guaranteed percentage on the investment be-

ing given. Owners of realty in the sections named, who desire their properties well and safely rented, can be informed of the practicability of so doing by calling on Tuoti & Co., at their offices, Room 41 "World" Building. They can furnish the best references and bonded security for capability and business integrity. Telephone number 2028 Cortlandt.

The Real Estate Market

Real Estate Market

The sale of the southwest corner of Broadway and Walker street, this week, may be considered as an accurate indication of the direction in which land values are moving in Broadway. It was made on a strictly cash basis. The published price is undoubtedly correct. At any rate, it cannot diverge far from the true figure, as the sellers are known to have declined an offer of $360,000 five years ago, while two years ago they refused to put the property on the market at $400,000. Much has been said of depreciation in Broadway real estate since the crisis of 1893. The present sale proves that, to say the least, prices have been firmly maintained, while the value of land, apart from improvements, has probably increased. Before the crisis inside lots in this section of Broadway brought from $110,000 to $125,000. The former was the price paid in 1888 for the property at No. 411, which included a 5-story iron-front building, a form of improvement then not yet become antiquated. No. 393 sold in 1890 for $125,000. In 1894, No. 405 brought $127,000. If, in the Flake & Dowling purchase of this week, $45,000 be deducted for the rear lot on Walker street, there will remain over $125,000 for the inside lot on Broadway, and over $250,000 for the corner lot. To compare with the corner lot, the southwest corner of Lispenard street and Broadway may be adduced, which sold in 1892 for $250,000. This, however, is an exceptionally favored property, the store being occupied by the N. Y. C. & H. R. R. R. Co. The transaction of this week means that the property will be immediately improved, despite two buildings under construction within a block. The result can only be a further depopulation of the antiquated lofts in the neighborhood. Even with the lofts empty, however, the owners of old buildings have less reason to complain than the owners of vacant property, for Broadway stores partake of the nature of a monopoly, and at any rate pay running expenses. And there is probably not one of the old buildings that has not repaid its original cost, besides producing a fair net interest on the capital invested. The total number of transactions given below is 36 with considerations given in 11 and amounting to $1,418,850; corresponding figures for last week were 46, 18 and $1,931,500, respectively.

The following are the comparative tables of Manhattan and the Bronx of the Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897 given:

The list of offerings in the Real Estate Salesroom this week contained a fairly large number of parcels put up at voluntary, executors' and partition sales. Of the seventeen pieces so offered, eight were bid in, the sale of one was adjourned, and the remaining eight were sold. The temper of the market consequently has undergone no change since last week. There was no disposition to sacrifice property, and some of the protected parcels were bid in despite what appeared in some cases to be not unreasonable outside competition. Other parcels, notable No. 96 Lexington avenue, near 27th street, and No. 860 3d avenue, near 52d street, were sold at good figures, the latter being bought by an adjoining owner, and the former bringing a speculative price by virtue of its character as a "key" property. The low price for the business property at No. 277 Grand street, near Forsyth, testified to the fall in values in that neighborhood. The foreclosure sale of the Hotel Gerlach, No. 55 West 27th street, S. De Walltearss, auctioneer, was again adjourned, this time to December 6; the sale of Nos. 73 and 75 Gold street, William Kennelly, auctioneer, the second of the Pettit properties ordered under the hammer, was adjourned until December 5. Other withdrawals and adjournments to dates beyond the coming week are: The dwelling and plot on the northwest corner of Audubon avenue and 167th street, and the plot on Kingsbridge road, east side, near 167th street, Philip A. Smyth, auctioneer, adjourned to December 6; No. 64 West 70th street, Bryan L. Kennelly, auctioneer, withdrawn; frame hotel on the northeast corner of Jerome avenue and 177th street, John N. Golding, auctioneer, withdrawn; No. 108 Greenwich street, Peter F. Meyer, auctioneer, adjourned to December 7; Mayflower street, west side, near Pelham road, Peter F. Meyer, auctioneer, withdrawn.

Richard V. Harnett & Co. announce in our business pages that they will sell at auction on Tuesday, November 29, two lots, with 1-story frame buildings, at Nos. 324 and 326 East 110th street, between 1st and 2d avenues; and six lots on Ogden and Nelson avenues, near 167th street. For maps and particulars apply at the office of the auctioneers, Nos. 71 and 73 Liberty street.

Peter F. Meyer, as stated last week, has been commissioned by the Democratic Club to sell at auction, their purchase, made early this year, known as the New York Athletic Club Building, on the southwest corner of 6th avenue and 55th street. It need not be remarked that this is a choice and valuable parcel. It consists of a 5-story brick, stone and iron building, with three lots of land, admirably located for a variety of purposes. The sale is announced as peremptory, and will take place Tuesday next, the 29th inst. The auctioneer will furnish particulars on application at his office, No. 111 Broadway.

Richard V. Harnett & Co. make elsewhere an important announcement that they will sell next Tuesday, November 29, at the New York Real Estate Salesroom, the fine premises, No. 216 West 72d street, a 4-story and basement brick and stone dwelling, 20x57x102.2. As this is one of the choicest pieces of property on the West Side, the entire real estate fraternity will look for the results of this offering with interest as an indication of the present level of values.. It will be remembered that the adjoining house was recently reported sold at $80,000, and Thomas F. Ryan is said to have paid $95,000 some time ago for the house opposite.

James L. Wells, as announced in our business pages, will sell at Supreme Court sale on Tuesday, November 29, nine newly-built 4-story flats, including two corners with stores, on the north side of Freeman street, from Southern Boulevard to Intervale avenue. Maps and particulars may be had at the office of the auctioneer, No. 141 Broadway.

Gossip of the Week

SOUTH OF 59TH STREET.

Bank street, No. 23, 3½-story dwelling, seller, estate of Isaac Odell; buyer, Miss M. Lotz; broker, John H. Dye. This property was to have been sold at auction on Wednesday next.

Homewood.—The City and Suburban Homes Co., No. 281 4th avenue, N. Y. city, have sold to Thomas Trolsen a 2½-story brick and stucco cottage, on lot 30x100 for $3,735; to Henry A. Datter a similar cottage on lot 40x100 for $4,260; and to Alexander Malcolm a similar cottage on lot 40x100 for $3,600. The first property is located on the south side of 68th street, and the last two on the north side of 70th street, between 16th and 17th avenues.

De Selding Bros. were the brokers in the sale of the eleven lots on East 22d and East 23d streets, near Avenue C, Brooklyn, reported last week. These lots, which are to be improved, are among the first to be resold by buyers at the auction sale in 1892 and 1893 of part of the Vanderveer farm. The original buyers at that sale are now in a position to realize handsome profits in consequence of the rapid building up of Vanderveer Park, which comprises the rear of the old farm, and which was started by the Germania Real Estate Company; and in consequence of the excellent demand for suburban real estate in Brooklyn occasioned by recent improvements in transportation. De Selding Bros. have under way negotiations affecting important acre properties immediately south of the old Vanderveer farm.

REAL ESTATE NOTES.

A penalty of 1 per cent. of their amounts will be charged on all taxes remaining unpaid after December 1.

B. M. Strauss & Co. represented the Clark estate in the sale of No. 43 East 20th street, reported in our last issue.

David Richey is the buyer of the plot, 50x100, at the southwest corner of 8th avenue and 113th street, reported in our last issue.

De Selding Bros. were the brokers in the sale of the eleven lots on East 23d and 22d streets, near Avenue C, Brooklyn, reported last week.

The Board of Estimate and Apportionment on Tuesday authorized the issue of bonds exceeding $50,000 for new school sites. The contract for the acquisition of these sites was entered into by the old administration. One of the sites is on 6th street, between Avenues B and C, and will cost $25,732. The other is on 183d street, between Jerome and Walton avenues, and will cost $28,868.

Deputy Register William Barre, of the Borough of Brooklyn, was given a little surprise on Saturday last, on the occasion of his 72d birthday. The employees of the business and indexing departments each presented him with a basket of flowers. The one from the indexing department bore this inscription: "Filed Nov. 1826, acknowledged, 1898." Mr. Barre has been 50 years Deputy Register, and is well liked by lawyers, real estate men, and all, in fact, with whom his official position brings him in contact.

Corporation Counsel Whalen has announced that he will discontinue the practice of assenting to the payment of fees and other expenses during the pendency of proceedings brought to acquire title to or easements in real estate in Westchester and Putnam counties needed in connection with the water supply. He also announced that in future he would not consent to the taxation of any bills, except those of stenographers and experts, until a report has been made as to the whole or a part of the property involved in the proceedings to which the bill relates.

The annual meeting of the stockholders in the Real Estate Exchange and Auction Room, Limited, will be held on Monday, Dec. 12, at 1 p. m., in the Board Room of the Exchange, No. 59 to 65 Liberty street, to receive the report and balance sheet of the directors for the past year, to elect directors and for other purposes. The polls will be open from 1.30 p. m. to 3 p. m. The books for the transfer of stock will be closed from Dec. 2 to Dec. 12, inclusive. The Committee on Nominations (Geo. De F. Barton, Jas. E. Leviness and Douglas Robinson) have reported the following ticket to be voted upon on that occasion: For Directors:

Hermann H. Cammann, Richard V. Harnett, Edwin A. Cruikshank, Alfred E. Marling, J. Edgar Leaycraft, Richard Deeves, John F. Doyle, Charles A. Peabody, Jr., Cornelius W. Luyster, Samuel McMillan, John C. R. Eckerson, Solomon De Walltearss and Moses Ottinger; for Inspectors of Election: Thomas F. Murtha, Clermont L. Clarkson and John T. Boyd.

The Claremont avenue lots, offered on Wednesday, failed to elicit a bid of even $2,500 per lot, which is the amount of the mortgage on each. This plot was sold at auction in 1892 at $5,000 per lot. The failure to sell or get a satisfactory bid makes the claims of the owners of lots opposite, taken in 1896 for an extension of Riverside Park, seem extravagant. Although covered with high rocks, which is costly to remove, they claim over $10,000 per lot for Claremont avenue, and from $20,000 to $40,000 for Riverside Drive lots, the highest figures being for the 122d street corner.

A correspondent writes us that the southeast corner of Broadway and Walker street, belonging to the Ross estate, reported sold last week for $425,000, was acquired by William Ross in December, 1805, by deed from Philip Brasher at an expressed consideration of $4,575. Dwelling houses were soon after built, which are now standing, having been altered for business purposes, and are among the oldest structures on Broadway. The corner dwelling house was the residence of William Ross at the time of his death in March, 1822. Under the provisions of his will the property was held in trust for the benefit of his children until the year 1866, when a partition suit was had among them and the property sold by a referee at public auction on the 23d day of April, 1867, in one plot to certain of the heirs for the sum of $290,000. Gold was quoted at the time at the rate of about 135. As there have since been no substantial improvements upon the property, the present reported sale indicates the increase in value of the land during the past thirty years.

A number of petitions for railroad extensions and connections were presented simultaneously to the Council and the Board of Aldermen Tuesday on behalf of the Third Avenue Railroad Company and the Metropolitan Street Railway Company. The petitions indicate an amicable agreement between the two companies and a division of the streets over which their tracks are to run satisfactory to both. On the Boulevard, from Manhattan street to 182d street, the cars of both companies are to run over the same tracks, but there are to be different slots through which the power is to be transmitted. After consideration of the petitions it was decided in both houses of the Municipal Assembly to hold a public hearing on them on Thursday, Dec. 22, at 2 p. m. The extensions and connections asked for in the petitions are: Fort George and Eleventh Avenue Railroad Company, Boulevard or 11th avenue from Manhattan street to 182d street, also 145th street from the Boulevard to the Harlem River; New York & Harlem Railroad Company, Eighth Avenue Railroad Company and Metropolitan Railroad Company, extension on 135th street from Madison to 8th avenue; Kingsbridge Railroad Company, Boulevard from Manhattan street to the junction of Kingsbridge road, 169th street and Boulevard, Kingsbridge road from 162d street and Amsterdam avenue, to Spuyten Duyvil, to 230th street, to Riverdale, to the city line; Third Avenue Railroad Company, extension at 155th street to Amsterdam avenue, east over 155th street viaduct to the Macomb's Dam Bridge, and across same to Jerome avenue, there to connect with the Union trolley, extension at 181st street and Amsterdam avenue, east over Washington Bridge to Jerome avenue, connectingg with the Union trolley.

The Building Trades

MATERIAL MARKET.

BRICK.—The quantity arriving this week was about as usual and the sales were about equal. Prices were maintained on all good grades. Pales have come forward a little more freely and have been taken up quickly at $4.00. The demand for these is still in excess of the supply. Hard brick that are arriving have been more or less mixed in quality. Values have not been sustained on mixed lots. Sales have been made at prices ranging from $5.25 up, specials selling for $6.12½. New Jerseys are in good demand, but manufacturers are holding for a recurrence of the higher prices that have prevailed during the past few weeks. Some sales were made at $6.25.

LIME.—State lime is in good demand. All the stock, both common and Jointa, is being absorbed as rapidly as it comes to market. The canals close next week and rail rates will then prevail, so that an advance is looked for. Prices are firm at 65c. and 70c. for common and about 90c. for Jointa. The demand for Rockland is very good and cargoes are selling as rapidly as they arrive. Active demand both here and in other Atlantic ports keeps the local market from being overloaded with stock. Prices here are firm at 65 and 75 cents.

CEMENT.—Rosendale is in excellent demand. Manufacturers are booked up pretty well to the 1st of December, and prominent dealers are not takng outside orders for much beyond that date. The mills are running full time and the product is being absorbed as rapidly as it is turned out. Prices are firm at 60 and 75 cents. Portland is in excellent demand. Owing to the demand in the home market, the arrivals in German and English Portland are insufficient for the needs of this market and stock is taken as rapidly as it arrives. There is little likelihood of a change in the market until the season closes. The closing of the canals has had no perceptible effect in decreasing the demand in this market.

LATH.—About 5,000,000 were sold this week at $1.75 for cargo lots and $1.80 for smaller quantities. There are none here and few on the way. The demand is very good and wholesalers are asking $1.85 to arrive.

NAILS.—The market is seasonably quiet. Prices on wire nails are $1.25 f. o. b. Pittsburg carload lots and $1.40 on dock New York. Small lots, New York stores, $1.50 and $1.55. Cut nails basis of $1.10 f. o. b. Pittsburg for base carload lots; $1.25 on dock New York and $1.35 small lots, New York stores.

PAINTS.—Trade is seasonably fair with no change in prices.

NAVAL STORES.—The market opened strong with holders asking 39 cents for machines. This value was maintained throughout the day. Trade was quiet and was confined to small lots. The market is strong both in New York and the South, and higher values are anticipated. The market closed quiet and firm at 38½c. for Southerns and 39c. for machines. Tar is dull, there being very little inquiry. Prices for regulars, $1.80; oil barrels, $3.60. Pitch is steady and quiet at $1.60@$1.65.

Lead.—The demand for lead continues seasonably very good and prices continue firm at last quotations.

Oil.—There were no features in the oil market this week. The demand for oil is moderate but seasonably good. Prices for the raw product are 37c. for 5 bbl. lots, and 38c. for smaller quantities. Boiled oil is 39c. and 40c. Calcutta oil continues to sell firm at 54c.

Lumber.—The features of the market this week are the scarcity of certain kinds of hardwoods and the large Government orders for rough lumber and timber, notably white pine and spruce. The demand throughout the market is very good, although prices during the past week have not sustained any material rise. Poplar and plain and quartered oak are in good demand. Stocks are low in mahogany and cedar. The arrivals in Mexican mahogany last month were smaller than those of the previous month, although the receipts in cedar from Mexico show an increase over the month before. There is a possibility of the 20 per cent. reduction on Canadian woods, provided for under the reciprocal clause of the Dingley Bill, unless it can be shown that the concessions made in freight rates by the Canadian railroads and the continuance of the high rates prevailing on all North and South lines to our borders, have not already partially neutralized the disadvantage under which the Canadian shippers have been laboring on account of the imposition of the $2 rate. It is an open question whether another reduction of 40 cents. per 1,000 ft., together with the enhanced value on low grade goods arising from the improved general conditions would not bring about a condition of the market similar to that which prevailed prior to the passing of the Dingley Bill.

OF INTEREST TO THE BUILDING TRADES.

Robert G. Kenny, contractor and builder, has removed his offices to No. 8 Union square.

Peter M. Coco, architect, formerly of No. 36 Union Square, has removed to No. 8 Union Square.

Frederick Jacobson, architect, formerly of No. 1539 Broadway, has removed to No. 50 West 67th street.

Ward Cummingham, architect, formerly of No. 217 West 125th street, has removed to No. 505 West 125th street.

Meeker, Carter, Booraem & Co., the well-known firm of dealers in building materials, has been changed to Meeker, Carter & Booraem, Mr. Paul E. O'Brien retiring. The firm continues at the old stand, No. 14 East 23d street.

The following have been appointed Inspectors in the Department of Buildings, Borough of Manhattan: James M. B. Robinson, Cornelius J. Black, Joseph A. Smith, John J. Clancy and Thomas Darcy, and David B. Emerson has been dismissed from his position as inspector.

F. H. Mela is putting the finishing touches to a new nine-story and basement mercantile building which he has erected at the northeast corner of Spring and Crosby streets, on a plot 50.6x112. The building is of extra heavy fire-proof construction and strictly up-to-date in plan and appointments. Electric passenger and freight elevators are provided and part of the building has already been rented.

Corporal Herbert Smith, of Company I, 71st N. Y. Volunteers, who left his duties as building inspector to serve his country in the late war with Spain, returned to the Department of Buildings in the early part of the week. Corporal Smith was through the entire campaign and participated in the memorable charge up San Juan Hill. Although unscathed by bullets, he succumbed, like many of his comrades, to the dreaded yellow fever, but is now entirely recovered. He received a cordial welcome from his comrades at the department.

The Mayor has addressed the following letter to the Board of Public Improvements: "I request that you will take all action necessary to be taken by your board before action by the Municipal Assembly, as to location, plans and construction of a bridge over the East River, between the Borough of Manhattan and the Borough of Queens. Without recommending any specific location, I suggest that the bridge be so designed as to cross the East River over Blackwell's Island. I request that this matter receive prompt attention, so that action by the Municipal Assembly can be taken at an early date."

Eighteen granite cutters employed on the anchorages at the new East River Bridge, between Rivington and Delancey streets, were ordered on a strike Thursday morning by the Board of

Delegates, for giving $1.00 a day, 25% of their daily earnings, to a padrone who hired them. Chairman O'Brien, of the Board, is going to take active measures to stop this practice. A. M. C. Parker, superintendent for Shanley & Ryan, the contractors for the bridge, is reported to have said that it was necessary that they should have men promptly when needed, and they could be more quickly procured through a padrone than by any other way. He further said that the men were receiving union wages and that he knew nothing of the arrangement they had with the padrone. The places of the men called out have been filled with non-union Italians.

F. H. Wakeham, general contractor and builder, formerly of No. 175 West Houston street, is now at No. 54 West 18th street.

At a regular meeting of the Central Board of Education, held Wednesday afternoon, the committee on buildings, to which the president of the board some months ago referred a series of charges preferred against C. B. J. Snyder, Superintendent of School Buildings by John W. Franklin, formerly an inspector of school buildings, reported its findings as follows: "Your committee, desirous of terminating these pending matters, at least so far as C. B. J. Snyder, Superintendent of School Buildings, is personally concerned, and for the purpose of relieving him of the labor and worry which weighed so heavily upon him during the pendency of these proceedings, wishes to place upon record its unanimous opinion to the effect that its confidence in him is unshaken, and that, in the opinion of your committee he has thoroughly and most effectively purged himself of any imputation or suspicion which the affidavits in question, or any of them, have sought to cast upon him." The following resolution was unanimously adopted by the board: "Resolved, That the Board of Education hereby expresses its absolute and unshaken confidence in the uprightness, fidelity, and ability of C. B. J. Snyder, Superintendent of School Buildings, and its appreciation of the eminent professional and personal qualities which characterize him.

The "B. T. C. Stag" smoker, held in the rooms of the Building Trades' Club on the eve of Thanksgiving, was a most enjoyable affair and was attended by a large number of members and their friends, who enjoyed an excellent vaudeville performance, which included novelties ranging from the exponents of the intricacies of "rag time" to the more classic mysteries of modern necromancy. The numbers were heartily appreciated by those present, as was attested by the numerous encores to which the artists responded. The programme lasted until about midnight, after which impromptu speeches and reminiscences were indulged in by some of the members of the club, and this portion of the evening was quite as enjoyable as the rest. The rooms of the club are well adapted to affairs of this kind and they were tastily decorated for the occasion. Among those present were: Stephen M. Wright, William K. Fertig, W. W. Kenly, John Cooper, John Radley, J. Dey, Louis Meyer, E. Van Houten, John Eisele, J. Hatzel, E. Dodds, E. Vaughan, Geo. Daso, Joseph Wolf, A. Kimbel, A. Brinhauer, W. Smith, C. F. Post, W. Miller, Major J. H. Wells, John C. Robinson, Jacob Burton, E. Ellesner, W. A. Vaughan, A. Meyers, Warren A. Conover, Henry A. Maurer, Lovel Carr, Frank E. Conover, Ernest F. Eidlitz, Thomas Byrne, Otto Eidlitz, Chas. Andruss, Louis Harding, Chas. Eidlitz, William Ritch, Bernard Traitel, Hugh Getty, E. P. Foster, William Turner, Chas. A. Cowen, Geo. Wills, James Thompson, John J. Donavan, W. R. Clark and John Hamilton.

J. B. Reinstein, Chairman of Trustees for the Phebe Hearst Architectural Plan for the University of California, has issued a circular letter dated from Brussels, October 30, 1898, and saying: 'The jury for the International Competition for the Phebe Hearst Architectural Plan for the University of California, composed of Messrs. J. L. Pascal, President, representing France; Paul Wallot, Vice-President, representing Germany; R. Norman Shaw, representing England; Walter Cook, representing the United States; J. B. Reinstein, representing the University of California, closed its sessions at Antwerp on the 4th of October. The following is a list of the authors of the plans admitted to participate to the final competition: Messrs. Barbaud & E. Bauhain, Paris; E. Benard, Paris; Prof. F. Blutschli, Zurich; D. Despradelles & Stephen Codman, Boston; R. Dick, Vienna; J. H. Freedlander, New York; G. Heraud & W. C. Eickmuller, Paris; Howard & Cauldwell, New York; Howells, Stokes & Hornbostel, New York; Lord, Hewlett & Hull, New York; Whitney Warren, New York. The vote of the jury upon each of the plans selected was absolutely unanimous; some of the jury also recommended that four plans, besides those admitted to the final competition, should be purchased for the University of California. The names of the authors of these plans are as follows: Messrs. Joanny Bernard & Robert, Paris; Charles des Anges, Paris; Ernest Flagg, New York; Fred. Skjold Neckelmann, Stuttgart. The members of the jury, together with the architects invited to participate to the final competition, will go to California, and in June, 1899, the jury will there decide the final Concours and select the plan which must be approved by the Regents of the University of California, and thereupon the buildings will be erected with the utmost rapidity. It is expected that all the buildings will be completed within the next 25 years."

TRADE NOTES.

PLUMBERS' SUPPLIES.

Among the progressive merchants identified with the building material trades is John A.Murray, dealer in plumbers', steam and gas supplies, and sanitary wares of all descriptions. Mr. Murray has been engaged in his specific line of trade for a great number of years, having represented, in a managerial capacity until recently, the Henry McShane Manufacturing Company, of Baltimore, in their New York branch. About a year ago, Mr. Murray severed his connection with that house and entered into the business field on his own responsibility. He fitted up the premises at No. 114 West 34th street, in a manner most convenient for the conduct of his business, and with the aid of his very large clientelle in the architectural, building and plumbers' trades, has succeeded in building up a very large trade. There is no disputing the fact that Mr. Murray is one of the most popular men in his line. He reports a very good trade for the past year, and thinks that the outlook for the near future is exceedingly promising. Architects, builders and plumbers, desirous of acquainting themselves with the latest and best innovations in the sanitary line, would do well to call on Mr. Murray at his warerooms.

THE EMPIRE VENTILATOR.

Hermann Doerge, of No. 556 11th avenue, near 42d street, patentee and manufacturer of the popular and efficient "Empire Ventilator," is kept busy at this season of the year filling orders from regular customers, who find the "Empire" always gives satisfaction, and from new customers, who are advised to use the "Empire" in order to cure smoky and faulty chimneys. It is carefully made of the best materials and is said to succeed when other ventilators fail. George Reichard, F. C. Menair, F. B. Crowell, Superintendent Consolidated Gas Co., Benjamin Firth, H. F. Diefenthaler, Executor Wm Von Twistern and N. Y .Fresh Tripe Co., are a few of Mr. Doerge's satisfied patrons.

INSURANCE OF ALL KINDS.

Edwin B. Willcox, No. 503 5th avenue, corner 42d street, has added to his insurance department the insuring of bicycles against damage from collisions or any other injury. This does not insure the riders of bicycles; Mr. Willcox takes care of them in another, and equally as satisfactory a way. We commend this new form of insurance, as represented solely by Mr. Willcox, to the attention of our readers.

FRESCO AND PLAIN PAINTING.

Attention is directed to the card of Mr. A. Eichler on another page. He does fresco and plain painting, relief decorating, paper hanging, hardwood finishing, etc., in the most reliable manner, at moderate prices. His address is No. 127 West 124th street.

Questions and Answers.

Correspondents are respectfully requested to confine their inquiries to matters directly relating to real estate, building or architecture. Each question must be accompanied by the name and address of the inquirer, though not for publication; anonymous communications cannot be answered.

ILLEGAL BUSINESS.

To the Editor of THE RECORD AND GUIDE:

(1) What penalty in law does a landlord incur who tolerates a gambling room on his property? (2) Can a tenant's lease be revoked who establishes a gambling room on property without owner's consent or knowledge?

Answer.—(1) Section 333 of the Penal Code: "A person who lets or permits to be used any building or portion of a building, knowing that it is intended to be used for any purposes declared to be punishable by this chapter (lottery purposes), is guilty of a misdemeanor." A lease of premises to be used for the sale of lottery tickets is void and the rent reserved thereon cannot be recovered. (Edelmuth agt. McGarren, 4 Daly, 467.) Section 343 of the Penal Code provides that the owner or agent knowingly letting or permitting a room, shed, tent, tenement, booth, building, float or vessel or any part thereof to be used for gambling or other purposes forbidden by Chapter IX. is guilty of a misdemeanor. The penalty for committing a misdemeanor is imprisonment in a penitentiary or county jail, for not more than one year, or by a fine of not more than five hundred dollars, or both. Section 351 of the Penal Code provides that the owner, lessee or occupant of any room, shed, tenement, tent, booth or building, or any part thereof, who knowingly permits the same to be used or occupied with books, apparatus or paraphernalia for the purpose of recording or registering bets or wagers or selling pools, is guilty of a felony, and upon conviction is punishable by imprisonment in a State prison for a period of not less than one year, nor more than two years, or by such imprisonment, together with a fine not exceeding two thousand dollars. (2) Under subdivision 5 of Section 2241 of the Code of Civil Procedure, the owner or landlord can remove the tenant.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

A lien was filed November 21 against property of George E. Fowler on Prospect and Westchester avenues, by Carl Rieger. The contract referred to in the notice of lien was between Mr. Fowler and the firm of Hanfmann & Rieger. On November 19, the head of the firm asked that the firm be allowed to abandon the contract, and the firm acordingly gave Mr. Fowler a release in full of all liability on the same. Mr. Fowler has paid over $2,100 on this $2,800 contract; it will cost at least $1,400 to complete the same. Rieger filed the lien without the knowledge of his partner, and wholly without cause; the same will be bonded at once.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXII. DECEMBER 3, 1898. 1,603

THERE is no change in the temper of the Stock Market to record. The large amounts of money seeking use keep up the prices of bonds, and the stocks that are most active are those that have shared least in the recent advance and can show developments that call for better prices. In a period of upbuilding such as we are now in, these new conditions constantly arise to benefit this or that security, and are promptly reflected in the quotations. It will have been noticed that the Coalers have at last come into line with the more cheerful movement of the market. The given cause for this, an alleged agreement among the anthracite producers and carriers to put up prices, is not a very satisfactory one, except for immediate and temporary effect. The memory of living men goeth not to the day when the problem of how to secure an anthracite agreement was not on the carpet; and, while many solutions have been tried, none have succeeded. Any combination that seeks to improve the Coal shares by putting up prices of coal to the consumer is barred by the judicial decision that shattered the McLeod leases. Economies in operation and a participation in the general improvement would help the coal business, and they are the only ways in which it can be helped. A combination having these ends in view may succeed, but one whose only purpose is to take more money out of the pockets of the public will not. It would simply invite action by the courts to secure its own defeat. The movement of gold this way is only favorable in the sense that one cannot have too much of a good thing, but having more gold now than there is immediate use for, additions simply become a valuable superfluity.

MONEY under ordinary circumstances becomes dearer toward the close of the year. If recent events and rates have not induced most people to supply themselves in advance of the tight season, there is likely to be quite a pinch in Europe before the New Year, and some trouble in consequence. An anticipation so natural as this, in view of the advances in rates made in the last month or two, will check business until it is seen whether it is well grounded or not. The prospects for higher rates make the engagements of gold for shipment to the United States remarkable, especially when coupled with the comparatively low rates prevailing at home. The American credits abroad are known to be large and it is claimed that German bills have been discounted in New York through drafts upon such credits in London. For one reason or another, and probably because of the difficulty of financing big operations in the present strained condition of the money market at Berlin, the consolidations of the electrical companies, mentioned some weeks ago as having been arranged, have been abandoned. The announcement of the adoption of a provisional fiscal agreement between Austria and Hungary made this week, is satisfactory in so far as it revives confidence in Vienna and Buda-Pesth in an ultimate permanent agreement; but all favoring signs from that quarter are overshadowed by the news of disagreements between Austria and Prussia regarding the rights of subjects of each in the territory of the other. The cable, with characteristic verbal brevity conveying extended inference, ponits to the last-named matter as a menace to the Dreibund. Italy's poverty, Austria's understanding with Russia and Germany's new policy of protection toward Turkey, make the continuance of that agreement extremely unlikely when its present period expires, two years hence, and it will not be long before the financial world will begin to discount the re-distribution of alliances that the dissolution of the Bund will make necessary. The French Government has under examination a proposal of the Governor-General of Indo-China to contract a loan of $40,000,000 for railways to connect Annam and Tonkin with the Southern provinces of China. Some of the French protectionists, not content with all French territory, home and colonial, being enclosed in one tariff ring fence, are agitating against inter-colonial trade. One journal fearing that French-Indian manufactures may compete with those of the mother country in Tonkin and Madagascar, remarks: "We place the prosperity of France above that of Pondicherry. If France has sacrificed so many men and so much money in the conquest of Indo-China and Madagascar, it was not to procure a market for yarns and stuffs manufactured at Pondicherry." Thus is the falsity of another alleged effort to carry the blessings of civilization to the heathen exposed. Clyde shipbuilders are congratulating themselves on having had a successful year. So far this year 246 vessels, representing 380,000 tons, have been launched as compared with 222 vessels, representing 278,000 tons, last year. The newly inaugurated President of the Argentine Republic owns to the difficulty of finding a remedy for the financial difficulties of the country when in his address to Congress he says: - "It is necessary to adopt a plan of rigorous economy. Within a few years we have quadrupled our expenditure, as if we believed that our resources were inexhaustible, and we find ourselves with a deficit which reveals improvidence and disorder. We must restore equilibrium by the most regular means—that is, by reducing our expenditure. This, moreover, is the only means we have of solving the problem of our complex financial position." Theoretically President Rocca is right, but who ever knew of a Congress adopting "a plan of rigorous economy."

THE HUMANLY FINE.

THE most surprising phase of all this talk about the Philippines is the disclosure that a large or at least a considerable number of Americans are at odds with their country. It is true we have the spectacles of other peoples frequently differing among themselves on questions of polity, but we would like someone to recall for us a case in history where a nation has been anything but unanimous—fervently and triumphantly unanimous—at moments like the present, and in dealing with matters such as those that confront us now in winding up our account with Spain. Opposition to the commencement of war has indeed arisen at times everywhere from the piety of a few and from the selfishness or the fear of some others, but war ended, and the glorious knee of one's beloved country firmly placed on the chest of the vanquished, what nation has ever doubted its right to the spoils, its ability to "expand" and the benefits accruing to the world from an extension of its civilization?

To estimate how absurd this is, we have only to try to fancy a Frenchman questioning the beneficent influence of the arts and manners of his country upon the Filippinos, or to try to think of an Englishman hesitating as to whether Brittannia could safely and profitably rule the Spanish Eastern archipelago; or struggle to imagine a Russian halting at the thought of "annexation;" or William of Germany questioning the reality of "destiny" when presented in the shape of a few thousand odd islands. It is useless to work with one's self to make pictures of that sort; we know no European is capable of acting so—romantically.

How is it then that in the United States, among so practical and patriotic a people, we witness so extraordinary a sight—men openly opposing the "destiny" of their country, hotly questioning the wisdom of "expansion," doubting the value of our government to a lot of half-breed Asiatics, and denying our "right" even to spoil the vanquished and make him "cough up" all that is in him? Why is it that in situations like ours the European acts so superior?

The matter is worth discussing because only old-fashioned people who have exaggerated notions about the wisdom of Washington and the value of our 18th century traditions as a guide under all circumstances fail to perceive clearly that Uncle Sam is entering the "colony business" for keeps, and that whether we like it or not (we imagine we will like it) we will find ourselves pushing with the crowd for the territory of the weak and the possessions of the unfortunate. Invariably, it's the first step that counts; and as we are necessarily "in" for a good deal more than the Philippines, all our people—even the clergy and college professors—should get into line behind the country so that in future we may have no more of the baby talk about "peace" and "humanity" and "staying at home" which has disgraced the course of our war and our gloriously vigorous settlement with Spain.

The trouble has arisen entirely from taking conventional phrases in a real or literal sense. So difficult is it to be plain except in explicit terms! Some of our good citizens have not perceived what the "man in the street" has jumped at instinctively—nations as nations never speak the truth, and are essentially unscrupulous. Experience and training save the European from falling into error here, precisely as the crowd in this country were spared the ignomy of mistake, about what was said when we declared war, by their dull unreasoned sense for realty.

But cultured and pious people who are ever weak and beset with historical or ethical ideals, those are the men who allowed themselves to be fooled and placed therefor in an attitude of unpatriotic opposition to their country's policy. Every nation lies when it goes to war. It knows it lies, everybody knows it lies, but it must begin the actual business of shooting by saying something, and if a magnificent phrase puts soul and conscience into the affair, why not use it? See how England beats the big drum of Christianity before she pokes the Heathen out. Don't let us say this is hypocracy, as was our wont before we warred with Spain, because now we all see that accepted illusion is necessary to make the "glorious" deeds of nations tolerable. Besides, it is foolish to prepare slander that may be returned to dirty ourselves. Te Deums, hands uplifted to Heaven, the swelling phrase about "civilization" and "humanity" have preluded every war, ancient and modern, and have deceived nobody except old women and a few Americans. It is these poor people who are disgracing this country, because they are insisting noisily that the United States should live according to a standard that no other nation has ever accepted, save, verbally. They want us, forsooth, to be an "example," to play the role of an honest single-minded people. This is working morality more than nine hours a day, which no practical nation can permit. We must bring ourselves to recognize—indeed, don't we recognize it?—that moral and historical ideals, although well enough in books and college lectures, should exist in international affairs to be viewed only in the way that will profit us the most. Morality for nations is merely a scenical effect, the stage dressing for acts of profit or hate; and those discontents who are quarrelling to-day with the new American policy of conquest and annexation are men who have allowed themselves to be fooled by the necessary moral scenery of our war with Spain. No doubt, colonies are innovations for us; but in the language of old Walton: "Why be curious about the newness of our fish?" No doubt, too, we shall get into trouble of many kinds with our new possessions; every colonizing nation has. No doubt, at some time they will be weak spots in our armor; every colonizing nation has discovered that too, sooner or later, and what shall we learn, then, but the lesson we have taught Spain?

In all this we are but going the way of the world, traveling as Greece and Rome and Spain traveled, and as modern nations are traveling, along the militant path of greed, envy, hatred and malice, living by the sword and perishing by it when our "destiny" wills it. What is history but the endless repetition of old facts under new circumstances? And may we not see the broad outlines of our future in the story of older peoples? Chips of the old block, we are. Those who hoped that this country would be strong solely by the power of peace, and influential throughout a sanguinary world by the mild authority of rectitude were dreamers of dreams. Let the croakers get into line! Why shouldn't we swagger with the rest of mankind, moralize when we declare war, and grab when the vanquished treat with us for peace? Let us have no more irridescent nonsense; our real policy is to take all we can and keep all we get. Dago aspirations of independence are becoming more absurd to us every day. By and by they wil be utterly ridiculous. Affairs always run that way. We fear we will be compelled to moralize again, because clearly it is our destiny to keep all the possessions Spain has lost. We hope none will object, but if there are any kickers, can we not justify ourselves as Mr. Henderland did the Highland opposition to the English by the thought that though it is "no perhaps Christian, it is humanly fine?"

THE stoppage of work on the new City Prison owing to the discovery by the Building Department of a technical violation of law has given rise to much public discussion. The violation alleged is the employment of insufficiently strong beams in the first and second floors of the building. Commissioner of Buildings Thomas J. Brady states that the plans of Withers & Dickson, submitted to the Building Department, February 16, 1897, did not show the cell construction of the prison in detail. On February 20 the engineer of the deparment, in his report on the application for a building permit, objected, among other things, that the plans did not specify the materal to be used in the cell partitions, and that they did not contain drawings of the cell balconies. This report having been forwarded to Withers & Dickson, they, on February 26, filed an "amendment" to their plans, stating that the cell construction would be built of steel throughout, and that the drawings for the balconies would be submitted at a future time, as the work on these was not "to be contracted for at present." This amendment proving satisfactory, constructional work on the building was allowed to begin. No further communication was received by the Building Department with regard to the cell work until Horgan & Slattery's plans were submitted on the 22d ultimo. It was in reporting on these plans that the department's engineer submitted that, "The first and second tiers of floor beams would be overstrained if used for the support of cells." According to this explanation, the "violation" merely signifies that, in order to make use of Horgan & Slattery's cell construction, which may or may not be superior to that of Withers & Dickson, some modification will be necessary in the floors as planned by the latter. This opinion is supported by a statement made by George B. Post, the consulting architect, in effect that if the actual weights contemplated in the cell plans exceed those originally tentatively given either, the cell work would have to be lightened or the girders strengthened, which strengthening could be done with little delay and at small expense. A conference of all interests took place yesterday, at which, it was stated, the matters in dispute were arranged and work would proceed.

IT may be taken for granted that if elections were held at the time of its occurence, a fall of snow would turn out any administration that might be in power at the time. The public cannot see that, while a light, beautiful and graceful thing when falling, snow becomes sullen, heavy and inert when fallen. It offers to those who attempt to handle it additional difficulties from the uncertainty of its consistence, at one time almost liquid and at others as hard and tenacious as rock. The uncertainty of its advent and its mere weight make it impossible for any working force that can be gotten together with such limited warning of its coming as it gives, incapable of protecting the public from its inconveniences until assisted by natural forces. For these reasons the gentleman who occupies the delicate office of Commissioner of Street Cleaning may be forgiven both his bad language and his bad grammar when commenting on the criticism so generously and unjustly bestowed upon him during the past two or three days. It is truly a time when the public should be warned not to shoot the Commissioner, not only because he is doing "his" best, but any man's best. In proof of this it is only necessary to recall the fact that Colonel Waring's seeming inability to handle his first fall of snow almost imperilled his high reputation. That New York City has been a desperate slough this week is because it was physically impossible to remove the disagreeable ingredients of the slough before they had time to work.

MAYOR VAN WYCK has shown a ready regard for the warning given by Mr. Roebling that the Brooklyn Bridge is being overloaded, in his recommendation that two additional bridges be planned, but as it will take some years before the new East River Bridge, now being built, is completed, and some years more before the two additional ones can be of use to the public, it is to be hoped that something will be done to secure immediate relief for the only bridge now existing between the two boroughs. When in the circumlocutary processes of public work the three new bridges are completed there is no doubt that the lapse of time will have brought about a growth of population and of commerce sufficient to amply employ them. In recommending that plans be drawn now to supply the wants of future years Mayor Van Wyck exhibits a foresight hitherto almost unknown at the City Hall, and makes it possible to believe that this community is, after all, capable of learning something of proper municipal government.

NOVEMBER FORECLOSURE SALES.

The sales in foreclosure for last month summarized and compared with similar sales for November last year, do not require any further remark than what was given them from week to week in our auction summaries. In the total results the features most to be noticed are the higher class of properties sold, as indicated by the larger amount of incumbrances on a smaller number of parcels for the month of this year and the proportionately larger amount of property that was taken to protect mortgage liens.

THE PRIVATE SALES' MARKET.

When the private sales' season opened, two months ago, there was some doubt as to the complexion which the market would assume. Brokers of bearish tendency were inclined to undervalue the disturbing effect of the war, and to ascribe the exceptional dulness of the summer chiefly to overbuilding. From this premise it was argued that, even with a partial cessation of building operations—of which there appeared to be little actual prospect—a long time would have to elapse before the private sales' business could recover its normal tone. On the other hand, signs bespeaking a prompt and lasting improvement of the market were not wanting. General business, whether gauged by the exports of the port of New York, the activity in Wall street, bank clearings, the earnings of railways, the production of pig iron, or any of the accepted barometers of trade, had enjoyed substantial prosperity for a length of time sufficient, it would seem, to warrant the expectation of a sympathetic movement in real estate. According to the Merchants' Association, the number of out-of-town buyers who had visited New York in August and September was upward of 30 per cent. greater than that for the corresponding months the year before. True, the building statistics for the last four years had been large. But, as was pointed out in the Record and Guide, the growth in population had pretty well kept pace with the increase in residential housing, while some six months of quiet in constructional work, aided by an expansion movement in local commerce, had resulted in the practical absorption of the new downtown mercantile accommodations, particularly in the wholesale section of Broadway. The consequence had been an unmistakable stiffening of rents. In new leases of business property rents were being graded so that, in the last year of five-year terms, the rent would be about on the plane which obtained four years ago. Furthermore, the renting season for residential housing, which had just terminated, showed a perceptably larger business to its credit than that of the preceding year. Nevertheless, despite circumstances susceptible of a favorable interpretation, there was a fundamental difference of opinion as to the state of the supply of and demand for investment real estate, and, consequently, as to the immediate outlook for the private sales' business. It is worth while, therefore, to ascertain what light, if any, the experience of the first two months of the market throws upon the subject.

The season of 1897-1898, which came to a premature termination on the outbreak of the war, was, by common consent, decidedly above the average since the panic. The business of the past two months has been larger and of a more promising nature than that of the corresponding period last season. The total stated consideration of the purchases reported in the Record and Guide's gossip columns in October and November last year was some $10,327,000 for 161 parcels. This year it has reached upward of $10,519,000 for 114 parcels only, showing a larger average on the individual operation. It is true that the total number of transactions reported is somewhat smaller—357 against 387. But this trifling numerical loss is amply compensated for by a decidedly more frequent recurrence of big deals.

Among the notable business properties reported sold in October and November of last year were the southwest corner of Broadway and Houston street, purchased by Chas. A. Gould for $350,000; No. 479 Broadway, running through to Mercer, the Rhinelander estate buyer; and Nos. 733 and 735 Broadway, bought by John Downey for $480,000. This year the list of similar properties comprises the Stock Exchange purchase on Broad street, $825,000; No. 678 Broadway, Leo Schlessinger, seller; No. 601 Broadway, bought by Frederick F. Ayer for $145,000; and the Flake & Dowling purchase on Broadway and Walker street, $425,000.

A comparative list of other transactions involving over $100,000 each, prepared for the purpose of this article, is found to be too long for insertion. It will have to be sufficient to say that the comparison falls out very distinctly in favor of the present year. For such transactions as the sale of Nos. 599 and 603 5th ave. to ex-Governor Flower and Mrs. Emma K. Schley, respectively, the William Waldorf Astor purchase of 5th avenue lots, near 56th street, from the Bonner brothers; the Harlem Casino sale; the Columbia College trade, and the million-dollar deal in 5th avenue property, extending from 90th to 92d street, last year has no counterparts in respect of sensational interest.

In two important particulars the market has undergone a marked change. The properties in the new mercantile district between 14th and 23d streets sold for reimprovement are more numerous, while the activity in expensive sites, adapted for apartment hotels and high-grade apartments is so much greater as to leave no room for comparison. In Central Park West, for example, one transaction was reported in October and November, last year, as against eight this year, involving 39 lots.

It is difficult to escape the conclusion that the private sales' market has recovered a permanently healthy tone, and that the volume of business is bound to experience a further expansion. Last season business continued to grow until for the week ending March 19, the stated consideration reached nearly four millions of dollars. The improvement of the past two months has been made in the face of active speculation on the Stock Exchange, which did not exist last year at this time. But the activity in stocks has unmistakably begun to decline. And there never was a time when the interest rate on real estate loans was lower than at present.

DELAYED SEWER WORK.

At a recent meeting of the Board of Public Improvements, a letter was read from Jas. Kane, Commissioner of Sewers, transmitting a list of sewer improvements for which he desired ordinances prepared and forwarded to the Municipal Assembly. If forwarded now the ordinances would probably not reach the Mayor for his action before April or May next. By that time Mr. Kane anticipates there will be a large balance in the hands of the Comptroller to the credit of the Street Improvement Fund and in other ways the city will be relieved from the embarrassments of the debt limit and the work can be done as soon as approved. The list of improvements referred to in the Commissioner's letter is as follows:

Duffield st., from Fulton st. to Willoughby av., request for repaving with granite blocks referred to Board of Public Improvements.

A NEW DEPARTURE IN HARDWOODS.

Common hardwood lumber of certain sizes, in grades lower than "firsts" and "seconds," has been in active demand for the last ten years for the reason that wholesale manufacturers of trim, furniture and pianos could produce a clear article from this stock by cutting out the inferior parts, thus getting satisfactory stock at prices considerably below the cost of first grade wood. The freight on this poorer grade of wood was the same as on the best grades and the operation of shipping the inferior grades was an undesirable one for the mills. This state of affairs was so unsatisfactory that means were devised to remedy it, and a new industry has been established in consequence, to equalize more the demand for cheaper stock. Now, "dimension stock" of good grade lumber, that is, lumber machined at the mill and furnished in "shooks," is rapidly taking its place. This is made possible because land, fuel and labor are much cheaper at the mills than they are in the city; and, with improved facilities for machining, the high grade lumber can easily compete with the low grades now most in demand. "Shooks" cut to any size and shape and milled can now be brought to New York at the price of rough lumber. Although some mills had already handled this business, most were uncertain about engaging in it, but capital is now organized to manufacture these articles on a large scale. This will more evenly distribute the demand for all grades of wood and the consumer will be able to procure goods at lower prices. The shooks are moulded on the edges on an "upright moulding machine," which consists essentially of a horizontal table on which a perpendicular axle revolves at any speed desired by power from below. This axle is set with any number of "bits" from one to four, and like those of the ordinary milling machine these bits are made to any particular pattern by grinding. A milled or mouled edge can be made on any shaped piece of wood with the same facility with which lengths of lumber are moulded in the ordinary moulding machines, which have been brought to such a state of perfection that a piece of lumber can be milled on four sides simultaneously.

The Real Estate Market

Real Estate Market

The business of the private sales' market has been fully up to the satisfactory weekly average of the past two months. Speculative activity has been most marked in expensive sites, adapted for high-grade apartment houses and private dwellings, and in antiquated properties on the lower East Side, fitted for reimprovement with 6-story tenements. Investment purchases have chiefly taken the form of residential housing, including the much despised 5-story uptown flat. The week has not been without its transaction in vacant property on Central Park West, which has come to be a regularly recurring feature of the market. This is the ninth change in ownership of lots on that avenue reported since the beginning of the season, two months ago. The sale of the northeast corner of Broadway and 10th street is an investment transaction pure and simple, and, in the present state of the market, is even more welcome than the speculative purchase of Nos. 632 and 634 Broadway. Two Broadway transactions in one week ought to satisfy the severest critic of the market. It can now be stated positively that Andrew Carnegie is the buyer of the 5th avenue blocks between 90th and 92d streets, and that he intends to build a costly mansion on the northerly block. He will sell the other with restrictions. Mr. Carnegie's purchase has helped marvellously to clear up the future of the upper park section of the avenue. Indeed, it is now difficult to find any one who ever had any doubt on the subject.

The Real Estate Salesroom this week, with the exception of one day, namely, Tuesday, was unusually quiet. On Friday there were no auctions at all. The inactivity, however, may be regarded as a matter for congratulation rather than otherwise, inasmuch as it was occasioned chiefly by a paucity of foreclosure sales. The properties offered at voluntary, executor's and partition auction comprised one-half the schedule. Of the seventeen parcels billed in foreclosure proceedings, five were bought by other than the plaintiffs, and six, including the choicer offerings, were withdrawn or adjourned. Ten parcels offered at non-foreclosure sale were actually disposed of, two were adjourned, and five bid in. Prices were conservative, and the buyers were mostly professional operators. The event which attracted the largest attendance was the offering of the former New York Athletic Club house, at the corner of 6th avenue and 55th street, by Peter F. Meyer, on Tuesday. The property was put up by order of the Democratic Club, which paid for it $190,000. The auctioneer stated that the club was prepared to sell at a sacrifice, as it had no use for the building. A firm of operators offered $2,500 over a mortgage of $125,000, but the auctioneer declined to entertain the bid, and the property was withdrawn. The sale of two lots on Southern Boulevard, near Freeman street, scheduled for voluntary sale by William M. Ryan on the same day, was adjourned to December 6, on the ground that the storm on Saturday and Sunday had prevented intending purchasers from viewing the property. Other withdrawals and adjournments to dates beyond the coming week were: No. 18 West 90th street, Peter F. Meyer, auctioneer, adjourned to Dec. 15; No. 89 5th avenue, William Kennelly, auctioneer, adjourned to Dec. 14; No. 617 West 138th street, Strong & Ireland, auctioneers, withdrawn.

Bryan L. Kennelly will sell at auction on Wednesday next, 7th inst., Nos. 2-10 7th avenue and Nos. 74-76 Greenwich avenue, with the buildings thereon. This property is at the junction of the two important thoroughfares named. Dimensions of plot will be found in the advertisement of the sale on another page and the auctioneer will supply maps and full particulars on application at his office, No. 66 Liberty street.

REAL ESTATE NOTES.

The New York Baseball Club has taken a renewal of the lease of the Polo Ground from the Lynch estate. The Manhattan Field is included in the renewal.

No. 678 Broadway, a 5-story building, 28.6x130, to which Henry Corn has just taken and transferred title, was bought by him for $143,000, and resold to Matthew Clarkson for $148,000. The new buyer has leased the building to the present tenant.

Rebecca Cohn, whose name has appeared frequently in cqonnection with East Side transactions, has been succeeded by Cohn & Newborg. Mr. Newborg is of the firm of Newborg, Rosenberg & Co., wholesale clothiers, and the new firm intend to operate very largely in the East Side section.

The Aldermanic Committee on Streets and Highways has been instructed to suggest "an improved and absolutely perfect character of street signs, that will by day and at night enable those in cars as well as pedestrians to readily discern their whereabouts without the annoyance and difficulties they are now forced to suffer under."

The committee appointed by the governors of the Real Estate Board of Brokers to nominate their successors to be voted for at the election on Tuesday next, have presented the names of the following gentlemen: H. H. Cammann, Albert L. David, John F. Doyle, Wm. Henry Folsom, Frank R. Houghton, Irving Ruland, Samuel F. Jayne, J. Hamilton Hunt, and Walter Stabler.

A large number of West Side residents attended the hearing before President Peters and the Board of Local Improvement of the 17th and 19th Assembly Districts, held in the City Hall yesterday afternoon, to protest against the two additional tracks on Amsterdam avenue for the underground electric railways. Thomas A. Fulton, President of the Taxpayers' Association; Cyrus Clark, President of the West Side Association, and ex-Dock Commissioner James J. Phelan, and others presented arguments to show that the two tracks in addition to those already there would be a detriment to property, a menace to life and were unnecessary.

Peter F. Meyer as Dock Commissioner, was a witness before the State Commerce Commission at the City Hall on Thursday. He declared that there should be a continual building of new docks. It was impossible to keep pace with the demand for docks. He was in favor of building twelve on the East River and twelve on the North River, each 450 feet long. When these docks were built the demand would still be greater than the supply. The improvement on the water front which he suggested would increase the value of water-front real estate 100 per cent. Dock Commissioner J. Sergeant Cram spoke of the necessity of building up to a greater extent the city's dock system, the condition of which, he said, had had much to do with the decline of the port's commerce. He said he was in favor of a dry dock here which would give berth to the vessels of all nations.

The regular monthly meeting of the House and Real Estate Owners' Association of the 12th and 19th Wards, was held at No. 1591 2d avenue, Thursday evening. President Conrad Harres, who has just recovered from a prolonged illness, occupied the chair. Committee reports were read, showing what steps have been taken to secure from the city authorities a more ample water supply between 80th and 94th streets, east of 3d avenue, the paving of 83d and 84th streets, and a more efficient police protection in the precinct of the 88th street station. A resolution of thanks was voted to President Clausen, of the Park Board, for his activity in pushing the improvement of the East River Park. President Harres informed the meeting that, as the result of a personal visit to the head of the Health Department, and of representations by the association's counsel, Adolph Bloch, the smoke nuisance for a long time maintained by the New York Steam Heating Co., had been abated.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Attention is called to the card of Broker John J. Coady, on page viii. Mr. Coady is an expert realty appraiser and building expert who has been engaged constantly since 1872 in the realty business making a specialty of appraising, managing and altering property to secure an increased income therefrom for clients. The fact that he is a thorough mechanic gives added value to the appraisals made and advice given by Mr. Coady as to the best manner to alter or improve realty and owners and trustees of estates who are uncertain as to the best method of developing property will do well to secure the advice of an expert like Mr. Coady. His card reads adviser, adjuster, economizer, estimates, testimony and management of property. Mr. Coady's downtown office is at No. 96 Broadway and No. 6 Wall street, where his hours are 12 to 3 daily and his branch office at No. 12 West 60th street.

The Building Trades

MATERIAL MARKET.

The building material market in practically all its branches has been seriously affected by the recent storms which have hindered, and in many cases destroyed, cargoes that were on their way to New York.

BRICK.—The number of barges that arrived this week was 51 and 59 went out, thus reducing the amount of left overs. Indications are that the large supply from up-river points has practically ceased for the year. The bad weather has also had a marked effect by reducing the demand. A number of barges on the way to this port have been capsized and the cargoes sunk; besides, vessels at berths here for discharging are delayed unusually on account of the storms, so that they cannot return to points of manufacture for reloading, and thus the supply will be curtailed unless the weather indications warrant a resumption of traffic between the river ports and this city. Pales are in very good demand, and find an easy sale at $4.00. Common and specials range in price from $5.50 to $6.00.

LATH.—Between five and six millions were sold in this market this week, at prices ranging from $1.75 to $1.80. The available stock in the market does not exceed half a cargo. Just how many have been lost in the storms cannot as yet be stated definitely; but it is estimated that about two-thirds of the cargoes shipped during the past two weeks have been wrecked, and it will take at least a week or ten days for trade to resume its normal conditions.

LIME.—There are no vessels at ports of lading for Rockland lime, and the market is virtually bare. Receivers are not attempting to push sales, being desirous of holding what stock they have until shipments arrive regularly, unless offers are very desirable. It will be at least three weeks or a month before regular shipments begin again to arrive at New York. There is no material change in State lime this week. Although the storms have had a less marked effect on the arrivals than was the case with Rockland, the dealers have not received a large enough quantity to meet the demands of the market, which is at present seasonably active. Common is selling at 70 and 75 cents, and Jointa is bringing 90 cents.

OIL.—Trade in oil is seasonably quiet. The seed market, for the past week, has ruled from $1.00 to $1.01 for cash in Chicago, with slight fluctuations to the better. There is no buying for the future and prices are steady at 37c. for 5 bbl. lots of raw oil and 38c. for smaller quantities. Boiled oil is selling for 39c. and 40c., and Calcutta remains firm at 54c.

NAILS.—The market for both wire and cut nails shows a slight weakening this week. Prices are as follows: Cut nails are on a basis of $1.05 to $1.10 for base f. o. b. Pittsburg in carload lots; $1.20 and $1.25 on dock New York in carload lots, and $1.30 small lots New York stores. Wire nails are $1.25 for base f. o. b. Pittsburg in carload lots; $1.40 on dock New York in carload lots, and $1.50 in small lots New York stores. Although cut in comparison with wire are fairly high, wire nails are now as low as they have ever been, and there is little likelihood of a further marked weakening in prices.

LEAD.—Lead is very steady, although the demand is dropping off slightly as the dull season approaches. There is no strong probability of a weakening in prices.

PAINTS.—Business in colors is seasonably quiet, with no change in prices.

GLASS.—There is a fairly good assortment of sizes and grades on hand, and the demand, considering the unfavorable weather conditions, is very good. Discounts remain the same at 80 for plate, 80 and 10 for French window, and 80 and 20 for American window.

CEMENT.—Trade is very brisk in Rosendale. The probability of good weather for building operations between now and the holidays has caused buyers to increase their stocks. The best grades are hard to obtain for less than 70 cents, and 75 cents is being paid in some cases. There is very little imported Portland coming to this market, and, the cold weather having set in, the demand, which was so marked some weeks ago, is now assuming a more normal condition, although in some cases cement is being sold to arrive. The demand for domestic Portland is good, and orders are keeping up to the supply at present. There is no change in prices.

LUMBER AND HARDWOODS.—The bad weather, together with the usual interruptions around the holiday season in the nature of stockholding, etc., will interrupt the course of business for some time. Before the storms, indications were favorable; but now that building operations are so hindered the distribution of woods is greatly reduced. This condition will help trade in the early months of the coming year, when regular business is resumed. The yards are short owing to the dull trade conditions

that prevailed during the summer, when dealers were not carrying large stocks. Spruce has advanced owing to the loss of cargoes by storms. On the 26th of this month the spruce operators in West Virginia held a meeting and advanced the price $1.00 a 1,000 ft. on 9 inch and over, wide timber, prices of other sizes remaining unchanged. This action was due to the good demand for what is known as large timber. The market is short on Adirondack spruce in 1x9, 2x9 and 1¼ x9 in 13 ft. lengths. Yellow pine is in good demand with no change in prices. The North Carolina mills have orders sufficient for some time to come. Prices on Pennsylvania hemlock will probably advance as the winter progresses. There is a scarcity of the best grade of cypress shingles. Quartered and plain oak and poplar are in good demand, with prices about the same as last reported.

NAVAL STORES.—A fair trade was carried on in spirits of turpentine on a basis of 39½c. for machines. The market ruled quiet with a steadier tone, owing to the light receipts on the Southern market, and large operations by exporters. The market closed steady at 39c. for Southerns and 39½c. for machines. The inquiry for tar was limited, holders not pushing sales, and values were well held. Prices are: Regulars $1.80 and oil barrels $3.60. Pitch was dull and unchanged at $1.60 and $1.65.

OF INTEREST TO THE BUILDING TRADES.

F. C. Mason & Co., decorators, formerly at No. 3 East 42d street, have removed to No. 1 East 34th street.

L. Danancher, No. 323 Rockaway avenue, Brooklyn, is drawing plans for a 1-story frame synagogue, 25x85; seating capacity, about 600.

The Board of Aldermen have authorized alterations to be made, under contract, in the Brooklyn Municipal building, at an estimated cost of $20,000.

The Council has adopted the Aldermanic resolution for the appointment of a Commission to draft a building code, given in our last issue. The resolution now goes to the Mayor.

Michael F. Walsh, Edmond Fitzpatrick, Neil F. Dougherty, John F. Anderson, Volney Rutan, Fergus McGarry and Peter Dornan have been appointed inspectors in the Department of Buildings, Boroughs of Manhattan and the Bronx.

The members of the Compressed Air Workers' Union, who have been at work on the Willis Ave. bridge over the Harlem River, stopped work on Thursday because of the employment of non-union men on the work.

The annual dinner of the Builders' League of New York will take place to-night, at the Clubhouse on East 126th street. The arrangements made by the committee having charge of the matter insure a very successful and enjoyable evening.

The strike of the 20 granite cutters on the new East River Bridge, brought about by the men paying a padrone to secure employment for them, is still on, and Delegate W. J. O'Brien, of the New York branch of the Granite Cutters' Union, is reported to have said that it will be necessary to settle the matter in the courts.

Mayor Van Wyck has written to the Board of Public Improvements, directing them to take steps for the construction of a fourth bridge over the East River, between the boroughs of Manhattan and Brooklyn. Prior to the receipt of this letter, the Board had directed the Commissioner of Bridges to prepare plans, surveys, and soundings for a third bridge. Appropriations have been made for provisional surveys.

The latest announcement of the discovery of a non-frigible water-pipe comes from Germany, via Chicago. The description given of this pipe is: Into the iron pipe, as far as it is above the ground, there is inserted a second narrower pipe of thin sheet tin or lead, which is filled with an elastic substance, such, for instance, as rubber. This insertion remains unaffected by the ordinary pressure, but if the water should be frozen by extreme cold the elastic insertion is compressed by so much as the volume of water is increased by the freezing. With the coming of the thaw the insertion expands again to its original circumference. The object of the tin or lead around the insertion is to prevent an unpleasant taste or odor being imparted to the water.

The Architectural League has made public the conditions of the competitions for the gold and silver medals, the Avery prize and the President's prize. The subjects chosen for the gold and silver medals are reviewing-stands, triumphal arches, and public grand-stands, supposedly constructed for the purpose of reviewing an army returning from foreign service. The site assumed is Riverside Park in the vicinity of Grant's Tomb. The Avery prize of $50 is to be given to the person designing the best war-medal to be used as a decoration of soldiers in commemoration of the battle of Santiago. The competition for the President's prize, open only to members of the League, will be for the best poster to advertise the next exhibition of the League. The design will be purchased if, in the opinion of the committee, it is found suited to their purposes. All designs submitted must be distinguished by a cipher and sent to the committee on competitions, at No. 215 West 57th street, before January 16.

About two weeks ago the "Marble Industry Employers' Association" passed a resolution in which they refused to have any further dealings with the Board of Delegates. In accordance with this measure the Association has employed members of the Internationel Polishers' Association to take the places of the workmen who are members of the Whitestone Association of Marble Polishers, which organization is represented in the Board of Delegates. The employers desire to deal with organized labor, but the Board of Delegates represent so large a proportion of labor societies that are not related in any way to the building trades, and so few skilled unions, that are, that it was found impracticable to deal with the disagreements between the laborer and the employer through them with any very satisfactory results. It is believed, however, that the relations between the employers and the Building Trades Council, which is composed entirely of societies concerned in the building trades, will be such that sympathetic strikes will no longer be caused by the trivial issues

which have brought them about in the past, and that all matters can be settled in a manner satisfactory to both parties by reasonable and prompt arbitration.

The following is a comparative statement of the receipts of the Department of Water Supply for Croton water for building purposes for the months named:

	1896.	1897	1898.
January	$1,611.80	$2,605.30	$2,404.65
February	1,980.45	3,376.10	2,095.10
March	3,723.15	3,292.45	4,612.05
April	6,171.20	5,590.79	2,544.10
May	3,260.65	3,842.40	3,523.85
June	3,610.90	4,212.85	2,709.50
July	2,976.70	4,252.40	3,971.95
August	2,661.55	3,718.35	3,292.30
September	2,172.66	3,534.50	3,352.75
October	3,286.66	4,988.60	4,845.70
November	2,407.55	3,379.70	3,739.24
December	2,960.70	4,090.10	.....
Totals	$36,833.97	$46,833.54	.....

Rate, 10c. per 1,000 bricks.

These figures include stone work, which is figured as brick and lumped with brick; and frame houses in 23d and 24th Wards. The Department records, therefore, do not show exact number of bricks paid for, nor do the records show the following items:

Buildings in which water is used through meter. These are paid by meter measurement in Meter Department as charges for general consumption.

Buildings in which no Croton is used; well or spring water only being used; no charge.

Alterations and extensions, using less than 10,000 brick; not charged.

Regarding the complaints, by P. Riemer, of leakages in the pavement of the Third avenue bridge approach, a letter was received at the last meeting of the Board of Aldermen from Thomas C. Clarke, Consulting Engineer, saying: "When the plan of the north approach of the Third avenue bridge was changed from stone walls, carrying a floor of brick arches, to a steel viaduct, in 1897, by order of the Board of Estimate and Apportionment, it became necessary, in order to utilize the costly foundations then built, to substitute a lighter floor of steel buckle plates, such as is generally used on steel viaducts. My experience is that a steel floor cannot be made perfectly water-tight, as brick arches can be, on account of the necessity of providing for the expansion and contraction of the metal from changes of temperature. It was necessary, at distances of about 100 feet apart lengthwise, to leave openings called expansion joints. Through these the water now runs after a heavy rain. It is proposed to place at these points troughs of iron, like the eaves gutters of houses, and carry the water to a downfall pipe, so that it will not inconvenience the public. Drainage holes have been left in the buckle plates also, but very little water drips through at such places. In reference to the suggestion that the seams of the stone pavement should have been filled with hot asphalt and gravel, I have to report that they were so filled, and that the pavement is not patented. When the bridge is completed it is believed that there will be no ground for further complaints of water leaking through the roof or side walls."

OFFICE BUILDINGS UNDER WAY.

The number of commercial buildings in course of construction at the present time in the portion of the city south of Duane street as compared with the number of similar operations that were progressing in the same district at this season last year shows a considerable falling off not only in the aggregate, but also and more especially in the extent of each individual operation. Of all the important buildings progressing a year ago the Ivins' Syndicate Building on Park Row alone is still uncompleted, having been kept back by strikes and the fact that the work is being done by the day. The principal buildings under construction at the close of last year were: The Empire Building, southwest corner of Broadway and Rector street; the Gill Building at Nos. 9 and 13 Maiden Lane; Astor Court, at Broadway and Exchange Place; the Anderson Building at Nos. 12 to 16 John street; the Singer Building, at Broadway and Liberty street; the Hudson Building, at Nos. 32 and 34 Broadway; the Cushman Building, Broadway, northeast corner of Maiden Lane; Washington Life Building, Broadway, southwest corner of Liberty street. The following is an enumeration and general description of the principal buildings that are being constructed at the present time in the city below Duane street:

The Vincent Building, southeast corner of Broadway and Duane street, 14 stories and attic. The fronts are of Indiana limestone and the interior is steel and fire-proof construction, with a frontage of 110 feet on Broadway and 50 feet on Duane street. Owner, estate of John Jacob Astor; architect, Geo. B. Post; contractor, Tide Water Building Co.; estimated cost, about $350,000; condition, 12th tier of beams being set.

Nos. 298 and 300 Broadway, 10-story building comprising stores and lofts. The front is of limestone and iron with steel and fire-proof construction. The frontage on Broadway is 44 feet. Owners, J. A. Chanler, et al; architects, McKim, Mead & White; estimated cost, about $110,000; about half completed.

No. 296 Broadway, 10 stories and basement of limestone and iron, fire-proof construction. Frontage on Broadway 25 feet, depth 130 feet. Owner, Jacob Lorrillard, Westchester, N. Y.; architects, Jordan & Giller, 19 Park Place; estimated cost, about $70,000; about roofed in.

No. 36 Gold street, 7-story brick power house with a frontage of 24 feet and depth of about 65 feet. Owners, Dodge & James; architects, Clinton & Russell, No. 32 Nassau street; estimated cost, about $25,000; foundations laid.

Nos. 110 to 116 Nassau street, 12-story brick office and loft building; iron and steel fire-proof construction with a frontage of 75 feet and a depth of 112 feet. Owner, Levi P. Morton, Rhinecliff, N. Y.; architects, Clinton & Russell; estimated cost, about $250,000; up to 4th tier of beams.

Northwest corner of John and Cliff streets, 7-story fire-proof office building of Indiana limestone and grey brick with a frontage of 70 feet on John street and 92 feet on Cliff street. Owners, Dodge & James; architects, Clinton & Russell; estimated cost, about $200,000; about completed.

Nos. 85 to 89 Liberty street, addition to Singer Sewing Machine Co.'s building; the frontage on Liberty street is 75 feet and the depth is 94 feet. The building is of steel and fire-proof construction and the front is of Indiana limestone for two stories and red brick with limestone trimmings above. Owner, Frederick G. Bourne; architect, Ernest Flagg; estimated cost, about $450,000.

No. 84 Broadway; this structure is 10 stories high and is L shaped in plan, with a frontage of about 31 feet on Broadway and 40 feet on Wall street; the fronts and exposed portions of the sides are of red brick and Indiana limestone. Owner and architect, William Wheeler Smith, 7 Wall street; about roofed in.

Nos. 27 and 29 Beaver street, building of the American Cotton Oil Co.; this building is 5 stories high and is constructed of Indiana limestone and grey brick with a frontage of 47 feet and a depth of 104½ feet. Owner, Eliz Aymar; architects, Trowbridge & Livingstone; estimated cost, about $60,000; plastering.

Chesebrough Building, State street, northeast corner of Pearl street, and facing the Bay; 15-story fire-proof building, with a frontage of about 148 feet on State street and 112 on Pearl street; the plan is an irregular pentagon; it is constructed of Indiana limestone and grey brick. Owners, R. N. and W. A. Chesebrough; architects, Clinton & Russell; estimated cost, about $200,000; nearly completed.

Northwest corner of Maiden Lane, 8-story and basement steel and fire-proof building; front constructed of Indiana limestone and grey brick; frontage of 29 feet on Maiden Lane and 106½ feet on Gold street. Owner, Matilda W. Bruce; architects, Jordan & Giller, 19 Park place; estimated cost, about $110,000; about roofed in.

RETAINING WALL.

To the Editor of THE RECORD AND GUIDE:

The dirt from neighbor's yard (which is higher than mine) rots my wooden fence. To avoid this I am about to construct retaining wall. Which I wish you would inform me if I am compelled to assume all the expense for, my neighbor half or my neighbor all of it?

Answer.—According to the ordinances of the city, "the regulation of lots, in conformity with the street, shall be calculated not to exceed a descent of two inches to every ten feet." "When the regulation of a lot, in conformity with the street on which it is situated, shall require the ground of such lot to be raised and kept up higher than the ground of the adjoining lot or lots, and a partition wall for supporting the same shall be necessary, such partition shall be made and maintained by the owners, respectively, of the land on each side." "Where any owner or owners shall insist on maintaining his, her or their ground higher than such regulation, the surplus partition wall which may be necessary to support such height shall be made and maintained at the individual expense of such owner or owners."—Law Editor.

To the Editor of THE RECORD AND GUIDE:

(1) A has a claim against B for money loaned. B has a part interest in a piece of property. A threatens B that she will take a judgment against B; now, if A does get a judgment, would she became the owner of B's share in the property (as A may want to), or would the judgment simply stand as an attachment against B's share? (2) If A does become the owner of B's share, could A or any of the other owners start a partition suit for the sale of the entire property, or could A dispose of her share unbeknown to the other owners? (3) Could any one, who is interested with others, in a piece of property, dispose of her share, without causing the entire property to be sold?

Answer.—(1) A would not become the owner of B's share in the property by obtaining a judgment against B, unless she issued execution and upon the sale brought in. Her judgment, when obtained, would be a lien upon B's real estate. (2) Any of the owners could begin a partition suit. A could dispose of her share without the knowledge or consent of the other owners. (3) Yes.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, be-

cause a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

PRIORITY OF RECORD.

To the Editor of THE RECORD AND GUIDE:

A sells B a piece of property in the City of New York. B takes deeds, puts them in his pocket, and neglects to record them until next day. In the meantime A meets C and gets a loan on bond and mortgage on the same property from him. C immediately has his bond and mortgage recorded. What I want to know is, is the property liable and will B have to pay the mortgage? What remedy, if any, has B?

Answer.—The loan by C, being bona fide, he would have a lien on the property for the amount of his loan. B would not have to pay the mortgage but the property would be liable for it. B's remedy against A would be a suit for the amount of C's loan, and he could also prosecute him criminally for the fraudulent practice.—Law Editor.

UNRECORDED LEASE—FORECLOSURE OF MORTGAGE.

To the Editor of THE RECORD AND GUIDE:

Does a lease which has not been recorded stand after a parcel has been foreclosed?

Answer.—If the holder of the lease is made a party defendant to the action, and the mortgage was recorded prior to the execution of the lease, the lease is wiped out.—Law Editor.

Questions and Answers.

TAXES IN BROOKLYN.

To the Editor of THE RECORD AND GUIDE:

Prior to the consolidation of the five boroughs into what is now the City of New York, it was said that Brooklyn was one year in advance, in the payment of property taxes, of the other boroughs. It was also said that Brooklyn would not have to pay any property tax this year, and as the time has now arrived for the payment of the same, and being a property owner, I would respectfully request you to give me an answer in the columns of the Record and Guide.

Answer.—There is no tax levy in Brooklyn this year.—Editor, Record and Guide.

WATER CHARGES.

To the Editor of THE RECORD AND GUIDE:

I am paying $53 a year for a 4-story flat in Harlem, which has eight families with bath and closet in each flat. Am I paying too much, and if so, which would be the proper way to have it reduced?

Answer.—The amount of a water rent depends upon the height and width of a house and the number of baths, water closets, etc., it contains. You should acquaint yourself with these charges and examine your bill to see if you are overcharged. The Water Registrar, at No. 150 Nassau street, N. Y. city, is the proper person to apply to for information, and redress, if you need any. —Editor, Record and Guide.

BUILDING PERMITS NECESSARY IN QUEENS.

To the Editor of THE RECORD AND GUIDE:

I am about making additions to a house which has, since January, 1898, become located within the limits of New York, at Far Rockaway. Will you advise me whether I have to obtain any permit from the city authorities, and to whom to apply?

Answer.—Yes, a building permit is necessary. Application must be filed in the branch office of the Department of Buildings for the Borough of Queens, at Jamaica.

CONDEMNATION.

To the Editor of THE RECORD AND GUIDE:

I own a leasehold, which the city will acquire by condemnation proceedings. Who will pay me for my lease and building thereon, the City, or landowner, and how do they appraise about? Lease has no renewal, has to run 13 years, income $700 clear.

Answer.—The City is obliged to pay you. The appraisal will probably be the fair value of your leasehold.—Law Editor.

DAMAGE BY BLASTING.

To the Editor of THE RECORD AND GUIDE:

A has a contract to remove rock from a certain piece of property in New York. The rock is twenty feet above curb level. B owns the adjoining house which is only three feet distant from said rock. A, in blasting, has cracked plastering throughout the house and damaged woodwork in general. What redress has B got?

Answer.—B may sue A for the damages which he has sustained. —Law Editor.

APPEAL—JUDGMENT.

To the Editor of THE RECORD AND GUIDE:

A receives a judgment in the Supreme Court against B. Now B intends to appeal the case. Cannot B, the judgment debtor, be held to furnish a bond either for the entire judgment or for the costs?

Answer.—On appeal to the Appellate Division, a bond is not required unless the judgment debtor desires a stay of execution.—Law Editor.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

A rents store from B, on verbal lease for one year, B sells property to C; C's agent calls, and says A can continue on the same terms and conditions. The property is again sold to D, who wants the tenant to vacate immediately. The verbal lease has still five months to run. Can he be put out before the time expires?

Answer.—No.—law Editor.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXII. DECEMBER 10, 1898. 1,604

SPECIAL stress has been laid this week on the favorable foreign trade balances reported for several years past as indications of the unusual prosperity of the country, and this has tended to prolong, if not to renew the cheerful view the public have taken of corporate securities as a medium for the use of surplus capital. Consequently, the stock market has a very active appearance, and the bond market is unqualifiedly good, the buying movement there having reached issues which hitherto have not created much esteem for themselves in the mind of the investor. In the stock market there were some irregularities in the dealings, which suggested that a good deal of realizing is going on and that purchases are being made with more discrimination than is usual. The issues that are practically demonstrating how they have benefited by improved commercial conditions are, of course, most favored, and as has been previously pointed out, in times of renewed business energy new developments directly affecting this or that issue are constantly cropping out. The thing to do just now is to judge which are the stocks that have had their advance and which not.

ALTHOUGH the criticism of the policy of France towards Great Britain, delivered by the latter's ambassador in Paris, was decidedly a startling matter, the severity of the shock seems to have been sustained by the newspapers only. As to the motive of this remarkable address, the most feasible one imaginable is that, failing to receive a demand for an explanation of the "pin prick" accusation made so often by responsible statesmen at home, the British Government hoped to force that demand by bellowing the accusation in the ear of the French ministry; while, of course, not wanting to force an appeal to arms, the British Government evidently, as is shown by Mr. Chamberlain's speech following so directly after that of Sir Edmund Monson, does want to open certain questions, which, once opened, must be settled in order to avoid war, and which the French Government does not think it opportune to discuss so soon after its repulse at Fashoda. Meanwhile, by disregarding the British ambassador's outbreak, the French Government has the credit of maintaining the traditions of the old diplomacy, which certainly is superior in outward dignity to, if ethically it is no better than, the so-called new. The calmness with which the French Government has received this incident doubtless explains the small effect it had in the financial centres of Europe. Only a retaliation in kind, and such a thing is quite unlikely, would upset this confidence. The Franco-Italian treaty is a good move, not only in drawing the two countries concerned closer together, but also in creating the hope that it will result in improving Italian finances, which have suffered severely through the loss of trade the estrangement of the two countries occasioned. In eleven years, from 1886 to 1896 inclusive, France's portion of Italy's total imports declined from 21.3 per cent to 11.4 per cent, and of her exports, from 43.3 per cent to 14.5 per cent; meanwhile trade elsewhere failed to make good the loss. This is one of the penalties Italy has paid for her part in the Triple Alliance. Germany's present monetary stringency is explained in recent correspondence by the heavy drafts on capital at home and abroad in the past two years. The most important of these are roughly estimated thus: Loans to China and Russia, $200,000,000; home municipal loans, $100,000,000; new industrial issues, $250,000,000. Electrical industries in Germany are estimated to consume $75,000,000, and similar industries floated with German capital abroad, $50,000,000 each year. It is now thought probable that a halt was called in time, and that the new year will bring relief to the money market of the Fatherland.

THOSE whose hopes are centered upon the provision of underground rapid transit will not find much comfort in the plan recently suggested by the president of the Rapid Transit Commission for carrying out the work. This, involving as it does the creation of a special New York county debt, which would be of doubtful legality in any case, requires for its execution that the Legislature shall suspend the application of a principle already laid down to prevent the duplication of the debts of cities whose boundaries also form counties, that may become parts of other municipal corporations. Rapid transit is not backed by a party strong enough to undertake such uphill work as this, and to meet also the opposition of the existing municipal administration. Judging by the opinions that have come from the City Hall in the past day or two, any bill for constructing an underground railroad on the city's credit would be vetoed by the Mayor. As the matter stands then to-day rapid transit must undergo another long spell of waiting, or appeal to private capital for help. It appears to us, looking at the many needs of the city and the peculiarities of its financial condition, that not only must rapid transit but others of our important municipal improvements must be carried out by private capital, if they are to be carried out at all.

"STYLE" IN REAL ESTATE INVESTMENTS.

TO MANAGE real estate profitably has not been entirely an easy task in recent years. That, we all confess. It has not, perhaps, been more difficult than to conduct successfully any other form of business during times of general depression, but this thought has not comforted brokers and owners who have been wrestling with the real estate conditions of the past decade. A catalogue of the plagues that have vexed us may well remain unpublished, partly because many of them were merely temporary visitations, and arose from causes which lie outside of real estate. They are passing away with the improvement of general business. Some troubles, however, were and are organic, and among these must be counted those arising from the transitional condition in which so much New York realty has been placed by the recent expansion and development of the city. We mean more particularly by this the shifting that has occurred of trade and other centres, and the changes that have been made in the construction and equipment of buildings. The latter, we know, have been especially revolutionary. They have disturbed the real estate owner within a few years more than the previous quarter of a century's slower evolution. In these and in other similar matters events are moving at a pace so accelerated that now an important part of real estate calculations is to calculate or evaluate change itself. We do not intend to convey the idea that this more rapid evolution is detrimental, on the whole, to real estate. Clearly, however, it may work decidedly adversely to the real estate owner personally, because he is not always ready or prepared to meet all the new conditions which the shifting times may thrust upon him.

Students of the situation have, of course, recognized this. They have seen also that what may be called the "competitive elements" in real estate are infinitely more numerous now than they have ever been. We doubt, however, whether an entirely new factor, or rather one which has acquired lately a very much greater value and intensity has received in real estate operations, the attention it deserves. We refer to the factor of "style."

To illustrate. Everybody knows how rapidly buildings become "old fashioned" and "out of date" in the matter of equipment. Here invention has been so busy. Even novelty, sheer novelty, for its own sake, has been so industriously sought after that lay people who, a few years ago, paid little attention to matters of equipment, plumbing, etc., have greatly trained their faculties of observation. Indeed, "modern improvements" is now a term which covers a very much shorter period than it did. In some things it has scarcely a rigid application beyond the current year.

Now, it is likewise with "style"—style in architecture, style in decorations, and not only in the forms these take, but in the materials in which they are expressed.

Two or three decades ago this thing, "style," was comparatively stationary. Certainly, it hardly counted at all as a factor that the investor had to allow for in his calculations. His brownstone front, his high stoop, his Corinthian porch without, his walnut trim and white marble mantelpieces within, would be as much in "vogue," and quite as salable, so far as he could see, five years thence as on the first day of purchase. Style was not then an affair of a season. It counted, to be sure, in a way, but for nothing like what it has come to count for. On the part of the public there was no such demand for mere "mode" in the decorative and ornamental parts of buildings as exists to-day; indeed, decoration was then a very much smaller element in our buildings that it has come to be.

This is the age of the decorator. That person is present everywhere. You can't escape him. He is one of the busiest of bodies in a busy world, and change and novelty are the essence of his

creed. Fast as he moves, the world runs with him. To-day he insists upon the style of the Empire, to-morrow it is Louis XIV., afterwards the Dutch Renaissance, then the Old Colonial, Francis I. or Rococo. Indeed, ninety-nine out of a hundred who speak of "art" really mean "mode" or "style." A public which has small perception of real beauty may yet acquire a strong notion of the "correct thing." To-day, we hear one must use natural woods because they are "artistic," to-morrow it is gold and white enamel. Colored marbles are the height of art (fashion) one season, but next year they are tabooed, and modeled plaster and tiling are the vogue. So it is with every detail. "Style'" in building is become almost as transitory as in bicycles or in women's clothes. Everyone has an eye for the thing. Therefor, the public have come to demand it; and so acute is this demand that buildings stylistically considered deteriorate seriously in a year or two.

This is our point, then. In future the real estate investor must allow in his calculations for the new element. He must add to the old factors, such as interest, depreciation, repairs, and so forth, this one "deterioration in style." He must understand that within a very short time his building will wear an old-fashioned look. The very attractions with which he lured tenants the year his building was finished—that dainty Louis XV. boudoir, that Elizabethan dining-room, the handsome carved wooden mantelpieces, or the marble trimmed halls—will not appeal with the same force twelve months later, and after another year his building will look so far out of date, because of these attractions, that no "artistic family" (that is, no family that values "fashion") would seek to inhabit it. Certainly, such a building would then have a very small chance in general competition with more modern buildings.

This state of affairs will, of course, be truer of some classes of buildings than of others, but that feverous art-mania which has already made our houses merely a sort of resting place for a long procession of diversified chairs and tables, wall paper, hangings and crockery, is not likely to spare any section of a community like this, where the servant girl feels it a duty she owes to herself to follow fashion as closely, or perhaps a little more closely, than the millionaire's wife. The result will be that probably all owners of property will find that henceforth they will be forced year by year to reckon more and more with "style" just as of late years they have been compelled to pay greater attention and more continuous attention to equipment.

A FEW more fires and a few more elevator accidents probably will be necessary before we all awake to the need of limiting the height of buildings. Reform in such matters is never so much an affair of thought and reason as of nerves. To produce the necessary action you must give the public a shock by means of blood and disaster. A rousing accident is worth pages of scientific, irrefutable argument. Make a man feel that his own precious skin is in danger or his limbs, and you have converted him beyond peradventure. Ever since we began building the extremely high buildings warning voices have spoken to us of the dangers and evils we were creating. We have been told that "fireproof" as applied to any of our structures was at best a relative expression. Absolutely fireproof buildings do not exist. No attention has been paid to these utterances because it hasn't been possible to add the "illustration" to the text. The partial destruction of the Home Life Insurance building has furnished the world with the example required, so that henceforth it will surely be easier to get the ear of people when something is said about the wisdom of limiting the height of buildings.

NO BUILDING should be higher than one hundred and twenty feet. A city of structures of that altitude even would be a comparatively uncomfortable place to abide in. It would be generally draughty, damp and deficient in light. Aesthetically, too, it would be miserable, unless, indeed, the width of its streets were proportionately increased to provide ample space for the buildings. We must not forget that the standard width of our thoroughfares was established originally when our structures were rarely even five stories high. They were ample for buildings of that altitude. But fifteen to thirty stories is quite another matter. The proper practice is to regulate the maximum height of buildings by the width of the street on which they front. Indeed, the sanitary and aesthetic objections to the skyscraper are chargeable directly to the relative narrowness of our streets, and not to the structures themselves. If this point were always kept clearly in mind perhaps there would be less controversy between those who favor and those who do not favor tall buildings. In the plains of Shinar there was no objection, save that of Divine interference, to man piling up brick as high as he pleased, but the property-owner who attempts to erect twenty stories on a sixty-foot street should be met half way by a crowbar. New York must take this evil in hand. Vilest Chicago has already done so, and Darkest Philadelphia is preparing to protect its citizens. If commercialism is the only consideration that is to govern in New York it will kill itself in time by its own excesses.

THE HOME LIFE BUILDING FIRE—AN OBJECT LESSON.

LAST Sunday night the five-story marble front building, of ordinary construction, on the southwest corner of Broadway and Warren street, was completely destroyed by fire. A fierce gale of wind was blowing from a northwesterly direction, and the flames, as they rose skyward, were forced against and into the adjoining fireproof building on the south, the Home Life Building.

This building has a frontage of about 55 feet on Broadway, and a depth of about 101 feet. It is sixteen stories in height above the sidewalk, or about 192 feet to the flat roof, and about 50 feet additional to the top of the tower. Excepting the front wall, it is constructed on the steel skeleton principle. The front is an elaborate design in white marble, with several balconies and other heavy projections. In plan the building is dumb-bell shaped. The narrow middle portion contains the three elevators and the staircase, and forms the hall or passageway between the wider front and rear parts of the building. Thus, two open courts are provided in the centre, one facing the north and one the south, with the narrow portion of the building between. None of the window openings in these courts was protected by iron shutters. In the northerly gable walls, above the roof of the corner building, were many window openings, and these were not provided with shutters. The window frames and sashes were of wood.

Through the unprotected window openings both in the gable walls and the northerly court the flames were driven. They were carried across the middle hall passageway into the southerly court, and still farther into a corresponding court of the Postal building, reaching several of the stories of the later building and doing considerable damage.

In the Home Life building the flames practically consumed everything combustible in the eight upper stories. In addition to the furniture and other contents, the fire destroyed the window frames and sashes, the doors, trim, floor boards and the wooden floor sleepers. The filling between the steel floor beams was flat arches of hard-burnt clay, and it resisted the fire well. The partitions were of hard-burnt clay blocks. The heat scaled the white plaster from them and from the ceilings, which, by the way, it cannot do when porous clay material is used. The columns were well encased in fireproof material, and to this, perhaps, it is due that the building is uninjured structurally. The Fire Department could obtain no water above the eighth floor, or about 108 feet above the sidewalk. Higher, the firemen were helpless, and the fire had to burn itself out without let or hindrance. There was a fire stand-pipe and hose in the building, supplied from a tank on the roof, but when this comparatively small supply of water was exhausted, the pump in the sub-cellar, immersed in water that had poured down the elevator shaft, could not be worked to refill the tank.

Every important fire teaches valuable lessons, but the Home Life building fire reveals scarcely a single point of weakness that has not been recognized for several years past, and to remedy which amendments to the building law have actually been drafted. In the Home Life building there is no concrete filling to the top of the wooden sleepers on which the floor boards are nailed; this leaves air spaces for the fire to spread with rapidity under the floors, and pass from room to room through the doorways. The lack of this filling also leaves the top flanges of the steel floor beams exposed to the effects of heat. The existing law does not require the filling of concrete to extend to the under side of the floor boards, except in the construction of theatres. The requirement should be made to apply to fireproof floors in every kind of building, but in all buildings over 125 feet in height no wooden floor boards should be allowed, only cement, rock asphalt, marble tiling, mosaic or similar substances. In all fireproof buildings the interior columns should be encased with fireproof material; the existing law does not now require this to be done. In all buildings over 125 feet in height no outside window frames or sash should be allowed, except of iron or of wood covered with metal or fireproofed in some way, both on the outer and inner sides; no trim for window or door openings should be allowed of wood, but hard plaster used instead; all doors should be of wood covered with metal on both sides and edges, or of wood treated by some approved process to render the same slow burning; in all inside partitions where sash is used the glazing should be with wire-glass; if the area of the building is large, two separated staircases should be

provided, one of them to be inclosed in brick walls; an auxiliary fire apparatus, consisting of tanks, stand-pipes, hose, etc., of pattern and regulation kinds used by the Fire Department, should be provided; a steam pump and one passenger elevator should be kept in readiness for immediate use by the Fire Department during all hours of the day and night, including holidays and Sundays; possibly a watchman, who shall be a retired member of the Fire Department, should be employed by the owner from the hours of 6 p. m. to 6 a. m. every day, so that in case of fire at night there shall be an employee familiar with the building and the fire extinguishing apparatus therein to furnish proper information to the firemen in the performance of their duties; the requirement for outside fireproof shutters must be more rigidly enforced for fireproof office buildings; slate or marble treads and landings on inside staircases should be supported directly underneath in an adequate manner, so that in the event of the stone becoming shattered by heat or other cause a safe passage will be afforded; partitions must not be started on wooden sills—a lesson taught by the Temple Court fire some years ago—but must rest directly on the fireproof floor arches. The projections on the front of a building of any kind of material that can be affected by heat must be limited. If this limitation is put in the building law it will be the first time that the New York law has interfered with architectural design, but the Home Life building fire proves that a limitation to projections is necessary. The entire facade of that building above the eighth story is so badly injured by flames as to require its being taken down and rebuilt. Under the heat the projecting marble split and crumbled and fell, the heavy falling piers cut the fire hose laid across the sidewalk into the building, not only preventing a proper supply of water getting into the building, but making it simply impossible for firemen to pass in or out of the building by the street entrances, without taking an unjustifiable risk.

The advisability of continuing to erect skyscrapers, or of putting a limitation on the height of buildings, is not considered in this article. Our readers know that we advocate a limitation. The question, however, must be met with entire fairness, and without misrepresentation. Probably if a fire had started in the Home Life Building it would have done no great damage to it or the adjoining buildings. The Home Life and the Postal buildings acted as barriers to the flame and possibly prevented the conflagration from spreading over one or two blocks. "Fireproof," in its application to a building, is only a relative term; it does not mean incombustibility. Intense heat will melt steel and brick and reduce stone to powder. There is no doubt that one of the effects of the late fire has been to crystallize public opinion against excessively high buildings, but the advocates of limitation for height must present other reasons than the inability of such buildings to withstand fire. The advancing science of building fireproof, enforced by law, will ensure better construction and fairly accomplish all that can be expected in a fireproof building.

We are nearing the time when a new building code will be enacted. The commission which is to prepare that work has nothing whatever to do with the question of limiting the height of buildings. The charter, in section 43, authorizes the Municipal Assembly by ordinance to regulate and restrict the height of buildings to be hereafter erected. When any ordinance on that subject is introduced the Municipal Assembly is required to give public hearings in reference thereto, before it or before appropriate committees. No such ordinance can be passed unless it is approved beforehand by the Board of Public Improvements, and unless it shall be passed by a majority of all the members elected to each house of the municipal assembly.

IN another column is given a proposed new schedule of water rents. The Department of Water Supply needs a larger income in order to sustain and improve the water supply of the city, and, as the charter provides for the equalization of water rents throughout Greater New York by the Municipal Assembly, the department has suggested a schedule that will enable it to carry on its work efficiently. Persons interested who may feel that they will be injured or unfairly treated by the new schedule now have an opportunity to make what representations they please to the Board of Public Improvements, or, later, to the municipal assembly. Given a necessity for a higher schedule, Manhattan and the Bronx do not seem to be unfairly treated—putting aside, of course, the thought that but for consolidation there would be no necessity to make a change so far as those boroughs are concerned—because the total of the increase they will pay into the treasury of the Department of Water Supply, if the new schedule is adopted, as it most probably will be, is not much more than that of Brooklyn. However, the facts are before the property-owners in time for remonstrance if any care to make one.

WATER RATES—PROPOSED INCREASE.

The Board of Public Improvements have before them a draft ordinance to equalize the water rents in this city, and on which, it is stated, final action will be taken at their meeting on Wednesday next. It was drafted under Section 473 of the Charter, which requires the establishment of a uniform schedule of rents and charges for water supplied by the city to residents and consumers. When approved by the Board, the ordinance will go to the Municipal Assembly for their consideration.

The draft ordinance increases the water rates in Brooklyn from 7½c. to 10c. per 100 cubic feet, as in the boroughs of Manhattan and Bronx. It increases the house frontage rates in the boroughs of Manhattan and the Bronx to the rates now in force in Brooklyn and leaves out an old provision or rule applicable on all private houses, of one bath and one water-closet free to each private house. Generally it makes the higher rates in either Manhattan or Brooklyn the uniform rate for the whole city, only reducing rates in Flushing, College Point, and Whitestone, in the borough of Queens, and in Riverdale and Spuyten Duyvil, in the borough of Bronx. The increased revenue from all of these charges will be: In Manhattan and the Bronx, $275,000; in Brooklyn, $250,000; in Long Island City, $30,000; total, $555,000. These increases will place the boroughs of Brooklyn and Queens on a basis to permit the issue of bonds for new work, besides providing for repairs and sinking fund. The proposed ordinance is the following, with the exception of one paragraph, which applies to river craft, omitted:

An Ordinance Establishing a Scale of Water Rents for the City of New York.

Be it Ordained by the Municipal Assembly of The City of New York as follows:

That the minimum annual rents and charges to be collected by the Department of Water Supply shall be as follows, to wit:

Front width.	One Story.	Two Stories.	Three Stories.	Four Stories.	Five Stories.
16 feet and under	$4 00	$5 00	$6 00	$8 00	$9 00
16 to 18 feet	5 00	6 00	8 00	9 00	11 00
18 to 20 feet	6 00	8 00	9 00	11 00	12 00
20 to 22½ feet	8 00	9 00	11 00	12 00	13 00
22½ to 25 feet	9 00	11 00	12 00	13 00	14 00
25 to 30 feet	11 00	13 00	14 00	15 00	16 00
30 to 37½ feet	13 00	15 00	17 00	19 00	20 00
37½ to 50 feet	17 00	18 00	19 00	20 00	21 00

The apportionments of the regular frontage rates upon dwelling houses are on the basis that but one family is to occupy the same, and for each additional family one dollar per year shall be charged.

Building Purposes—10 cents per 1,000 brick, all masonry at same rate, 500 brick being equal to one cubic yard.

Plastering—40 cents per 100 square yards, openings not included.

Baths—All baths $3 per annum.

Water-closets and urinals of every description that are supplied with water from a measuring-tank or cistern, from which only a limited quantity can be drawn, viz.: about three gallons at each pull, $2.

When supplied with water from a tank other than a measuring-tank, from which an unlimited quantity can be drawn by holding or fastening the valve open, or when the supply is received direct from the water supply, $5.

Meter Rates.

For all stores, workshops, hotels, manufactories, office buildings, public edifices, on wharves, ferry-houses, stables and places not enumerated, the rate shall be ten (10) cents per one hundred (100) cubic feet. When only part of the water supply of building is metered, the frontage rate will also be charged. Where water is obtained by pumping from wells or by purchase from other parties, all buildings shall be metered at a rate of fifteen (15) cents per one hundred (100) cubic feet.

Meters will be placed on all houses where there is an extra use of water; where required to ascertain the amount used and where waste water is found, they will be charged at rates fixed for all the water passing through them.

All charges not herein mentioned or fixed are reserved for special contract by and with the Commissioner of Water Supply.

A SIGNIFICANT COMPARISON.

To the Editor of THE RECORD AND GUIDE:

A comparison of the plans filed for new buildings in the Borough of Brooklyn with those filed in the Borough of The Bronx, for this week, is most suggestive to operators in real estate or those interested in the study of the direction of the city's growth. In Brooklyn there were 70 plans filed at an estimated cost of $289,775, or an average cost per building of, say, $4,000. In the Borough of The Bronx there were 59 plans filed at an estimated cost of $693,500, an average cost of $11,754. In other words, these plans call for an expenditure of two and a half times as much money in the 23d and 24th Wards, as in the entire city of Brooklyn, and the average of each building to be erected is nearly three times as great.

Nor is this an isolated occurrence, as the same higher average has prevailed for a considerable period.

It is a long time since there has been anything approaching a "boom" in real estate in New York City; nor is the happening of one much to be desired, but I think it is hazarding very little to prognosticate where the next outbreak will have its locality, as the above figures will suggest to those who look a little ahead.

AUGUSTUS A. LEVEY.

CEMENT FLOORS.

A LESSON FROM THE BROADWAY FIRE.

George Edward Harding, of Harding & Gooch, the architects for the Postal Telegraph Building, after inspecting the scene of the great fire in Broadway which broke out on Sunday night, gave it as his opinion, according to a daily paper, that that building was "saved by its cement floors."

This opinion is supported by two evident facts. The fire was unable to gain any headway in the Postal Telegraph Building, chiefly owing to the incombustible nature of its floors. In the Home Life Building the floors were the principal means of communicating the fire. In every story, in the Home Life Building, where the flames obtained firm lodgment, they shot along the fire-feeding wooden floors with such rapidity as to prevent effective measures to check their progress.

The amount of combustible material afforded by the wooden floors of a modern sky-scraper is not, perhaps, generally realized. The flooring-boards in the Manhattan Life Building, for example, if laid singly in a straight line, would reach from New York to Albany, a distance of about 160 miles. Small wonder that another eminent architect, Hugh Lamb, of Lamb & Rich, is reported as saying that, "As long as our tall buildings are fitted out with wood furnishings and wooden floors so long will they be an easy mark for fire.

Commissioner Brady, of the Department of Buildings, and Inspector S. M. Rutherford, ex-Deputy Commissioner, are equally explicit on the subject of fireproof floors. Mr. Brady, in discussing the failure of the Building Department to insist on iron shutters in the Home Life Building, is reported as saying: "The necessity of putting up shutters in the Home Life Insurance Building was discussed by the Board of Examiners at the time of its completion. The building was thought to be fireproof, and so it was—as fireproof as it is possible to make a building unless the floors are cement and the door and window frames iron."

Inspector Rutherford is reported in the same strain. "This fire demonstrates," said he, "that fireproof buildings such as the Home Life are not a failure. Changes will undoubtedly be made in the building laws, the most important of which, with reference to buildings of this class, should be the prohibition of wooden floors. If there had been no wooden floors in the Home Life it would have escaped."

The effect of the fire on the interior of the Home Life Building was graphically described in a morning newspaper as follows: "The upper floors were completely gutted, though not a single story had fallen in. The wood had been eaten off the floors and the plaster from the walls and ceilings till nothing but the bare terra-cotta interiors were left.. But each floor was intact by itself. The fire had broken in from the outside wherever it had done any damage."

The danger from wooden floors has been emphasized with such startling distinctness by the Broadway fire of this week that, in one of the largest office buildings now under construction, the work of laying down wooden

floors has been stopped, though partially completed in five stories, and a contract is already under negotiation for cement floors throughout the building.

Cement floors, as at first laid in this country, were open to the objection that they were liable to crack. But this objection has been overcome in the system originated by Ronald Taylor, of No. 156 5th avenue. Mr. Taylor employs a Portland cement filling-in over the rough brick arches level with the top of the iron beams, over which is laid a 2½ to 3-inch cement finished surface. The cracking of large cement surfaces being due to contraction and expansion under varying degrees of temperature and moisture, the floor is cut up into blocks, which are so fitted together as to permit of contraction and expansion without cracks resulting either in the floor surface as a whole or in the individual blocks. This flooring can be laid in a variety of colors, and is cut in patterns of diamonds, squares, etc., according to preference. Brackets, sockets and pins are inserted around the base-boards to hold carpets or linoleum.

The first architect of note to recognize the advantages of this system of cement flooring was George Edward Harding, and it has for years been specified by Harding & Gooch in all the important buildings designed by them notably the Holland House, the Postal Telegraph Building, the Commercial Cable Building and the Dun Building.

Originally employed in the Holland House, Mr. Taylor's cement floor gave such satisfaction that it was without hesitation adopted for the Postal Telegraph Building, owned by J. W. Mackay. On being awarded the last-mentioned contract Mr. Taylor, before proceeding with the work, took a trip through Germany, Austria and Italy to observe the methods employed in those countries where cement and mosaic floors have been in use from time immemorial. He made a careful examination of the work in those countries in order to give the Postal Telegraph Building the benefit of the experience to be gained thereby. He not only inspected the floors laid down but also the factories where the different compositions were made, and made an attentive study of the processes employed there. He had then been in this line of business about sixteen years, and was, of course, able to profit by such a journey. Doubtless this trip had something to do with the very excellent results obtained from the cement floors he afterwards laid in the Postal Telegraph Building, and which so successfully stood the test of the recent fire.

It may be asked, What are the virtues which make this flooring so suitable for hotels and office buildings? In the first place, the answer is, Its absolute fireproofedness. Very few people, as pointed out above, are aware of the immense amount of lumber that goes into a high building to form its floors and trim, notwithstanding that it is the constant study of architects to reduce the amount of combustible matter as much as possible. With the floors composed of an incombustible material the danger of fire spreading from one apartment to another is very much lessened, if not, in fact, entirely removed.

Another point is that these floors can be laid down very quickly, and are ready for use within a week of being laid down. On sanitary and hygienic grounds they are preferable for hotels and apartment houses; they can be easily and thoroughly cleaned, no foul matter or disease germs can penetrate below the surface to be an annoyance and danger to health thereafter; no vermin can get into them and form ineradicable breeding places as they can into wood. The reasons which make the cement floors good for one building make them good for another, protection from fire and the preservation of health and comfort being of first importance everywhere. Finally, they are practically indestructible, and as their first cost is very little more than that of wood, they are in the end the most economical floor that can be laid down.

The importance of substituting incombustible for combustible floors cannot be too strongly insisted upon in a city of tall buildings. The rapid-working limit of the New York fire department is nine stories. It is estimated that during business hours 44,000 people live above the ninth floor—the line of safety—in the big downtown office building. And "as long as our tall buildings are fitted out with wood finishings and wooden floors so long will they be an easy mark for fire."

The economic advantage of absolutely fireproof construction is equally patent. The downtown district, owing to the multiplication of tall buildings, contains in the neighborhood of 50 per cent. more of rentable commercial housing than it did in 1880. As a consequence, rents have declined fully one-half. At the same time, the value of land has gone up enormously. The decline in the net income-producing power of improved real estate necessitates the keenest economy in running espenses. An important item of possible saving is in the matter of insurance. The better the fireproofing the lower the insurance. Further, an owner that can announce that his building is thoroughly fireproof and can demonstrate the truth of his announcement has in that fact a powerful assistant in procuring tenants. The rapidity with which the Postal Telegraph Building, as well as the more recent buildings fitted with cement floors, have been filled was in good part due to the confidence inspired by the precautions taken in construction to provide against danger from fire, one of the most important of which was the fireproof floors laid down by Ronald Taylor.

THE DUN BUILDING.

Northeast corner of Reade St. and Broadway. Harding & Gooch, Architects.

At the same time, when a landlord represents his building to be fireproof it would seem as if he were liable to damages in case his tenants sustain loss from a fire which proves his building to have been otherwise than as represented. It is understood that this question is presently to be settled in the courts by the tenants of the Home Life Building.

It is less than a dozen years since the introduction of the skeleton system of construction raised a host of practical difficulties, sanitary, engineering and architectural, by reason of the increasing height and magnitude of downtown buildings. The first impulse was for the lawmaker to step in and put a stop to constructural development by repressive legislation. In many cities the height of buildings was limited to the point of safety under antiquated measures of protection against disease and fire. In New York, on the other hand, the Let-Alone policy has been pursued, with the result that to-day the majority of the downtown day population enjoy far more comfortable, sanitary and esthetic surroundings during business hours than in their home life. A result of the Broadway fire will, no doubt, be that, on the one hand, architects and owners will recognize the necessity of extending the idea of fireproofing to the smallest details of construction, while, on the other, the city will be forced to hasten the installation of an auxiliary high-pressure water service for use in the extinction of fire. In other words, it can only be a question of a short time before the tall office building shall be as impregnable to fire as it is to epidemic diseases. That this is the most

desirable solution of the fire question requires no argument. A law limiting the height of new buildings would destroy millions of dollars in land values. Besides, ever since the time of Rome and the Byzantine emperors, laws restricting the height of buildings have been found to defeat their own ends because of continual tampering on the part of the legislative authorities.

WAR TAX RULINGS.

The following are the rulings of the Internal Revenue Department, on the Revenue Law of this year, relating to real estate, as summarized in the Treasury Decisions of Nov. 17, 1988, and are continual and additional to similar rulings given in our issue of Sept. 3 last, on pages 315-316:

DEEDS AND MORTGAGES.

Deeds and mortgages executed by a sheriff in compliance with an order of the court, are subject to a tax.

Contract for deed, which does not convey and vest title, and which contains a provision for giving a deed upon compliance with the conditions in the contract, is not taxable, as a conveyance of land.

If a deed does not grant, assign, transfer or convey to the purchaser, any lands, tenements, or other realty, but only the right to burial, to erect monuments, etc., it does not require a stamp.

A tax is not imposed upon an instrument whereby the title to personal property is conveyed, except where expressly provided by Schedule A of this act.

There is no difference in the rate of taxation between that on a chattel mortgage and on a mortgage of realty.

Deeds, mortgages and similar instruments, placed as "escrows," are not subject to taxation until final delivery.

Where a mortgage states full amount secured, and provides for present and future issues of bonds, it should be stamped, according to the full amount secured.

Quit-claim deeds are subject to taxation, according to the value of the property interest conveyed.

The stamp tax is required to be paid on the assignment of a mortgage, at the same rate as on the original instrument, when there has been no reduction of the mortgage prior to the assignment. Where an assignment is made of a mortgage by a separate written instrument, and the mortgage and instrument are deposited with a trustee, as security for obligations, the stamp tax must be paid on the memorandum of the pledge of these instruments at the rate fixed by the paragraph relating to the mortgage or pledge.

Where a mortgage is deposited with a trustee, as security for obligations, without any assignment, but accompanied by a power of attorney, authorizing an assignment in the event of a default upon the obligations, the stamp tax is required to be paid on the pledge of the mortgage, and also on the power of attorney, but not on the transfer authorized until this transfer is completed.

Mortgages received by a State from persons to whom State lands may be sold, are subject to the stamp tax.

Abstracts of title do not require to be stamped.

Deeds of release of mortgages and trust deeds require to be stamped. If the releases are simply certificates that a lien has been removed from the property, only a 10-cent stamp is necessary; but if they are instruments which reconvey the title to the mortgagor, they must be stamped like other deeds, being the amount released.

Where local laws authorize entry of satisfaction upon the record, and the mortgage is thus cancelled, such entry does not require a stamp. If the mortgagee, as he has a right to do in some States, makes a power of attorney to the register, or recorder, or other person, for the entry of satisfaction of the mortgage, stamp tax must be paid on this power of attorney.

The words of purchase in the paragraph of the law relating to conveyances of real estate include all changes of title, except those occurring by descent or operation of law.

A mortgage, no matter what date, should not be admitted to registration when presented on or after July 1, 1898, unless there is attached and cancelled, the proper revenue stamp.

In cases where consideration in a deed is nominal, the actual value of the property conveyed should govern the amount of the stamp required.

On an assignment of a mortgage, the tax is based on the amount remaining unpaid of the mortgage assigned.

LEASES.

Where leases are executed in duplicate, so that both are originals, both are required to be stamped; but if there be but one original, copies thereof are not required to be stamped.

This office holds that where a receipt is given for money received as rent for certain premises and for a certain term, and there are no other recitals in the receipt, it does not require a stamp. If the receipt contains any phrase or clause that can be construed as a contract for the hire, use or rent as aforesaid, in such cases the receipt becomes something more than a bare receipt, and should be stamped according to its tenor and effect. A mere reference in a rent receipt to an existing lease, duly executed, will not be construed as a new lease.

Leases, which are assigned, are taxable on the basis of the term assigned.

Landlord and tenant agreements letting property by the month are taxable at the rate of 25 cents as leases for a less period than one year; if the tenancy continues for a longer period than one year, there is no additional tax imposed on the instrument.

For the benefit of those who are innocently or foolishly involved in the exposure of violations of the War Revenue Law, discovered this week in the Register's office in this city, it may be stated that there are cases in the legal reports which maintain the position that the Courts of this State will not regard the absence of federal stamps from a deed as vitiating the title thereby conveyed. The position of the Federal government towards these delinquencies is given in Section 13 of the War Revenue Law, by which wilful evasion of the requirements of the law to duly stamp documents and cancel the stamps, is made a misdemeanor punishable by a fine or imprisonment, or both; the un—or insufficiently stamped documents themselves are declared to be invalid and of no effect. A proviso of the section allows omissions to stamp documents to be voluntarily made good by any party interested within one year, on payment of the proper amount of the tax ,and a penalty of ten dollars, and, where the tax exceeds fifty dollars interest, at the rate of 6% per annum upon its amount; further, the collector of internal revenue, to whom application is made for this purpose, may remit the penalty when it shall appear to his satisfaction, upon oath or otherwise, that the failure to stamp the documents was without willful design to defraud the government.

The Appellate Division yesterday reversed a Special Term order denying an application, made by the Consumers' Brewing Company, for a mandamus directing Register Fromme to receive for record a renewal of a chattel mortgage upon a saloon, which he had refused to receive unless revenue stamps to the amount of $1.50 were affixed. Justice O'Brien, who wrote the opinion for the Appellate Division, which was concurred in by all the Justices, said: "A failure to comply with the war revenue law is something with which the Register has nothing to do. The duty of the Register is to record or file in his office those instruments or papers which by the laws of the State are entitled to be recorded or filed. In Moore vs. Moore (47 N. Y., 467), a case arising under the revenue law of 1861, it was held that it is not in the constitutional power of Congress to provide for the State a rule for the transfer of property, and that a deed is valid to prove title though not stamped, and in People ex rel. Barlow vs. Gates (43 N. Y., 40) it was held that Cogress cannot make rules of evidence for State courts."

REAL ESTATE EXCHANGE.

The report of the Directors of the Real Estate Exchange and Auction Room, Ltd., which will be presented to the stockholders at the annual meeting on Monday next, will say:

Your Board of Directors have the pleasure to report that notwithstanding the adverse conditions to which the Exchange has been subjected during the past year, the receipts have been sufficient to pay all expenses and leave a balance of $2,288.32. When it is considered that this result has been obtained in spite of the competition of many new buildings in the immediate vicinity, a competition which has rendered it impossible to diminish the running expenses, but rather to increase the same, so as to keep abreast with modern improvements, your Directors feel that the result is highly satisfactory.

The Committee on the Sale of the Building have used every reasonable effort to dispose of the property, but their object is to sell and not to sacrifice, and they believe that in this attitude they will be supported by the majority of the stockholders. With the real estate market broadening day by day, your Directors feel that the time cannot be very long before the property can be sold on terms satisfactory to the stockholders.

The annual membership has kept up fairly well, and the receipts, while not being equal to the expenses of the Information Bureau, yet are quite satisfactory.

Proper resolutions were adopted in sustaining the Government in the war with Spain. The Board have also urged the completion of the Elm street improvement. They have endorsed the action of the Merchants' Association in demanding liberal rates by railroads to induce merchants throughout the country to come to New York, and opposing discrimination against the business interests of New York.

Liberty street is now in a passable condition at any time of day, and we are indebted to the Police Department for their efforts in that respect.

The accounts of the Exchange for the past year have been examined by an expert accountant and reported to be correct.

We have to regret the death during the past twelve months of the following members, and appropriate action was taken in the case of active members:

Henry M. Taber, John N. Heubner, George Theiss, Jeremiah Johnson, Jr., Lionel Froehlich, S. Van Rensselaer Cruger, George H. Stonebridge, C. Henry Garden and A. Ernest Vanderpoel.

The revenue account for the year showed: Balance on hand, $2,150.55; interest on balances, $77.18; income from rents, $22,986.16; subscriptions, etc., $1,704.85; total, $26,918.74; expenses, $21,345.42; interest on mortgage, $3,285; balance, $2,288.32.

REAL ESTATE BOARD OF BROKERS.

At the annual meeting of the Real Estate Board of Brokers, held on Tuesday last, the following Board of Governors was elected for the ensuing year: William Henry Folsom, Walter Stabler, Irving Ruland, Samuel F. Jayne, Albert L. David, John F. Doyle, J. Hamilton Hunt, Fred'k. D. Kalley and J. Edgar Leaycraft. Frank R. Houghton and H. H. Cammann, whose names were on the ticket published last week, declined to serve, and Messrs. Kalley and Leaycraft were elected in their places. Wednesday the Board organized and appointed officers as fol-

lows: John F. Doyle, president; Walter Stabler, vice-president; Albert L. David, secretary, and Fred'k D. Kalley, treasurer; Henry B. Kelly, manager. The Standing Committees for the ensuing year are: Finance—Walter Stabler, chairman; Samuel F. Jayne and J. Hamilton Hunt. Admissions—Albert L. David, chairman; F. R. Houghton, J. S. de Selding, Arthur E. Wood, and John C. R. Eckerson. Floor—Walter Stabler, chairman; Gerald R. Brown, John H. Hallock, Bryan L. Kennelly, and Chas. Griffith Moses. Records—Irving Ruland, chairman; William Henry Folsom, and Fred'k D. Kalley. Arbitration—J. Hamilton Hunt, chairman; Alfred E. Marling, Chas. S. Brown, J. Edgar Leaycraft, and Augustus H. Carpenter. Stock List—William Henry Folsom, chairman; Richard V. Harnett, and Frederick Southack. During the past year there were fifteen applications for membership of the board, of which eleven were favorably received.

THE WEST END ASSOC'ATION.

The annual meeting of the West End Association was held on Monday evening last, when officers for the ensuing year were elected as follows: President, Cyrus Clark; vice-presidents, James Van Dyck Card, John C. Coleman, James J. Phelan; treasurer, J. Edgar Leaycraft; secretary, G. B. Sheppard.

The other business transacted included the election of Charles Abbott, No. 120 West 80th street; Louis Booream, No. 100 Broadway; Orrin C. Frost, No. 101 West 82d street; Wm. Willis Merrill, Hotel Endicott, and Killiaen Van Rensselaer, No. 68 West 71st street, to membership. The resignation of Henry Spies was accepted.

The Special Committee on Dock Encumbrances reported that they had seen both Dock and Park Commissioners and obtained promises that present encumbrances on docks upon Riverside Park front would be removed, and no more permits issued. It was hoped to have the docks cleared within the next two months. Regarding the Amsterdam avenue four-track matter, a motion making the matter a special order for the January meeting was carried. On motion, a resolution was adopted approving the ordinance proposed by the Commissioner of Street Cleaning to the Municipal Assembly, requiring surface railroad companies to remove snow from their tracks, and for two feet on each side thereof, and dispose of same under direction of Commissioner of Street Cleaning. A resolution was adopted asking the Municipal Assembly to pass an ordinance requireing street railroad companies to place transfer station at junction points.

ANNUAL DINNER OF THE BUILDERS' LEAGUE.

The annual dinner of the Builders' League of New York, last Saturday evening, was a very interesting, enjoyable and successful affair, and once more proved the community of feeling animating the membership of the League, which is one of the most attractive features of that institution and one of the chief causes of its success. The dinner took place in the large ballroom of the Club, No. 74 West 126th street, which was beautifully decorated with flowers, ferns and palms. There were 128 covers and interest was so well maintained that not more than a dozen of the diners left before the proceedings closed at 12.15 a. m. John P. Leo, President of the League, was in the chair, and ably kept the programme well to the fore, so that there were consequently none of those dull breaks, which often send guests away from entertainments like this earlier than they would otherwise go.

The guests of the evening, who occupied the positions of honor at the right and left of the chairman, were: Commissioner Brady, of the Department of Buildings; Wm. J, Fryer, Senator Ford, Assemblymen Donnelly, Fallowes and Slater; Rollin P. Morgan, of the Corporation Counsel's Office; Cyrus L. Adams, President of the Lumber Trade Association of New York; Wm. K. Fertig, Secretary of the Building Trades' Club, and ex-Inspector Steers of the Police Department.

Addresses were delivered by these gentlemen, as well as by the Chairman. The gentlemen who will soon go to Albany to discharge their public duties, advised their hearers to keep watch upon all legislation affecting the building trades, and to acquaint the speakers with their views upon it. It was pointed out that this was the way that the country constituencies kept their representative alive to their wishes. New York business men, however, were careless in this respect, and sometimes had to suffer for their carelessness. Senators and Assemblymen would much prefer to hear directly from business men upon any legislation affecting their intersts than from any agent they could send to Albany. Commissioner Brady also invited direct communication on building matters, and Mr. Morgan sought the same thing for the Municipal Council, to whose assistance he has been directly assigned by the Corporation Counsel. These practical addresses were interspersed with lighter forms of entertainment, among which are to be mentioned the excellent vocal efforts of Messrs. Searls, Shelstone and Babcock, who are members of the League.

It has been proposed that a special three-day trip to Washington be arranged for the members of the League and their wives, to take place in January next, and the matter will be considered at the next meeting of the Board of Directors.

FIREPROOF WOODWORK IN BUILDINGS.

The disaster to the Home Life Building in the fire of Sunday last has demonstrated very plainly that although fireproofing has reached an advanced state as applied to floors, walls and other principal portions of a structure, there is certainly great room for improvement in the construction of the trim, window frames, floors, and other like portions of a building. Some material is needed which will not ignite and give way under the action of fire. It is recognized that those portions of a building just mentioned cannot with any comfort be constructed of any other material than wood, and for the past fifty years numerous efforts have been made to perfect a process by which wood may be rendered non-inflammable. After years of study and experiment, made under the direction of the inventor of the process carried on by the Electric Fireproofing Company, a system has at last been perfected which has been proved to be the only effective method of fireproofing wood. Tests as to the merits of this process were made in 1895, before the Building Department and Fire Department of New York City, and these proved to be highly satisfactory from every point of view.

The process used by this company for rendering wood noninflammable is essentially as follows: A mineral phosphate in solution is forced under high pressure, into the wood under treatment without disturbing to the slightest degree the fibre or diminishing the tensile, compressive or transverse strength of the wood. This mineral crystallizes throughout the fibres after the wood has been subjected to a kiln drying process. Tests of various kinds of wood treated in this way were made at the Stevens Institute of Technology about the middle of February of this year, under the direction of Prof. D. S. Jacobus, M. E., and Pres. Henry Morton, who is one of the experts for the New York Board of Fire Underwriters, which proved this fact conclusively, and, in addition, they demonstated that the substances with which the wood is treated and which renders it non-inflammable, are fixed and non-volatile, and will remain in the wood, and give it protection for all time.

The great necessity of protecting the wooden portions of what are known at the present time as "fireproof" buildings has been presented repeatedly during the last ten years, and it remains for Architects George Edward Harding and Gooch to be the first to render buildings safe in this respect. They adopted fireproof woodwork and placed it throughout in the Dun Building, the Commercial Cable Building and the Queens' Insurance Company's Building. It is greatly to the credit of these architects that they were the first to observe the merits of this process, and it is confidently stated by representatives of the Electric Fireproofing Company that, had the Home Life Building been provided with fireproof trim, floors, etc., the damage resulting from last week's fire would have been greatly reduced.

This wood can be used with the same facility as ordinary wood and the process of fireproofing does not affect its color or its texture. It is interesting to note that it was extensively used in the construction of the following vessels of the United States Navy, many of which took part in the engagements of the late war, and none of which were affected by shells which embedded themselves in the woodwork: The gunboats Helena, the Nashville, Wilmington, Wheeling, Annapolis, Vicksburg, Marietta, and the Newport, in which all the woodwork was fireproof; the seagoing battleship Iowa, the cruiser Brooklyn, in which portions were constructed of fireproof wood, and the torpedo-boats Winslow, Rowan, Rodgers, Foote, Morris, Talbot, Gwin, Mackenzie and McKee, in which all the woodwork was fireproof. The Winslow was struck twenty-one times by shells without being set on fire. A very forcible indorsement of this system is the fact that the United States Government has, for the past three years, specified the use of this system of fireproofed wood in the construction of war vessels, and information has been received from abroad that this fireproof wood will be extensively used by foreign governments in public buildings as well as war vessels, as is strongly indicated by the extensive orders which have been placed with an English concern that has purchased the rights and patents of the Electric Fireproofing Company for Great Britain. It is to be adopted in the construction of war vessels in Denmark, France and Russia.

In the tests of this wood made in 1895, in response to a request from various gentlemen connected with the insurance, building and fire departments of the City of Boston, a building was constructed entirely of wood, treated by the Electric Fireproofing Company. Kindling wood was placed under the house and shavings and other combustible materials saturated with oil were placed in the middle of the room. The fires burned for more than an hour, until they had entirely consumed all the inflammable material in and around the house, and, upon examination, it was found that only portions of the sides of the house were black and carbonated, but that in no place had the fire caught. The planks were charred to the depth of about a quarter of an inch, and the glass in the windows was melted, but the structure had not been consumed to a greater extent than the charring referred to. The chemical action of fire on this fireproof wood is to form a shell of carbon over the wood to a depth varying from a fraction of an inch to an inch, according to the length of time the fire is in progress, and the degree of heat to which the timber or woodwork is exposed. This forms an impenetrable shield preserving the interior fibres of the wood intact. This wood can be finished in any desired way, either with varnish or paint, without impairing the fireproof properties of the wood.

THE POSTAL TELEGRAPH BUILDING.

Among many facts emphasized by the fire in the Home Life Building must be included this one—the excellence and thoroughness of the construction of the Postal Telegraph Building. This structure adjoins the Home Life and was subjected to a severe test. Had it not been for the care bestowed upon the general equipment by the architcts, Harding & Gooch, it would undoubtedly have shared the fate of its neighbor, and, of course, have contributed to a disastrous extension of the area of conflagration. The architects deserve more than the congratulations they have received.

Notice to Property Owners.

ASSESSMENTS DUE AND PAYABLE.

The Comptroller gives notice that assessments for sewers, etc., as under, are now due and payable. Payments made on or before Jan. 21, will be exempt from interest; after that date interest at the rate of 7 per cent. per annum will be charged from the dates of the respective entries of the several assessments in the Record of Titles and Assessments

CONCRETE FLOORS AND FIREPROOFED WOOD.

Referring to Fire Commissioner Scannel's statement of Dec. 6th, on the burning of the Home Life Insurance Building, where he remarks:

"I do not believe there is such a thing as a fireproof building. Buildings which are declared to be fireproof by the builders are fireproof only until a fire breaks out."

We are in full accord on some points with Mr. Scannel's statement that office buildings which are declared to be fireproof without having all combustible material reduced to a minimum and using concrete floors and fireproofing all woodwork that may be used in their construction, cannot be called absolutely fireproof. We have noticed in one of the New York papers that the Home Life was thoroughly fireproof in material and construction, and was built with "fireproofed" wood, and beg to say that was not true, as the trim work was not so treated, the floors being ordinary yellow pine material, and that the only three office buildings which have been constructed in New York City with solid cement floors, absolutely fireproof wood in their construction, are the Commercial Cable Building in Broad street, the Queens Insurance Building in Williams street, and the R. G.Dun Building on Broadway. All of these buildings are constructed with concrete floors and fireproof wood throughout, from start to finish, and from the fact that the combustibility of all such woodwork is entirely removed, we have been justified in the recommendation as architects of the Postal Telegraph Building, adjoining the Home Life Building, in view of the fact that the windows proved the vulnerable point of the Home Life Building, that the present woodwork of window frames and sash be removed from the Postal Telegraph Building on the north side courts, and substitute for same fireproofed material. Fireproof wood was an unknown factor at the time the Postal Telegraph Building was erected.

THE NEW HALL OF RECORDS.

Mayor Van Wyck will receive a delegation from the Hall of Records Association on Wednesday next, at 3 p. m., when he will be urged to use his influence to push the work of building the new Hall of Records. The delegation will consist of J. Harsen Rhoades, Ernest Hall, Geo. F. Butterworth, Wm. B. Hornblower, Thomas H. Baskerville, Abraham Stern, Edward E. McCall, Ferdinand Shack, Eugene A. Philbin, Mortimer C. Addoms, Alfred E. Marling, Douglas Robinson, Jr., Wm. C. Orr, Gibson Putzell, Edward W. Sheldon, L. J. Callanan and Sydney Ward.

REAL ESTATE AUCTIONEERS' ASSOCIATION.

At the annual meeting of the Real Estate Auctioneers' Association, held yesterday at No. 111 Broadway, the following officers for the ensuing year were elected: James L. Wells, President; Morris Wilkens, Vice-President; William M. Ryan, Treasurer; D. Phoenix Ingraham, Secretary. Executive Committee: Peter F. Meyer, William F. Redmond, Philip A. Smyth, Louis Mesier and A. M. Arneberg.

NEW BOOKS.

We have received from the Cambria Iron Company, through their representative in New York City, Mr. H. L. Waterman, 100 Broadway, a valuable handbook, relating to structural steel, and containing a number of useful tables, rules, data and formulae for the use of engineers, architects, builders and mechanics. It was recently said by one of the best-known engineers in the country that trade publications formed an important part of the most useful current technical literature. A volume, such as the one published by the Cambria Iron Co., substantiates this opinion. The book contains precisely the information the architect and the engineer constantly need, and which they cannot find in so handy a shape as here. In many respects the work is an improvement upon the current handbooks used for ready reference.

The Real Estate Market

Real Estate Market

The private sales' market has begun to show some signs of the relaxation, which always precedes the Christmas holidays, and which has become very marked this week in the auction room. Nevertheless, the character of the business consummated at private treaty has been of a satisfactory nature. Purchases of flats for investment have been rather more numerous than of late, while there is little or no falling off apparent in the demand for private dwellings. The sale of several mercantile properties in other than the show streets of the town, including the factory Nos. 224 to 232 Canal street, is a very welcome event. It constitutes, in fact, another signal proof of returning activity in a form of investment realty which recently has been wholly immovable. Transfers of property in the show streets, both residential and mercantile, have not been wanting. The sale of No. 411 Broadway, No. 122 5th avenue, and the north corner of 5th avenue, opposite the park, would be sufficient to redeem any week's business from the reproach of mediocrity. It is worth while to note that the upper 5th avenue lot purchased by Frank W. Woolworth, will presently become the site of another handsome private residence in what was until a few years ago a doubtful section of the avenue. The total number of transactions noted below is 39, with considerations given in 14, amounting to $967,000.

The following are the comparative tables of Manhattan and the Bronx of the Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897 given:

"Copyright by Real Estate Record Association."

This week's auction market has shown no improvement over its immediate predecessors. There was a limited list of announcements, and, proportioned to its extent, a large number of adjournments and withdrawals. The most notable sale was that of "The Gerlach" apartment house, Nos. 49-55 West 27th street, to satisfy second mortgage bonds amounting to $163,000, representatives of the holders of which were the buyers at $464,428. Subsequently a sale under the first mortgage was adjourned without date, and it was reported that the buyers at the first sale had arranged to form a new corporation to carry on the hotel, and, of course, provide for the first mortgage. Nos. 20-24 Pell street came under the hammer, and attracted some interest because they form the most prominent building in New York's Chinatown, both because of its size and uses as an assembly for Chinese, but in no other sense was its sale noteworthy. Other transactions are amply mentioned in the formal record of sales. The adjournments to dates beyond next week were: Nos 73-75 Gold street and Nos. 35-37 E. 20th street, to 19th and 20th insts., respectively. The withdrawals were: No. 22 Wooster street, on a bid of $33,000; Nos. 2293 and 2295 Southern Boulevard, the latter number on a bid of $14,850, and Nos. 2-10 7th avenue.

Richard V. Harnett & Co. will conduct the auction sale, in partition, of No. 36 Front street, No. 180 East Houston street, and Nos. 77-83 1st street, on Wednesday next, 14th inst. Notice of the sale will be found in our business pages, and the auctioneers will suppply full particulars, with maps, at Nos. 71-73 Liberty street.

Gossip of the Week.

SOUTH OF 59TH STREET.

Waverley place, northeast corner of Greene street, 8-story store and loft building. William K. Everdell is reported to have sold this property, taking in trade No. 634 Broadway, which he resold to Henry Corn, as reported in our last issue. No. 632 Broadway, which Mr. Corn bought at the same time, fetched $155,000.

Hudson street, No. 597, corner Bethune street, 5-story flat with store, 22x78; seller, M. L. Sire; buyers, Donnelly Brothers, lessees of the store; price $45,000.

9th street, Nos. 728-732 East, old buildings, 60x94; buyers, Cohen & Friend.

3d street, Nos. 223, 225 East, old buildings, 46x96; sellers, John Wieshaer and Mary Schumacher; buyer, Harry Fischel; broker, Albert B. Hilton.

Gouverneur street, No. 44, 6-story double-tenement, 25x100; sellers, Tully & Evans; buyers, Lowenfeld & Prager; brokers, H. Rinaldo & Bro.; price, about $39,000.

LEASES.

J. Arthur Fischer has leased No. 107 West 44th street 5-story building used as a hotel, to a Mr. Strake for five years, at an aggregate rental of $15,000; for Mr. Openhym to Mr. Wishman the 4-story store building, 873 6th avenue, for seven years, at an aggregate rental of about $17,000, and for Mrs. Cone, the 4-story English basement dwelling, No. 238 West 25th street.

BROOKLYN.

Daniel Birdsall & Co. have leased the Jaffray Building, No. 350 Broadway, to Rogers, Peet & Co. It is understood that the lease is for a term of years, with the privilege of surrendering the lease under certain conditions.

The following are the comparative tables for the Brooklyn Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

A number of prominent Brooklyn lawyers have petitioned the Mayor and Municipal Assembly for the establishment of a Municipal Court somewhere near the centre of the business section of Brooklyn.

REAL ESTATE NOTES.

Negotiations are well under way for a 21-year lease to the Pabst Brewing Co., of the 9-story mercantile building which Chas. Thornley is erecting at the junction of Broadway, 7th avenue and 42d street.

Jacob Hecht is reported to have sold Nos. 649-655 Broadway, a 5-story building, on plot 95x200. The owner has no representitive in this city, but the story is denied by a party in a position to know.

The Receiver of Taxes gives notice that upon taxes remaining unpaid after the 1st day of December, 1 per cent. will be charged, received and collected, in addition to the amount thereof; and upon taxes remaining unpaid on the 1st day of January, 1899, interest will be charged, received and collected upon the amount thereof, at the rate of 7 per cent. per annum, to be calculated from the 3d day of October, 1898.

E. A. Cruikshank & Co. were associated with Frederick Southack & Co. in the sale, last week, of No. 632 Broadway, running through to No. 164 Crosby street, for the estate of Mary Mason Jones. It is interesting to note that for several generations, namely, since 1783, the real estate agency for the Jones family has been continuously held by the Cruikshanks. The Cruikshanks have had charge, since 1782, of the perhaps even more extensive real estate holdings of the Schermerhorn family.

The Taxpayers' Alliance held a meeting on Monday evening last and decided to oppose the granting of further franchises to the Union Railway Co., for trolley lines in the Bronx, except on the conditions that the company agree in writing to charge a single fare of 5c., and to build the new lines within a specified reasonable time. This refers to some of the applications for franchises, reported in our issue of 26th prox., on which the Municipal Assembly will give a public hearing at 2 p. m., of 22d inst. Franklin Haines, Theodore Macy and R. S. Guersney were appointed a committee to represent the Alliance at the hearing.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

W. Sartell Prentice, an old member of the Stock Exchange, and of the Gold Board, when gold was a commodity, and well and favorably remembered by old-time operators in Wall street, has joined forces with Edwin B. Willcox, of No. 503 5th avenue and No. 59 Liberty street, and will give his attention to the real estate department of Mr. Willcox's 5th avenue office.

The real estate brokerage firm of Thompson & Pryor was dissolved by mutual consent on December 1st. S. Morris Pryor has leased a suite of offices at No. 130 Broadway, where he will engage in a general real estate business, together with that of auctioneering at the New York Real Estate Salsroom, No. 111 Broadway, where he has a stand for such sales. Mr. Pryor has associated himself with Anthony Arent, who will have charge of the department of private sales and exchanges. Robert Morrison will have charge of the bond and mortgage department.

One of the recent additions to upper 5th avenue real estate brokers is Henry E. Loney, formerly connected with the office of Geo. R. Read, and more recently with the firm of Pease & Elliman. Mr. Loney has established himself in the new business building, No. 542 5th avenue, corner 45th street, where he will give special attention to the selling and leasing of property in the 5th avenue district. This part of the city has of late years developed unusually in the minds of the real estate purchasing public and ought to prove a very fertile field of operation to a young broker of Mr. Loney's experience and business connections.

TRADE NOTES.

FIREPROOFING AT HOME AND ABROAD.

Judging from contracts recently made and completed, appreciation of the superior merits of terra cotta tile for fireproofing is not confined to the architects and owners of the United States. The Tramway Power Company, of Dublin, Ireland, several months ago, awarded the contract for fireproofing a building to the Pittsburg Terra Cotta Lumber Co. The material, amounting to about 1,500 tons, was shipped from the Pittsburg Terra Cotta Lumber Co.'s works No. 3, at East Palestine, Ohio, and men were sent to Dublin to put same in place, and recent advices say that the work was very satisfactorily done. Another contract received by the same company calls for about 1,000 tons of fireproofing for a municipal building at Mexico City, Mex. Work on this contract has not yet been started, but the tile has been made, and is now on the way, and the Pittsburg Terra Cotta Lumber Co.'s men will leave in a few days to set the material, which has been made at the company's works No. 2, at Port Murray, N. J. Experts say this is the first material of the kind ever exported by any company in the United States, and it certainly speaks well for the contracting company, whose facilities are of the very best. It should be added that the fireproofing for the Postal Telegraph building, on Broadway, which defied the fierce fire last Sunday night, was supplied by the Pittsburg Terra Cotta Lumber Co. Their Eastern offices are at No. 1123 Broadway, Townsend Building.

RANDOLPH & CLOWES IN OPERATION AGAIN.

Randolph & Clowes, of Waterbury, Conn., have issued the following statement, under date of December 3: "Because of the excessive storm in this locality, the roof of our brass and copper rolling mill caved in on Sunday morning, November 27, on account of which we have been somewhat delayed in filling orders for this class of material during the past week. We have finished removing the debris of the wreck and have erected temporary constructions over the machinery, and the brass mill will be in full running order on Monday next, December 5, when we will have all the rolls running in this department, and will be able to furnish sheet brass to all our customers promptly. The entire brass and copper mill will be in full operation on December 12. No damage or interruption occurred in any other department of the works, and the seamless tube, brazed tube, kettle boiler plants were in full operation on Monday morning, November 28, as usual. The

damage to the machinery was very small, less than $1,000, and the cost of replacing the roof with a permanent and substantial wooden roof will not exceed $6,000, or if an iron roof is used, will not exceed $12,000, which expenditure will put the mill in better condition than before the accident."

BOMMER HINGES.

The Bommer spring hinge which, in the diploma received at the World's Fair, Chicago, was declared "practically unbreakable," has been awarded a gold medal at the Trans-Mississippi International Exposition, at Omaha, Neb.

GILLIS & GEOGHEGAN.

The firm of Gillis & Geoghegan, for thirty years existing in this city, was recently dissolved by the death of the senior partner, Charles J. Gillis. A new special partnership has been formed under the old name of Gillis & Geoghegan, with ample capital to continue the business, available by consent of all the parties interested, and the business will be conducted at the old stand with the former partner, Stephen J. Geoghegan, and his son Charles A. Geoghegan, as general partners, and Frederic S. Gillis, son of Charles J. Gillis, as special partner. Louis O. Forman, junior partner in the old firm, has become associated with the new special partnership as Superintendent.

ELECTRIC FIREPROOF WOOD FOR GREAT BRITAIN.

The British Non-Flammable Wood Co., Ltd., of London, who have purchased of the Electric Fireproofing Company, of New York, the rights and patents to operate and control the Electric Fireproofing process in Great Britain, are to furnish the fireproof wood for the new yacht to be built for Her Majesty the Queen. The Admiralty has also adopted the Electric Fireproofing process and has ordered fireproof wood for all woodwork entering into the construction of four new battleships, two new cruiser and twelve torpedo-boat destroyers. Her Majesty's Board of Works has also ordered that fireproof wood should be used for all woodwork in the new addition to the British Museum, now building.

A LESSON FROM THE BIG FIRE ON BROADWAY.

The destructive fire at Broadway and Warren street last Sunday night burned fiercely for over an hour before the handsome structure of the Home Life ignited. It seems a pity that in such a building the sash and window frames were not of a character to keep off the flames. It is not the first large building that has been badly damaged by taking fire from without because the windows were not protected by Kalamein Iron Clad Woodwork, which, when properly constructed, is fire-resisting. Its merits are recognized by very many of the leading architects and builders, and the list of fine buildings where Kalamein Iron Clad Woodwork doors, window frames, sashes, shutters, elevator doors, casings, partitions, wainscotings, saddles, etc., are found is constantly increasing. The Criminal Court Building, Potter Building and Fire Headquarters, on East 67th street, were thus equipped years ago. Messrs. Howell & Roemer, of No. 553-557 West 33d street, are proprietors of the pioneer Kalamein Iron Clad Woodwork. They have supplied fireproof doors for the new Medical College, 26th street and 1st avenue, Cady, Berg & See, architects; annex to St. James Church, Madison avenue, and American Lithographing Co. Building, 4th avenue and 19th street; window frames and doors for the new Morgue, Withers & Dickson, architects; dumb-waiter and hall doors for four flats, corner of Avenue B and 3d street, erected by Geo. Vassar & Son for the Folsom estate, and elevator doors for John D. Crimmins' residence on East 68th street. Messrs. Howell & Roemer have just constructed for the Edison Co., on Duane street, office partitions, doors, sash, etc., all in copper, a particularly handsome job, and about the first of the kind. It shows that very handsome effects can be secured in Kalamein work. Howell & Roemer's telephone call is 352—38th.

The Building Trades

MATERIAL MARKET.

BRICK.—The arrivals this week were about the same as in any week for the past month, and sales were about equal. The leftovers have been cleared up. Indications are for an increase in prices. The threatened cold weather causes owners of vessels to lay them up rather than risk their returning to the points of loading. Pales are in extra large supply, and values are well maintained. Prices are about the same as last reported. The demand for New Jerseys is fair, considering the effects of the weather on building operations. Stocks are limited and manufacturers are not pushing sales.

LATH.—Only one cargo has arrived since the storm. This consisted of 2,500,000 lath, which were sold at $1.75. Dealers are asking $1.85 to arrive, and will probably get it.

LIME.—There is practically no Rockland in the market, and at most, only 2 or 3 cargoes on the way. The old stock has left first hands and wholesalers are not inclined to sell for the future at any stated price, preferring to remain easy until new stocks arrive. There will not be much here between now and the latter part of the month, although the new season will open a little before the usual time, because the present season was brought to a premature close by the storm of two weeks ago. It is reported that 14 lime vessels with cargoes on board were lost in the storm. State lime has advanced. The demand has been very good, and there is none coming here. All that is in New York is practically placed. This rapid absorption is due to the operations of dealers desiring to buy before rail rates went into effect. Jointa is at 90c. and common at 75c.

CEMENT.—Rosendale is in active demand. The season is rapidly nearing a close as the canal is liable to close at anytime, and shipments will then be by rail. Prices are firm at 70@75c. Domestic and imported Portland are in quiet demand; the unfavorable weather having decreased the inquiry it will, probably, not become active until the season opens.

PAINTS.—Prices remain unchanged, and trade is seasonably quiet.

LEAD.—The volume of business, in lead, during the past week, has been about normal for this time of year. Prices are unchanged from last quotations.

NAILS.—Local demand in cut and wire nails has not improved. There has been a little movement in the export trade which has partly compensated for the lack of demand in the domestic market. Prices show no material change over last week and are as follows: Cut nails are on a basis of $1.05@1.10 for base f. o. b. Pittsburg in carload lots; $1.20 and $1.25 on dock New York, carload lots, and $1.30 small lots New York stores; Wire nails are $1.25 for base f. o. b. Pittsburg in carload lots; $1.40 on dock New York, carload lots, and $1.50 for small lots New York stores.

GLASS.—Trade is seasonably active with a fairly well filled assortment on hand. Prices are unchanged at 80 for plate; 80 and 10 for French window, and 80 and 20 for American window.

NAVAL STORES.—The market was quiet, trade being mostly in small parcels for current needs. The tone of the market is strong and the European demand is reported to be sufficient to insure a good export trade from Southern points. In the local market, holders are asking full values, and the market closed dull at 39½c. for Southern and 40c. for machines. The inquiry for tar was limited, and the market ruled dull, holders not being disposed to make concessions. Prices are $1.70@1.75 for regulars, and $3.50@3.55 for oil barrels. Pitch was unchanged at $1.60@1.65.

OIL.—Trade is good for this season of the year, and the market shows no weakening. The seed market remains firm at $1.03 for cash in Chicago. Prices are steady for raw oil in this market, at 37c. for 5 bbl. lots and 38c. for smaller quantities. Boiled oil is selling for 39c.@40c. There is some little inquiry for futures to be delivered about January 1 of next year.

LUMBER AND HARDWOODS.—The market is in good condition, considering the season of the year. The current business is mostly in filling orders, and few new contracts are being made. This state of trade is expected at this time, but the inclement weather hastened the dull season. Large dealers concede that the advance noted last week in West Virginia spruce is reasonable, and should be maintained. Yellow pine is in good demand at reasonable prices. White pine is in excellent demand since it fills purposes in which no other wood can rival it. Hardwoods are in active demand, especially in middle and lower grades of oak, ash and poplar. Mahogany is bringing good prices, according to quality, widths, lengths, color and figure. Poplar is bringing from $31.00 to $34.00 for standard band-saw manufactured stock.

Building News.

MERCANTILE.

Broadway, southwest corner of Warren street. It is stated on good authority that the site, 50x110.9, occupied by Rogers, Peet & Co.'s store, which was destroyed in the big fire of this week, will be reimproved by the erection of an 8 or 9-story building from plans by J. B. Snook & Sons, No. 261 Broadway. Mr. Snook drew the plans for the old building 42 years ago. The owner of the property in question is Dean Hoffman, whose agents are the Hoffman Bros., No. 4 Warren street.

Broadway, Nos. 256 and 257. N, Le Brun, of N. Le Brun & Sons, No. 1 Madison avenue, the architect for the Home Life Building, states that the marble front of the upper seven stories will be immediately replaced, as also the damaged interior work —trim, plaster, etc. None of the fireproofing has given way from the girders or columns, and the structural parts of the building are uninjured.

For plans filed see pages 888-894.

OF INTEREST TO THE BUILDING TRADES.

Alfred H. Thorp, architect, formerly of No. 21 West 24th street, is now at No. 1133 Broadway, the St. James' Building.

The Tile, Grate and Mantel Association will meet on Thursday next in the rooms of the Building Trades' Club, at 8 p. m.

F. L. Wheaton, civil engineer, formerly of Palisade avenue, Jersey City, N. J., has removed to No. 13 William street, N. Y. City, Room 1109.

Geo. W. Kramer, No. 1 Madison avenue, has been commissioned to draw plans for a $10,000 brick church, at Yalesville, Conn.

David W. King and Beverly Robinson, formerly of No. 111 5th avenue, have removed to No. 1133 Broadway, St. James Building, Rooms 1102 and 1104.

There will be a meeting of the Master Plumbers, Association of Greater New York on Monday next, at 155 East 58th street, when matters of importance relating to the different boroughs will be discussed and acted upon.

There has been no progress during the week in the negotiations between the employers' association and the Building Trades Council, and it will probably be some time before the final terms of agreement are arranged.

The following appointments have been made in the Department of Buildings, Boroughs of Manhattan and The Bronx: Harry Stafford and Richard H. Pettit, building inspectors; Patrick F. Foley, inspector to supervise elevators. Thomas J. Kelly and J. W. C. Harvey, inspectors of plumbing, have been dismissed.

J. Reeben's Sons, No. 2589 3d avenue and 107th street and East River, have the contract for the demolition of the old Harlem Casino, at 124th street and 7th avenue. They are now at work clearing away the fire ruins of the Union Railroad Company's power house at West Farms.

The tenth annual vaudeville entertainment and ball of the Association of Master Plumbers will take place on the evening of January 12, 1899, at the Central Opera House, 67th street, near 3d avenue. A splendid programme is being arranged. Tickets can be had of A. H. Brown, No. 1777 Broadway. The Entertainment Committee is made up of J. W. Cooney, Chairman; T. J. Tuomey, B. F. Donohoe, Wm. O'Connell, J. W. O'Brien, T. F. Gaynor, A. A. Rhodes, T. J. McCormack, A. H. Brown, H. G. Gabay, and Paul Euell.

The number of permits issued in Brooklyn for new buildings and alterations, during the month ending Nov. 30, 1898, and the estimated cost of the same were: Brick buildings, 122; frame buildings, 289; total buildings, 411; alterations, 153; total number of permits issued, 564. Estimated cost of brick buildings, $862,400; estimated cost of frame buildings, $803,361; estimated cost of all buildings, $1,665,761; estimated cost of alterations, $172,791; total estimated cost, $1,838,552; total estimated cost for November. 1897, $1,442,005; excess in favor of 1898, $396,547.

The trustees of Columbia University have adopted plans for the proposed dormitories on that part of the grounds known as "the Green," prepared by McKim, Mead & White, and a resolution was passed declaring the purpose of the trustees to build as soon as the necessary money is provided by legacy or gift. The plans provide for four separate buildings, one just north of Havemeyer Hall, two on the 120th street side, and one north of Schermerhorn Hall. The avenue dormitories will be 40x156 feet, and the 120th street ones 40x200 feet. The four will accommodate 460 students in all, and their cost is estimated at $164,000 each for the smaller buildings, and $210,000 each for the larger.

Edward Kilpatrick, one of the best-known builders of this city, died this week, at his home 99th street and the Boulevard, from paralysis. Mr. Kilpatrick was born at Killea, Ireland, about sixty-nine years ago. Many of the residences in the Murray Hill and upper west side districts of the city were built by him. Among the public buildings erected by him are the Edison Building, in Broad street; the Cornell Memorial Methodist Episcopal Church, in 76th street, and the 37th street Methodist Episcopal Church. He also established the successful trim plant on West 67th street, which is now being carried on by E. W. Johnson. It is some years now that Mr. Kilpatrick ceased to be active in either building or manufacturing.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned, (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXII. DECEMBER 17, 1898. 1,605

REASONS for the present optimism of Wall Street and the advances in the quotations for securities there, are now on the surface and every one can see them. If we take one of yesterday's newspapers we will find statistics showing that the exports of the United States in 1898 for the first time in their history are greater than those of Great Britain, added significance being given to this by the fact that this is a period of business activity abroad. We also find most glowing reports of the condition of the iron trade and of the Maine ship-building industry; also minor items relating to new enterprises and development of old ones, involving large expenditures of money. These things indicate not only that business is good, but that it has been good for sometime, an assertion for which sufficient foundation could be found alone in the reports of railroad earnings and the number of stock issues that have recently entered the list of dividend papers. As to the public they now have no end of enthusiasm. The country is to spread its possessions and trade all over the world and London is to relinquish the place it now holds as clearing agent for the world to New York. Judging by the talk of the street and by the comments of the press, particularly the press outside of New York. these things are to be accomplished at once and without any of the setbacks that such revolutionary changes might be expected to meet. Of course, the thing is overdone, our people are never content to simply do things, they must always overdo them, notwithstanding many reminders of the evils that have followed their impetuosity in other times. It is undoubtedly a fact that industrially and commercially and most probably politically also, the country is entering upon new phases and conditions from which great wealth, power and influence may reasonably be expected, but they need more time for their coming than the people seem willing to allow. In this temper of the public there is no telling how long the advance in prices will go on or to what extent it will go. Money continues to be so cheap and, until some event transpires, unfavorable in character and prominent enough to arrest attention and to make people think, the speculative movement will continue.

WHILE the Czar's pacific congress is in session, most of the parliaments of Europe, where parliaments exist, and the despotic heads of the people where they do not, will be considering the ways and means of increasing their fighting forces. These acts may seem anomalous, if not contradictory, but as a matter of fact the second shows the necessity for the first. An army is something that is never complete. At any time it may want more artillery, or cavalry or infantry, or improved weapons, so that if something is not done to force a movement in the other direction, to equalize by reductions instead of by additions, a return to primitive conditions with the whole nation an army and control falling to military chiefs is inevitable. The Czar's appeal coming at a more opportune moment than similar previous appeals, may result in this something being done. Statesmen are as much oppressed by the demands of great military leaders as they are by the problem of keeping their constantly increasing populations in economic content, and are all the more likely to be willing to listen to any propositions that promise to relieve them of one, at least, of their difficulties. Therefore the times make for the prolongation of peace and also, therefore, commercial and financial circles are encouraged. The European money markets have eased somewhat in the past few days, the security markets have become more active and there is a more cheerful regard turned to the coming year than has been the case for a couple of months previous. London is discussing the advisability of governmental control of the telephones which, it is estimated, could be obtained for about $35,000,000. The Australian colonies have outlined works, which will necessitate the raising of loans to the extent of $40,000,000 in the coming year. Argentine foreign trade reports for the first three quarters of the year are the most satisfactory for some years and indicate an increase of customs dues of $2,000,000. The French Government have adopted the scheme for raising $40,000,000 for building railroads in Indo-China and a bill to authorize the loan has been passed by the Chambers. The monthly settlements at Berlin were made without producing remarkable incident and arrangements have already been made to meet the large demands sure to arise at the end of the year. While most branches of German manufactures are enjoying almost unprecedented prosperity, textile industries are in a bad way and curtailments are contemplated. The month of October was favorable to Austrian foreign commerce and the outlook has encouraged a speculative movement on the Vienna bourse, whether or not to be checked by the discovery just made of stock jobbing and a secret accumulation of an immense surplus by the directors of one of the greatest iron companies in the country, cannot yet be said.

THE SUCCESS OF FIREPROOF CONSTRUCTION.

A BROADER and fuller discussion of the results of the recent Broadway fire, assisted by a more careful examination of the burned premises than was then possible, confirm the view taken last week that fire-proof construction had thereby been tried and found fully up to all reasonable requirements. It should be noted that this is the first time that a fire in a fireproof building has been discussed in untechnical circles on the basis that an incombustible building did not necessarily mean the impartation of incombustibility to its contents. The reporters for the daily papers were good enough to admit this from the start, though still regarding it as a weakness and much to be deprecated. When the different view they took of the Manhattan Savings Institution building fire is remembered, though the building was not fire-proof, as the term is now understood, it will be seen that the public has learned something about these buildings in the two or three years that have transpired between the dates of the two fires.

In technical circles, of course, there was no need to specify such an allowance and the opinions arising therein, wholly confirm the wisdom of fire-proof construction. Experts in other cities seem to have carefully read all the reports of the fire and their views harmonize in favor of fire-proofing. One, D. H. Burnham, asserted that it would be found that the wood casings and furniture in the Home Life building only would be burned and the steel frame and walls escape material damage before those facts were actually demonstrated by examination. Now, this coming from a man technically informed and experienced in fireproof building shows that the science of that form of building has the necessary exactness about it to make it reliable. Mr. Burnham, or any other expert, knowing the nature of the elements involved in the problem could predict the solution with certainty.

The report of the President of the Home Life Building on the fire says: "There was not at any time any communication of the fire from one story to another through the floors, the fire-proof brick preventing such transmission;" so that the fire was communicated from without to each of the burnt stories of the building, which goes to prove what has always been claimed for fireproof construction and what each succeeding test proves that a fire occurring within the building could easily be confined to the apartment in which it occurs. Another paragraph of the report just referred to also deserves notice in this connection. It is this: "During the entire night this building stood as a bulwark, preventing the spread of the flames toward the south and it is admitted by all experts that a most serious general conflagration was thereby prevented." This being the case, it follows that a general conflagration would be an impossibility in any section solidly built under the laws governing modern construction; that that construction is, to the extent that it is used, an aid to the fire prevention service second only in importance to water. If the commercial section of Manhattan was composed wholly of fire-proof buildings the risks would be merely trivial.

Great casualties usually bring out a flood of suggestions, some practical, but more otherwise. The Broadway fire brought out but few. Fire-proofed wood for windows and sash, concrete floors, and iron shutters for windows overlooking old buildings are the best made, and while practical, they are not new. This partial silence is as much an evidence of the worth of modern construction as the positive evidence afforded by the burnt building itself. The Fire Department repeats its oft expressed demand that buildings higher than 125 feet should be supplied with auxiliary fire apparatus under its control, and adapted to use with its own appliances, and there is some likelihood that the authorities will soon give this demand consideration. The alternative suggestion from the same source, that an underground service

drawing its supplies from the North and East Rivers and operated by means of the fire-boat or stationary pumps, be laid in the commercial districts, is not so likely to be taken up. A cry raised sometime ago, that the water supply in the lower sections of the city was inadequate in case of fire in the high buildings, was met by the intimation from the municipal authorities that as the owners of those buildings had voluntarily and knowingly gone beyond the power of the Fire Department to help them, they would have to supply the deficiency at their own cost, and it seems as if things are working round that way now.

PUNCTUALLY at the hour appointed, the Mayor received the deputation from the New Hall of Records' Association on Wednesday, and listened to the arguments they had to present in support of their proposition that the work of building the new Hall of Records ought to be begun at once. The Mayor was sarcastic but encouraging. He interrupted a recital of the evils that would follow the burning up of the priceless records in the Register's office, by pointing out that the provision made in New York for them was as good as that made in any other part of the country, and that a good many records were destroyed in the Civil War, without occasioning the widespread disaster that ought to have logically followed according to accepted views. He also stated that the guarantee companies had each a duplicate copy of the records and in this, of course, was caught tripping himself, as he was informed that the companies mentioned had the records in skeleton only and, to examine titles, had like everyone else to consult the County Clerk's office. However, when all the deputation's case had been presented, the Mayor admitted that the new building ought to be erected as soon as the financial condition of the city would permit it and said the budget adopted in October provided a million of dollars for first expenditures. "So you see," said he triumphantly, "when you were getting your committee together we had already anticipated you." It was already known that the budget provided for interest on a million dollars' worth of bonds hereafter to be issued for public buildings, but until the Mayor's announcement before the deputation this week, it was not known that the specific purpose of the issue of those bonds was that of building the new Hall of Records. In bringing out this fact, the deputation served a very useful purpose, although the Mayor seemed inclined to have some fun with them. Another interesting statement made by the Mayor was that he did not know that there was anything wrong with the contract made by the last administration for the building. The difference in its consideration and the lowest bid seemed to be due to the contemplated use of a superior stone. The Corporation Counsel had the contract under consideration, but whether the contract was good or not, the work would be begun. In all the result of the visit to the Mayor is to put this very important matter in a more satisfactory position before the public than it has yet held.

RESOLUTIONS have this week been passed by various bodies, the Board of Trade and Transportation and a Wheelmen's organization, for instance, condemning the two sets of electrical tracks on Amsterdam avenue. In fact this project is condemned by all disinterested bodies; even the courts and city officials who are unable to refuse the railroad companies the privileges they are entitled to by law, issue their orders reluctantly and in other ways display their sympathy with the property owners and residents of the avenue who are making such a persistent fight against the double-tracks infliction. Meantime, however, the railroad company goes on with its work and preparations for installing the new motive power. The Amsterdam avenue case is one that brings out strongly one of the evils of our legal system, now happily remedied by the Charter, by which one generation could shackle its successors. A grant made under totally different conditions than prevail to-day gives the railroad company the ability to work irreparable mischief to property and in spite of an almost unanimous adverse public opinion. This is surely a case for compromise. There must, too, be a way by which the legal difficulties can be removed in the legislature and it would, we are sure, be perfectly safe to refer the mechanical ones to the engineers for solution.

THE evident intention of the City Government to adopt a more generous policy towards public improvements in the coming year will gratify real estate and building interests, though, as they receive their information from these pages, it will not be new to them. The list of improvements for which bonds are to be issued given in the daily papers yesterday morning, does not represent a new departure, it must be understood, but is the same list that was given in tabular form on page 711 of our issue of November 12th last. We say this simply in order that expectations of new work may not be unduly excited by the public works mentioned in the reports of our belated contemporaries being taken as additional, instead of repetitions of those given earlier by us.

MATERIAL MEN JOIN THE JOINT LEGISLATIVE COMMITTEE.

A special meeting of the Building Material Exchange was held in the Exchange, on Thursday, President Clifford Miller in the chair, to receive Warren A. Conover, Charles A. Cowen and Stephen M. Wright, a delegation from the Joint Legislative Committee, whose object is to protect the rights of employers at Albany, and which is made up of committees from the following organizations: The Mason Builders' Association, the Mechanics' and Traders' Exchange, the Building Trades' Club, the Master Carpenters' Association, the Marble Industry Employers' Association, the Steam Fitters' Association, and the Master Plumbers' Association. The delegation desired to enlist the support and co-operation of the Building Material Exchange.

The first speaker was Chas. A. Cowen, who explained the object and work of the Joint Committee. Mr. Conover was next introduced, and he pointed out the importance of protecting the interests of the employers, and asked for the support of the Building Material Exchange as a body and as individuals. In reviewing the work of the Joint Committee he spoke of the defeat of the Boycott Bill, and the bill requiring employers to pension for life any workman injured in a building, and enumerated twenty-two smaller bills inimical to building interests that were defeated in committees. He further emphasized the need of support from every member of the building industry. He stated that it was easier to defeat injuring legislation than to repeal unjust laws, and in conclusion asked that the President appoint a committee from the Building Material Exchange to work with the Joint Committee. Stephen M. Wright then commented on the methods employed by the labor organizations to harrass employers, and showed how closely the interests of the material dealers and contractors were united. In speaking of the building industry he said that it should be made as important, dignified and powerful as the other civic organizations of trade, and commerce, and that this could only be brought about by the co-operation of all those concerned in it.

The President then called for comment from the members of the Exchange, and Mr. Hammond moved that the chair appoint a committee from the Exchange to confer with the other members of the Joint Committee. This motion was discussed by Messrs. Wright D. Goss, Waldo and Howland, of the Exchange, and was finally passed after being framed to provide for a committee of three to act with full power.

BUILDING PLANS OF LAST QUARTER.

The report of the Department of Buildings for the quarter ended September 30th, has just been issued, and its salient features are reproduced in the tables given below. The first table, that classifying the buildings for which plans were filed, is significant of the dullness in the building trades in certain respects. The absence or rarity of costly buildings, of course, means that the big contractors have been to some extent idle, and that those who make a specialty of furnishing interior trim, decorations and fittings of the first-class have also been correspondingly disappointed. This applies not only to the quarter under review, but previous reports have shown it to be characteristic of the whole year. For instance, the number of office buildings for which plans were filed in the first nine months of the year was only 34, and their aggregate estimated cost $3,462,950, or an average of something about $100,000. Probably none cost anywhere near half a million of dollars, and when it is recollected that last year, in Manhattan alone, there were several costing over a million dollars each, which were actually built, and plans for several more which are still in the embryotic state, it will be seen that this is an off year in office building particularly.

Dwellings of the aristocratic class have also been fewer; in the nine months eleven only to cost a total of $935,000, and this must have checked also activity in the stores and workshops of the best decorators and furnishers very considerably. Happily, since the opening of the current quarter purchases of land have been reported, from which it may be inferred that there are in view plans that will increase the volume of office building and that of private dwellings in the coming spring. A number of very large building enterprises for which plans were filed last year, it is interesting to note in this connection, have not yet been carried out. For instance, there are the new Hall of Records, estimated to cost $2,500,000; the Hemenway estate building, on Broadway and Trinity place, whose probable cost was placed at $800,000; the Crocker building, with an estimated cost of $900,000; hotel on 34th and 35th streets, estimated cost $1,000,000; two hotels, one on 5th avenue and 37th street, and another on 5th avenue and 44th street on which the Paran Stevens estate proposed to spend $3,500,000. The execution of these plans was delayed for various causes, and some, as they were presumably filed to avoid an expected limitation to the heights of buildings, may never be executed at all; but a large part of the $8,700,000 of expenditure which they nominally involve will doubtless be eventually made.

What was true of expensive buildings was doubtless true of others, so that it may be taken for granted that a great many building enterprises were hung up this year, to await the clearing

up of the financial and commercial situation, beclouded last spring by the advent of war, and which, at the opening of the New Year, by all present signs will have no further cause for delay:

BUILDING CODE COMMISSION.

President Guggenheimer, of the Council, and President Thomas F. Woods, of the Board of Aldermen, have recommended to the Municipal Assembly that the following form the Commission to draft a building code for the City of New York: William J. Fryer, Chairman; Robert McCafferty, George A. Just and Cornelius O'Reilly, of Manhattan and the Bronx; Rudolph L. Daus and Bernard Gallagher, of Kings, and Daniel Callahan, of Queens; Rollin M. Morgan, as a representative of the Corporation Counsel, ex-officio, and the Board of Buildings. The draft resolution for the appointment requires that the code shall be prepared and submitted at the first stated meeting of the Municipal Assembly, in February, 1899, and requests the Board of Estimate and Apportionment to make sufficient provision to pay the necessary expenses of the Commission and the compensation of the seven members who are not now holding office under the municipality. The resolution was presented to the Council on Tuesday last and referred to the Committees on Buildings, Lighting and Supplies and Building Department for joint action thereon. The Board of Aldermen are expected to take the matter up on Tuesday next, and if there are none other than formal delays, the appointment will be completed early in the New Year by the approval of the Mayor. Probably the first duty of the Commission after organizing, will be to ask for an extension of the time within which to make their report, if this is not provided for while the resolution is in Committee, as it ought to be.

RIO GRANDE WESTERN.

In addition to the quarterly dividend of three-quarters of one per cent., which has been established on Rio Grande Western Ry. stock, this quarter the directors declare an extra dividend of one per cent. The official announcement will be found on another page.

The Building Trades

MATERIAL MARKET.

BRICK.—The number of barges of North Rivers that arrived last week was about 50, and all were sold. The prices quoted last week were maintained, although some little concessions were made on Pales, as they came forward in large quantities. It is believed that the last tows of the season have arrived from up the river, as navigation is liable to close at any time on account of ice. Loaded boats have generally been forwarded, but a number have been caught, and the cargoes will not be on the market until navigation again opens. There are few New Jerseys coming to the market, owing to the ice in canals and rivers, and holders are not pushing sales. Prices are about $5.75.

LIME.—There is no Rockland lime in the market; there are no vessels obtainable for transportation and the kilns are out so that holders are not pushing sales. Freights have advanced 5c. and are now 20c. per bbl. Prices have advanced 10 cents a barrel, and are now 75c.@85c. Lime will be scarcer for a month to come. There is no State lime here, and there is none on the way. There will probably not be any arriving until after the Holidays. Prices are firmer and are as follows: Jointa, 90c.; Common, 75c.

CEMENT.—Navigation having closed in the canal, no Rosendale is coming by water. The last tow arrived Wednesday night. The demand is good and all the stock in this market is practically placed. The demand for domestic Portland is seasonably good. The trade in imported Portland is very good and the demand is sufficient to absorb all that arrives.

LATH.—No lath arrived this week and there were no sales. There are none in the market, and wholesalers are asking $2.00 to arrive.

NAVAL STORES.—There has been a rising movement in spirts of turpentine, holders asking 41½c. for machines, at which figure there was a moderate trade. The offerings in this market were light, and the Southerns and foreign markets were higher. Later some holders were asking 42c., and the market closed firm at 41c. for Southerns and 41½c. for machines. The inquiry for tar was limited. Prices $1.70@1.75 for regulars and $3.50@3.55 for oil barrels. Pitch ruled dull and unchanged at $1.60@1.65.

OIL.—The market in oil for this week ruled a trifle stronger, owing to the advance in seed, which is now at $1.09 for cash in Chicago. Because of this dealers are showing a tendency to secure oil for the future before any further advance takes place. Prices are as follows: Raw oil 5-bbl. lots, 37c.; smaller quantities 38c.; Boiled oil, 39c., and 40c.; Calcutta oil, 54c.

GLASS.—The demand is seasonably good with discounts unchanged at 80 for Plate, 80.10 for French window and 80.20 for American window.

NAILS.—Owing to the marked increase in the demand for Bessemer pig and steel billets, there has been a strengthening this week in the price of both cut and wire nails. There is hardly a quotable advance for immediate delivery, but prices for future delivery have advanced 5c.@10c., and orders are being booked for the earlier months of next year on this basis. Local demand is still light although the inquiry is better than it was last week. Jobbers do not anticipate any strongly increased demand until after the Holidays. Prices are as follows: Cut nails, basis of $1.10 f. o. b. Pittsburg, for base, carload lots; $1.25 on dock New York carload lots and $1.30@1.35 small lots from New York stores. Wire nails, $1.25 f. o. b. Pittsburg for base, carload lots; $1.40 on dock New York, carload lots and $1.50, small lots New York stores.

LEAD.—The advance in pig lead has strengthened the market for white lead, although there has been no advance in prices. The demand is seasonably good.

PAINTS.—There has been no change in prices and trade is as good as usual for this season of the year.

LUMBER AND HARDWOODS.—Trade in lumber and hardwoods is seasonably quiet and will remain so until the latter part of January. Yellow Pine is in good demand, with prices unchanged. White Pine is good property, with prices unchanged as last reported. The advance noted two weeks ago in Spruce is being well maintained and the demand is good. North Carolina pine is in good demand, with prices about the same. Oak, plain and quartered, is in good demand for 1st and 2d grades. Ash and poplar are staple articles at continued good prices. Elm is particularly scarce and contracts have been signed for future deliveries. There is very little mahogany coming to the market, and prices vary according to the size and quality of stock.

OF INTEREST TO THE BUILDING TRADES.

Ingle & Almirall, architects, have moved their offices from No. 874 Broadway to Nos. 10 and 12 East 23d street.

A meeting of the Masons' Arbitration Board will take place at 8 p. m., on Thursday next, at the Building Trades' Club.

S. Eustace Simonson, architect, has opened an office at No. 169 Bowery, where he would like to receive samples of building materials.

The Executive Committee of the Marble Industry Employers' Association will meet on Monday, at 8 p. m., in the rooms of the Building Trades' Club.

The Directors of the Building League have approved the idea of an excursion to Washington next month, and a committee has been appointed to perfect details.

James Smith, roofer, of No. 149 East 26th street, and John H. Dale, electrical fixtures, No. 32 Thames street, have been elected members of the Building Trades' Club.

It was decided at this week's meeting of the National Academy of Design to erect at once in its new grounds, at 110th street and Amsterdam avenue, a temporary building for its schools and administrative offices. This measure has been made necessary by the erection of the new insurance building on 23d street.

The monthly meeting and dinner of the Architectural League of New York will be held in the club-rooms, No. 215 West 57th street, on Tuesday, January 3d, at 6.30 p. m. The subject for discussion will be the "Plan of the City," with a view to its reconstruction for the better handling of its commerce and population, and to provide new thoroughfares to give access to the proposed new bridges.

The Board of Public Improvements have forwarded to the Municipal Assembly a general ordinance enacting rules and regulations for the construction, care, maintenance and operation of poles, wires, conduits, subways and other electrical appliances in, on, over, or under the streets or in buildings in the City of New York. The ordinance is now being considered by the Council Committee on Law Department.

Bids were opened at the Navy Department at Washington this week for the construction of an equipment storehouse at the Brooklyn Navy Yard. The lowest bid was submitted by M. Gibbons & Son, of No. 320 Columbia street, Brooklyn, who offer to do the entire work for $62,975. The proposed structure will be fireproof, three stories high, 209x60.

CEMENT FLOORS

To the Editor of THE RECORD AND GUIDE:

Will you kindly excuse us for encroaching on your space, but we have been asked to rectify what might possibly lead to a misapprehension by our letter of last week, where we speak of the floors of the various fireproof buildings being constructed with cement floors. Attention was intended to be called to the fact that the actual supporting floors of these buildings were constructed of end-on porous terra cotta block arches, and the cement floors were filled in on top of these arches up to the floor level, instead of wooden floors, as has been customary in some other buildings.

Trusting this will correct a possible wrong interpretation of our meaning, we submit same, hoping for your insertion.

GEO. EDW. HARDING & GOOCH.

TRADE NOTES.

MASON WORK.

James McGovern, builder and contractor, of No. 70 East 85th street, No. 57 Ann street, and No. 673 Union avenue, has a record for honest and satisfactory work executed for many owners. Among other contracts recently executed was a 5-story flat, with tower ends, after plans by Architect W. C. Dickerson, for H. C. Wurm, at Morris avenue and 162d street; flats on Washington avenue, between 167th and 168th streets, for Architect W. C. Dickerson; flats on Webster avenue, 169th and 170th streets, for Chas. Muxall, and a flat now under way at St. Ann's avenue and 141st street, for John McQuade.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Agent and Broker James J. Etchingham has removed his office from No. 165 West 66th street, to the new and well-located store, No. 142 Boulevard, corner of 66th street, opposite the Hotel Marie Antoinette, and close to the 66th street "L" station. Mr. Etchingham has for the last ten years made the West Side the scene of his efforts, renting and collecting rents, selling improved and unimproved property, and placing mortgage loans, and by conscientious and intelligent work has secured a large clientele. His new offices are very attractive, and fitted with every convenience for the satisfactory and quick dispatch of business. Mr. Etchingham's telephone call is 493 Columbus.

Betty & Co., of No. 1216 3d avenue, near 70th street, are one of the old-established firms in that section. They do a general business in real estate, including the sale of property, collection of rents and negotiation of mortgage loans. Their list of property for sale in the vicinity of their office is most complete, and embraces many desirable parcels. Their telephone call is 1165 79th.

Hiram Rinaldo & Bro., of No. 233 Grand street—telephone call 996 Spring—are specialists for the sale, care and appraisal of realty east of the Bowery. They have had many years' experience, and are frequently called to testify as to the value of property taken for parks, schools and bridges. Their success as negotiators is shown by the many sales completed by them and mentioned from time to time in our "Gossip" column.

Wm. H. Budd, formerly in Wall street, and latterly in the real estate business on the West Side, has entered the employ of Edwin B. Willcox, of No. 343 Madison avenue, No. 503 5th avenue, and No. 59 Liberty street, and will have charge of Mr. Willcox's Columbus avenue and 88th street Branch, soon to be opened.

W. C. Dilger, of No. 198 East 58th street, near 3d avenue, is one of the young and experienced agents and brokers who handle exclusively centrally-located East Side realty. His specialty is renting and collection of rents. Mr. Dilger has a selected list of improved and unimproved properties for sale between 42d and 86th streets, east of 5th avenue, which he will gladly submit to intending buyers. His telephone call is 3436 38th street.

Henry H. Elliott, real estate and mortgage loan broker, is now locoated at No. 141 Broadway, Washington Life Building, where he has comfortable and well-equipped quarters. Mr. Elliott is an experienced realty broker, and gives special attention to the management of estates and the collection of rents.

Despite the proximity of the midwinter holidays, the private sales' market, this week, has been unusually active. The volume of business, indeed, has been considerably larger than the weekly average since the opening of the season. It is gratifying to note that the movement in centrally located mercantile property, though predominantly of a speculative character, continues to gather force. The confidence of professional operators in this class of real estate, which for several years has been immovable because of overbuilding, is, of course, based on an early recognition of the favorable turn which the renting market for stores and lofts has taken. The renting season for mercantile property is now at its height, and it is possible to note some pregnant developments. All the new buildings in Broadway, between Prince and 8th streets, are practically full—most of them absolutely so. The new buildings between 8th and 17th streets, are renting more slowly. Even here, however, the efforts of agents have been rewarded with a very appreciable measure of success. But the development which is most noteworthy is the evident shifting of several well-defined downtown trade centers to the new mercantile district between 17th and 23d streets, 5th avenue and Broadway. The migratory spirit is especially noticeable in the steam heating district in Centre street, between Duane and Walker; the millinery district in Broadway, including side and parallel streets, from Prince to 8th street; the wholesale and retail hardware district from Chambers to Houston; the stove, range and heater district at Beekman and Water streets; the upholstery, shades and brass goods district, from Canal to Houston street; and, the woolens, carpets and curtains district, from Worth to Spring. The more scattered lithographers and printers are also joining in the uptown movement. Among the well-known houses which have signed leases in the new mercantile section between 17th and 23d streets, although their downtown contracts do not expire before February or May, are: The American Radiator Co.; Jay C. Wemple & Co., shades; the Gould-Mercereau Co., hardware; the Columbia Shade Cloth Co.; Shannon, Miller & Crane, military goods; Jordan L. Mott, iron, and Wurzburger & Hecht, flowers.

The new buildings between 17th and 23d streets are rented to within from 10 to 50 per cent. of their capacity, the percentage of vacancy being conspicuous exclusively in those buildings which are only just completed; and, according to appearances, the supply of new stores and lofts will be pretty well disposed of before the end of the season. Stores, including basements, are bringing an average rental of $6,000 per year, under 5-year contracts, and lofts, 50x90, from $2,400 to $2,500. This is at the rate of 53 cents per square foot for lofts—a very fair price, indeed. The leases, commonly for five years, are graded, the rent rising from $2,100 to $2,750. The low rent for the first year or two represents a rebate for moving and fitting-up expenses. The maximum rent is usually attained about the third year. Facts like these explain the recent frequent speculative purchases in the district. The properties bought by Henry Corn this week and last, gives him possession of a T-shaped plot fronting 72 feet on the west side of 5th avenue, 65 on 17th street, and 60 on 18th street, comprising in all 19,420 square feet. Rumor has it that the plot will be immediately improved by the erection of a big store and loft building. Nevertheless, the future of the site remains unsettled, as Mr. Corn's first purpose is to dispose of it in whole or in part, if opportunity offers. The reported price paid by Mr. Corn for the entire plot, between $650,000 and $700,000, is evidently exaggerated. A conservatively liberal estimate would be $599,000—$110,000 for each of the two 5th avenue lots, comprising a plot 72x110; $144,000 for the 18th street, plot 60x90; and $125,000 for the 17th street plot, 65x92. Even this more conservative estimate, however, marks a very distinct advance in values over 1894, when the plot, 92x 175, on the southwest corner of 5th avenue and 18th street, sold at foreclosure for $437,000. The plot resold at private treaty in 1895 for $457,500. The inside L-shaped strip, 32x110 on 5th avenue, and 60x92 on 18th street, bought by Mr. Corn this week formed part of this plot, and, according to our estimate, brought $254,000; according to the published report $350,000.

Two sales in upper 5th avenue, the dwelling at the south corner of 66th street and the vacant site at the north corner of 92d street, serve to swell the remarkable record of transactions in this exclusive section for the past few weeks. The reported price of the 92d street corner, $250,000, is evidently much inflated, even though the effect on values of the Carnegie purchase be discounted. The sale of the new 7-story apartment house on the southwest corner of the Boulevard and 94th street, is a very gratifying event, being a cash "investment" transaction. Of a similar character is that involving the 6-story elevator apartment house just completed and as yet untenanted at No. 7 West 91st street. Sales of this description fully justify the activity in high-priced vacant sites in the uptown residential district, which has come to the surface this fall. The total number of transactions given below is 60, with considerations given in 10 and amounting to $1,584,500. Corresponding figures for last week were 39, 14, and $967,000 respectively.

The list of offerings in the Real Estate Salesroom was considerably longer this week than last. It was, however, almost wholly a schedule of legal sales, many of which had been adjourned from time to time. The length of the list, therefore, apparently indicated nothing more than a desire to complete pending business before the close of the year. There were only three parcels offered at voluntary sale, and each of these was bid in. The general tendency for some weeks past has been to withhold voluntary sales until after the holidays, in the expectation that the activity which is manifesting itself in the private sales' market will presently cause a sympathetic movement in the auction market. The only event which excited general interest was the sale in foreclosure, by William Kennelly, of No. 89 5th avenue, a 5-story stone front dwelling, unoccupied, on lot 26.3x100. The property was sold in partition of the Cheever estate in 1895 to Richard Collins for $87,000. The same year Mr. Collins resold it to Mrs. Helen A. Bissell, wife of P. St. John Bissell. The sale of this week was ordered by the court in the suit of Margaretta Pierrepont, in foreclosure of a mortgage or $85,00, against Helen A. Bissell and another, the amount of the incumbrances, including taxes, being $91,076. The opening bid was $85,000. The property was finally struck down to a representative of the plaintiff at $92,250. Following are the withdrawals and adjournments to dates beyond the coming week: Nos. 368 to 370 West 127th street, Peter F. Meyer, withdrawn; Audubon avenue, near 178th street, S. De Walltearss, with-

drawn; the southeast corner of Bowery and 4th street, Peter F. Meyer, adjourned to January 12; Nos. 403 to 407 East 23d street, Peter F. Meyer, adjourned to December 29; No. 18 West 90th street, Peter F. Meyer, withdrawn; No. 39 Avenue A, Peter F. Meyer, adjourned to 26th inst.

REAL ESTATE NOTES

The Supreme Court, Appellate Division, has decided, in the case of Anna S. Hill v. Samuel Wine et al, that a mortgaged premises having vested in the city there was no lien or mortgage that could be foreclosed.

The Taxpayers' Alliance have appointed a Committee, consisting of Theodore Mace, R. S. Guernsey and Franklin Haynes, to secure improvement of the waterways of upper Manhattan and the Bronx, with the idea of assisting development on their shores

The success of the Real Estate Trust Company, to which we have from time to time alluded, has additional and substantial proof in the increase just made in the half-yearly dividend for 3½ to 4 per cent., of which notice is given in our advertising pages.

No. 81 Chambers street, reported sold in our issue of December 3d, was bought, it is reported, by Nathalie F. Reynal for $90,000. Negotiations are under way for Nos. 77 and 79, adjoining, $92,000 having been refused for No. 79. The same people own Nos. 59-63 Reade street, adjoining the property mentioned on the rear, and it is reported that they will improve by erecting a building similar to the one on Murray street, adjoining the Postal Telegraph Building.

An attempt is now being made to suppress the noise nuisance on Park avenue by police proceedings. Henry A. Beyer, who resides at No. 1868, having summoned the New York Central R. R. Co. before Magistrate Cornell, in the Harlem Police Court, for violating Section 385 of the Penal Code, by running trains over a deep trough or channel instead of on a solid floor. Complainant asked that the case be sent to the Grand Jury. The Magistrate will hear arguments on 22d inst.

Thomas S. Clarkson, a retired real estate agent and broker, died suddenly on Monday last at his home, No. 22 West 22d street. He entered the real estate business in 1876 and formed the firm of T. S. Clarkson & Co., which he carried on for about 20 years with success and credit. He retired from business about two years ago, when his two sons, who, until then, had been associated with him in the business, joined Mr. Ogden in forming the firm of Ogden & Clarkson, taking the original Clarkson business with them.

A meeting, called by circular, of property-owners, to press for early appraisement and payment of compensation for property taken for the Division and Houston streets' parks, held this week, was a somewhat tame affair. Regarding these condemnations it is said that the Commissioners, weary of the constant delays caused by attorneys for the property-owners not being prepared to go on when their cases are called, are insisting upon the cases being closed up. The prospects of reports of estimate being filed at a reasonably early day are now good.

The annual banquet of the West End Association is announced for this evening. The scene of this festivity is Sherry's, 5th avenue and 44th street. The arrangemets have been entrusted to an able and experienced committee, consisting of L. M. Stanton, J. Edgar Leaycraft, J. V'D. Card, C. E. Hasting and Frank R. Houghton, a fact that secures success for this function. Among the public men who have accepted invitations to be present are: Randolph Guggenheimer, President of the Council; Geo. C. Clausen, President of the Park Board; Augustus Peters, President of the Board of Local Improvements; James McCartney, Commissioner of Street Cleaning; J. Sergeant Cram, President of the Dock Board; E. H. Fallows, Robert Mazet, H. P. Okie, Senator John Ford and John S. Roddy.

At the annual meeting of the Real Estate Exchange and Auction Room (Ltd.), on Monday last the old Board of Directors were re-elected to serve for the ensuing year. They are: Richard V. Harnett, Alfred E. Marling, J. Edgar Leaycraft, John F. Doyle, Solomon De Walltearss, Samuel McMillan, Moses Ottinger, Charles A. Peabody, Jr., Richard Deeves, John C. R. Eckerson, Hermann H. Cammann, Edwin A. Cruikshank and Cornelius W. Luyster. The annual report as given in our last issue, which refers to the matter of the sale of the Exchange Building, with accompanying statements of accounts were presented and adopted. The idea of getting the legal sales back to the Exchange was informally suggested, but obtained no encouragement from the meeting. The board organized after the meeting and elected the following officers: President, Richard V. Harnett; First Vice-president, John F. Doyle; Second Vice-president, Moses Ottinger; treasurer, J. Edgar Leaycraft; Secretary, Solomon De Walltearss. Standing committees were unchanged, except in the substitution of John H. Deane for Louis Berg on the Committee on Legislation. The memberships of the several committees were given in our issue of Dec. 25, 1897.

Questions and Answers.

TAX ON RECEIPT-LEASES.

To the Editor of THE RECORD AND GUIDE:

Please tell me whether or not this receipt, given for a rent receipt, for a 1-family house, 2-story, requires a war stamp or tax:

(1) New York, Dec. 1, 1898.

Received from John Doe, $25.00. Received payment, ———

(2) Or does this require a war tax stamp?

New York, Dec. 1, 1898.

Received from John Doe, $25.00 rent. Received payment. ———

(3) Could or would the law hold any party giving any of the above two receipts for rent received as liable to defraud the war tax stamp? Will you please print a rent (monthly) receipt which needs no stamp?

Answer.—Neither of the receipts named requires a stamp, nor could their issue unstamped be in any way construed as an attempt to defraud the Government. The extent of detail allowed in a rent receipt may be found in the War Tax Rulings, given in our last issue.—Editor Record and Guide.

COMMISSIONS—BROKERS, ETC.

To the Editor of THE RECORD AND GUIDE:

A, broker, has sold a dwelling, and ten dollars was given as deposit on part of purchase money, and receipt signed by seller. The buyer backed out. Am I entitled to my commissoin or not?

Answer.—Assuming that you are A, and that the buyer you produced was able to buy the dwelling, and that the agreement to buy was such as could be enforced, you are entitled to your commission.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

A country real estate agent promised a young man a commission (no details, and the boy did not know what he ought to expect), if he would bring customers for two houses which were in the agent's hands to rent. The boy did it in both instances. The agent paid him, after repeated delays, $1.00 in each case for his services. The boy accepted the $1.00, but told the agent that $1.00 was too small a commission, and that he was not satisfied. Is that fair? What commission should he pay? The two tenants acquaintances of the boy, moved from New York to the country town in New Jersey, where the boy and the agent live. The two tenants were total strangers to the agent.

Answer.—The agent should pay the boy one-half of the commission which he received.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Am I entitled to a commission or not? An owner called at my office and gave me his property to rent for $5,000, and after about two months' labor, I secured him a tenant, who was willing to pay $4,900, at which price the owner agreed in the presence of witnesses to accept. On parting the owner and tenant shook hands to signify their agreement to the other terms, parted with the understanding that I was to draw up the leases, which form had previously been submitted and agreed upon, and they were to call the following day to affix their signatures. At the time appointed for signing the lease, the tenant was ready, but for some unknown reason at the time, the owner declined to execute the leases.

Answer.—You are entitled to your commission.—Law Editor.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.
